**THE SUMMER SESSION.**

That the idea of a summer session not as a separate school divorced from all other university activity but part of the regular program outlined for the year is rapidly gaining recognition among members of the faculty and those attending the six or nine weeks period. During the past few years special effort has been made to point out to the students that attendance at the summer session makes them as much a part of the student body of the University of Nebraska as if they had taken the same amount of work during the winter.

**Social Activities:** As there are practically no organized groups among the students during the summer, social activity received little or no attention until last year when, under the supervision of Professor Lantz, picnics and

parties were given. The idea was taken up in an enthusiastic manner and for this summer a definite social program is being outlined. If details can be completed, the first party will be held next Friday evening.

**Athletics:** With the A. A. U. national track and field championships on July 3 and 4, summer students will have an opportunity of witnessing some of the most spirited competition in the country. The best athletes from the various colleges and amateur organiza-

tions will take part in the meet.

**Student Opinion:** Last year for the first time in the history of summer sessions, a student newspaper was published under the supervision of the university. The venture was most successful and The Nebraskan with this issue again undertakes to convey to summer students news of campus activities, university announcements and student opinion. As your newspaper, we hope that you will take an active interest in its publication.
