

SUMMER GOLFERS GET UNDER WAY THIS WEEK

Fifty Entrants Swing Clubs In University Match Play Tourney.

Fifty golfers have qualified for the six flights in the golf tournament which is under way for the summer session students with M. R. Colson in charge. Three flights will be played over the Eastridge course by those who are members there and the other three flights will be played at Antelope.

The first round must be completed by July 15, the second by July 22 and the final round by July 29. It is possible that the winner in each flight at each course will play for the championship, although this has not definitely been decided by those in charge.

In the first flight at Eastridge club, Prince plays Dubry; Glenn vs. Webb; Gelwick vs. Colson and Starkebaum vs. Thomas. In the second flight Kiffian plays Klaurens while Jones and Archer meet. Lehman vs. Hildreth and Bittner vs. Partridge complete this group.

The third flight at Eastridge includes Jimmerson vs. Ettings; Young vs. Miller; Bowers vs. Kentopp and Binfeld plays Noyes and Hungate plays Liebendorfer for nine holes to see which pair meet in the lower bracket of this flight. Because of the fifty entrants, this was necessary.

Antelope Flight One will find Jack Lieben pitted against Stan Day; Koolen vs. Prucka; Byers vs. Linsen and Calvert vs. McProud.

Huff plays Webster; Schmidt vs. Gegier; McCormick vs. Panter and Lightbody vs. J. P. Johnson, completes the second flight in the Antelope course.

The third flight includes Stover vs. Dye; Hamilton vs. Guthrie; Ritchey vs. Snyder and Warren vs. Cropper.

Prizes will be offered, altho at this time it is not possible to announce them.

The above schedule is also displayed in Teachers College and Andrews Hall as well as a number of other places on the campus. The rounds must be played by the date signified in order to make the final rounds come out at the right time, just before the summer session is over.

HORSESHOE PAIRINGS PREPARED, DISPLAYED

The pairings for the horseshoe tournament are displayed in Teachers college and in the library and individual matches should be played off on or before the dates indicated so that the competition can go forward without delay and the champion be crowned before the summer session is over on Aug. 5.

There are three courts south of Teachers college which are open each evening for matches. They are especially in operation on Tuesday and Wednesday evenings at 7 o'clock for match and general play. Verne Jones is in charge of the tournament and when any doubts arise or when matches are completed, those interested should see him at once.

Each game is 21 points and best two out of three games for each round.

The pairings are as follows: Allen Schwartz vs. Clyde Cox, July 14; Leo Taylor vs. A. R. Guthrie, July 14; E. R. Cotting vs. R. L. Klaurens, July 14; N. W. Busch vs. R. M. France, July 14; D. A. Bressler vs. E. D. Clason,

Baseball Bugs Make Drill Field Hum on Mondays, Thursdays

Baseball is still being played every Monday and Thursday evenings on the drill field from 6:30 until dark and everyone who cares to come out and play is invited to do so, by Arthur and Verne Jones, in charge. Teams are chosen up each evening so that everyone has a chance to play. The league plans have had to be dropped owing to the fact that not enough men are playing to make a round robin schedule possible. However, from time to time various teams in the municipal league will be played both on the drill field diamond and at the other team's home field.

July 15; M. R. Colson vs. T. Schmidt, July 15; A. W. Epp vs. R. B. Miller, July 15; B. Beatty vs. Swan, July 15; John Uhl vs. R. J. Andrews, July 16; E. G. Lightbody vs. E. R. Rogers, July 16; A. R. Majors vs. George Dunn, July 16; H. F. Quimby vs. F. T. Wilhelms, July 16; Phil Vogt vs. C. R. Ritchie, July 21; Ivan Wilson vs. Arthur Jones, July 21.

CONDUCT STANDARDS SET UP FOR TEACHERS

Standards of conduct proposed by a recent N. E. A. Research Bulletin regarding the teacher's professional relations with teachers' agencies, publishers, and school supply houses include the following:

1. The teacher should deal only with teachers' agencies which operate in conformity with recognized professional standards.
2. No teacher or employed officer of a school should receive a commission or anything else of value from a teachers' agency.
3. The teacher should avoid any entanglement with publishing houses or other firms commercially interested in the schools.
4. The teacher should not write general testimonials for canvassers or other salesmen.
5. The teacher should not solicit sample text books when there is no immediate prospect for a change of tests.

BREEDER INSPECTS COLLECTION

David Breede of Hastings visited the Morrill museum Thursday to inspect the black rhinoceros, a specimen of the Adam Breede collection, which was recently received from New York City.
