Trader Horn. As one character Easter, Cambridge, '25, of :22. is fighting you. The character also declares that the jungle beautiful yet terrible, but may be beautiful in its terror.

Herds and herds of animals of every kind are photographed. Some of the shots are positively death-defying. Seeing the lion attack his prey and being set upon by friends of the prey is a fine example of realism in the picture. Similarly, the natives go through Gilmore, Comstock, "29, 170" 9": their death dances as if they had never seen the photographer.

### FROSH CLASS VARIABLE

Complete figures released today on registration of resident students for the first semester of the school year 1931-32 indicates a slight slump in several colleges over registration figures at this LAWRENCE, Kas.-Three days time last year. Total figures at lectures and demonstrations this time do not include the freshman class registration, late regis-The program has been ar- resident students so that no comranged by the extension division parison can be drawn between enrollment during the current semester and registration for the first semester of next year.

The Arts and Science college leads the other colleges in registered students with Teachers college second, the figures being 761 and 656 respectively. The Engineering college is third with 471 registrations and the College of Business Administration reports 453. Figures for the other colleges are: Law college, 144; Pharmacy college, 50; and Dentistry college, 99. Figures from the Agricultural college were not yet available.

All non resident students and freshmen will register at the beginning of the first semester next September during the regular freshman week. Any students who desire to make changes on their class schedules will be permitted to do so during the three days of freshman registration. Late registrations will also be made during this week.

Registration totals at the present time are not indicative of whether or not the total enrollment will be greater or less than usual since the freshman class is always variable in size. An indefinite number of students who attend school irregularly also usually wait until the beginning of school to register. The total enrollment for colleges except the Omaha medical college is 6104. Total registration for the first semester of next year so far is 2634 which does not include the Agricultural college nor the Graduate college.
