PAN-HELLENIC TO AID FRATERNITIES IN CHARITY DRIVE

Sorority Council Head Says Girls Will Co-Operate In Fund Canvass.

PUBLISH DAILY TOTALS

Nebraskan Will List Money Contributed Toward The Greek Campaign.

Indications that the Panhellenic council will co-operate with the Interfraternity council in sponsoring a Christmas Charity Fund drive were reached at a committee meeting of the Interfraternity council yesterday afternoon, according to Bob Lau, chairman of the group.

Miss Julia Simanek, president of the Panhellenic council, declared that the council, at its meeting on Monday night, decided not to hold a Christmas party this year. It was suggested instead that sororities make contributions to the local Community Chest and co-operate with that agency in helping needy families.

The Interfraternity council, at its meeting Tuesday night, decided to abandon plans for a Christmas party. Through the suggestions of Mr. Louis W. Horne, director of the local Community Chest, the council decided to open an all-university subscription campaign by donating fifty dollars. The Daily Nebraskan will co-operate in the campaign by publishing every day the contributors and the lump sum received. Their money will be used by the Community Chest.

Miss Simanek promised that the secretary of the Panhellenic council would call the sorority houses and notify them of the plans that were adopted by the Interfraternity council, and suggest that they make their contributions to the fund.

Simanek Praises Plan.

"I think the idea for the Christmas Charity fund is an excellent idea, and I feel sure that the sororities will co-operate in putting the drive over successfully," Miss Simanek said.

At the meeting of the Interfraternity council, Mr. Horne suggested that the fraternities and other organizations or individuals on the campus co-operate with the Daily Nebraskan in carrying on the campaign. He said that contributors might specify the manner in which they wanted their contributions to be spent and that the Community Chest would help them in any way possible.

Contributions will be received at any time at the office of the Daily Nebraskan by members of the Interfraternity council or by Bob Lau, chairman of the committee in charge of the drive, in the Apgan office.

BLUEPRINT FEATURES ANNOUNCED BY EDITOR

Briggs Describes Stories To be Included in the December Issue.

CANDY, DEBAUFRE WRITE

Among other features the December Blue Print will contain articles by A. M. Candy and Prof. W. L. DeBaufre, according to Jerry Briggs editor.

Candy, who is the welding engineer for the Westinghouse Electrical Manufacturing company, has written "Automatic Arc Welding." He describes how automatic welding has been so improved that manual labor which it has ordinarily involved has been reduced to a minimum. More uniform welds and greater speed can be obtained in many classes of work than were thought possible before machine welding was made practical, according to the article. As an illustration, one operator can produce 585 automatic housings in one eight hour day, the article states.

Candy not only describes the advantages of automatic welding but points out the limitations of it. He is the son of A. L. Candy, chairman of the university department of mathematics.

"The Writing of Technical Papers" is the article by Prof. W. L. DeBaufre contained in the December issue. Prof. DeBaufre, who is chairman of the department of applied mechanics, is an authority on the preparation of technical papers, stated Briggs, editor of the Blue Print.

"Engineers are apt to find themselves at a loss when called upon to present the results of their experiments," says Prof. DeBaufre in his article. He takes the various details of technical papers and reports them in logical order, telling in a practical manner how they should be written.

BISHOP PREDICTS WORLD WAR LED BY COMMUNISTS

America Must Lead in Arms Reduction to Avoid Annihilation.

GERMANY IS KEY NATION

Hitler Control, Red Revolt, Russian Intervention is Seen by Nuelson.

European war, growing into world conflict and culminating in annihilation of western civilization by Russian bolshevism was predicted by John L. Nuelson, American bishop of central European Methodist Episcopal churches at the World Forum luncheon meeting at the Grand Hotel Wednesday noon.

"Unless America takes distinct constructive leadership in next February's world disarmament conference, I have absolutely no hope that this may be avoided," declared Bishop Nuelson.

Sketching the present political situation in Europe, he said: "Dormant conflict now exists between western Europe supported by Great Britain, France and the Little Entente on the one hand and Russia on the other. Between these lies Germany. The future of political Europe depends upon which of these Germany sides with. And Germany is drifting toward radicalism and communism."

France was accused by Bishop Nuelson as hastening the coming chaos by her demands for security.

DEBATERS COMPETE FOR SQUAD BERTHS IN TRYOUT TONIGHT

Aspirants Argue Government Control; White Will Name Team.

The second debate tryouts of the year are being held tonight to determine the men who shall make the debate tour planned for the second semester. Altho the debate trips have not been definitely determined, they will probably carry the teams thru Colorado, Wyoming, Kansas and Missouri, it was announced last night by Dr. H. A. White, debating coach.

The tryouts will be held tonight in University hall in room 106 at 7:30 o'clock. The subject for debate is "Government Control of Industry."

The first tryouts of the year were held Oct. 8 to determine speakers to represent Nebraska against the two students from Turkey in the international debate.

Those who have signified their intention of trying and the side to which they have been assigned by lot, are: Affirmative, Burton Baumann, L. Byron Cherry, Clio Lechliter, Charles Hood and Woodrow Magee; negative, Clifton Conaway, Orville Pierson, Albert Seck, Donald Shirley and Harold Wynkoop. Others may try and they will be assigned in order to one side or the other as their names come in, Dr. White said.

Three Judges Used.

The judges for the trials are Lloyd Chapman, assistant city attorney; James C. McReynolds and Lloyd L. Speer. Mr. Chapman is a former debater of the University of Iowa and McReynolds and Speer are former debaters here.

It is probable that most of the opponents of Nebraska will be the wording of Pi Kappa Delta, the national forensic society, rather than that of the Missouri Valley league, it was explained by Dr. White.

The negative debate team returned Tuesday night from Kansas where it met Kansas State college on the question "The Several States Should Adopt Unemployment Insurance." Two debates were held, the first was at Washington, Kas., high school and the second at Marysville, Kas., high school. They spoke to assemblies crowded to capacity, according to Dr. White.

The Nebraska High School Debating league arrived here yesterday in conjunction with the delegated assembly of the State Teachers association. The debating league will hold its annual business meeting Friday night at 7 o'clock in room 126 of Andrews hall. The delegated assembly will hold its business meeting in the Hotel Cornhusker.

ATHLETIC HEADS REFUTE EDITOR'S FOOTBALL IDEAS

Directors Say Von Seggern Misinformed at Meet Yesterday Noon.

STATEMENTS UNOFFICIAL

Directors Say Grid Sport Is Not Advertising Scheme Charged.

Football is not an advertising scheme at the University of Nebraska, according to unofficial statements made Wednesday by university athletic officials regarding an editorial appearing in The Daily Nebraskan charging that generally the game is played "for the glory of the alma mater."

At a meeting of members of the athletic department Wednesday noon, the editorial was discussed but no action was taken.

"We decided not to give dignity to the editorial by making an official statement," declared Herbert D. Gish, athletic director.

The director, together with Coach D. X. Bible and Prof. Robert D. Scott, chairman of the athletic board, gave "unofficial" views on the editorial, which deplored the lack of emphasis on character training in football because of over-emphasis on gate receipts.

"It is true, he stated, that there are some universities which are using football as an advertising scheme but he believes them to be in the minority."

"I should say that 90 percent of the colleges and universities do not use football for that purpose," the board chairman asserted. "I certainly know Nebraska doesn't!"

Because the sport has increased in popularity with resultant increase in gate receipts, it has become necessary for the universities and colleges to "sponsor" or control it, he pointed out. But this has not been as a means of advertising the schools, he said.

"Football is not an advertising scheme at the University of Nebraska," Director Gish said unofficially.

"The university is obligated to its student body to develop a recreational program and it is only through football receipts that we can get the necessary funds."

"Football at Nebraska, he added, is a combination of a sport and a means of raising revenue for a sports program."

"If we were so anxious to have football a money making proposition we would schedule games that we knew would be good financial headlines and nothing else," Gish declared.

Bible Refutes Dangers.

Coach Bible said that "rough football such as we have today is needed for our youths who are living (Continued on Page 3.)"
