

Swimming, Track Meets Awarded To Nebraska

CONFERENCE HEADS CUT MINOR SPORTS

Round Robin Baseball, Tennis and Track Eliminated At Kansas City Meeting of Big Six Athletic Directors; First Track Meet May 21.

BASKETBALL UNCHANGED

Hoop and Grid Sports Only Ones Not Affected by Reduction Plan.

Big Six swimming and track meets were awarded to the University of Nebraska at the meeting of the directors and faculty representatives of the conference held in Kansas City Monday and Tuesday. The indoor track meet was awarded to Missouri.

May 21 is scheduled as the date for the track meet while the new swimming pool at Nebraska will be the scene of the conference meet on March 5.

Directors continued their policy of curtailment of minor sports programs Tuesday and adjourned with the intention of finding new ways locally to reduce expenditures as far as possible.

Only two sports, football and basketball, were not affected by the slicing of schedules and expenses. It is expected, however, that fewer officials will be used in these sports. Football and basketball are the only two activities that pay for themselves, and a decrease of 20 percent in football receipts was responsible for the action of the directors in considering cuts in other games.

Round Robin Play Eliminated.

The faculty council approved the recommendation of the directors that round robin schedules in tennis, baseball and track be eliminated together with the discontinuance of the policy of awarding medals in track events. It is expected that the action against the medals will save from \$1,500 to \$2,000 annually.

Only two competitors will be allowed in each event at the indoor track meet at Missouri while the events will be limited to three from each school in the outdoor meet at Lincoln. This is a saving on expenses besides eliminating any advantage of a larger number of competitors by the host school.

Dr. F. C. Allen of the University of Kansas announced that the Jayhawk might abandon their relay's next spring. Wrestling coaches will serve without pay as officials at any wrestling competition while the 175 pound class event was entirely eliminated.

Schools may schedule dual meets in wrestling, baseball and tennis although the sports will not be carried on extensively.

Herb Gish of Nebraska inti-

our problems and misfits in our schools.

"One of the first real values of the mental test when properly used is that it does present an approximation as to the extent to which a child is developed mentally in comparison with other children in like circumstances and at the same age. There is some value in knowing the present state of maturity, mentally.

"Undoubtedly too much emphasis has been placed upon the mental age concept in education in some places and over zealous exponents of mental tests have hindered the legitimate development of the movement. Those who see in mental tests the solution of all educational problems are bound to be disappointed for there are many types of difficulties of a graver nature than mental deficiencies, however the important thing is that we get a correct notion as to the part intelligence plays in education and a proper interpretation of the scores. Surely it is worthwhile for parents to become acquainted with the problem for it is one of the more significant factors in our modern education."

ated that Nebraska would continue as before to use the regular number of officials even if they were forced to pay the extra official out of the Huskers' share of the receipts.

Missouri was granted permission for a ninth football game next fall and the faculty agreed to Nebraska's post season game with Southern Methodist university at Dallas.

WOMEN START ANNUAL BOWLING TOURNAMENT

Intramural Contests Being Run Off Well, Report Announces.

Games are now being run off between the seventeen bowling leagues organized by the intramural board, at the Lincoln Bowling Parlors. Lucille Hendricks, Alpha Omicron Pi, is the student leader of this sport.

Over three hundred and fifty girls have signed to bowl in the round robin tournament, which is being played preceding an elimination tourney. This large number necessitated the organization of four more leagues than needed last year. According to a report from the intramural office the games are being run off as well as can be expected in view of the number of bowlers to be taken care of, but those participating are asked to be on time for the contests and to bowl at the time designated.

Scores turned in Monday between 4-6 are:

Theta Phi Alpha	385
Zeta Tau Alpha	385
Kappa Phi	327
Alpha Chi Omega	279
Chi Omega	279
Delta Gamma	305
Pi Beta Phi	327
Lambda Gamma	311
Alpha Omicron Pi	311
Kappa Kappa Gamma	311
Gamma Phi Beta	401
Alpha Chi Omega	284

Not all the games scheduled for Tuesday afternoon were played but the results known are:

Theta Phi Alpha	329
Alpha Delta Tau	344
Gamma Phi Beta	349
Delta Gamma	332
Alpha Delta Tau	372
Delta Zeta	328

The bowlers up to Wednesday have averaged between 50 and 100. This is considered a good score for beginners, according to bowling instructors. The women, however, who bowl on the different leagues sponsored by department stores average around 150 a line.

Bowling schedule for Thursday follows:

From 1 to 5.
Delta Gamma (1) vs. Alpha Phi (2)
Phi Beta Phi (2) vs. Delta Delta (2)
Delta (3)
Kappa Kappa Gamma (1) vs. Delta Delta (1)
Pi Beta Phi (1)
From 5 to 6.
L. X. L. vs. Alpha Xi Delta (2)
Lambda Gamma (2) vs. Alpha Delta Theta (2)
Hobby Club (1) vs. Alpha Delta Pi (2)
Phi Mu (3) vs. Sigma Delta Tau.

Numbers in parenthesis indicate number of sororities teams.

PROFESSOR CONDEMNS INTELLIGENCE TESTS

Single Mental Measurement Is Inadequate, Says K. U. Teacher.

KANSAS.—"Intelligence tests are not fatalistic things that condemn a child to a given level of achievement," said Bert A. Nash, associate professor of education at the University of Kansas in a radio talk over station KFCU. "Except in rather broad limits, a low score on a test for a given chronological age indicates that learning of particular things may be more difficult, and that school advancement may only come thru greater motivation and effort. Unless the score on the tests is very much lower than expectancy, a modification and stimulation may produce satisfactory results."

"In the second place," Professor Nash continued, "There is no intelligence test that is adequate alone. A single mental measurement cannot possibly give an adequate picture of a person. At least three different tests should be used in order to get a true picture and index of mental development.

"A third misuse of intelligence test scores is to assume that they can be used independently of other measures, as school success, teacher evaluation, social adaptation, etc. After all a mental measure is only one approach to the whole child. Other approaches must be studied if we get a true picture of the child's potentialities. It is for this reason that a thorough clinical examination should be made of all

WRITER CHANTS PRAISES OF "B" TEAM GRIDSTERS

Nubbins Glorified as Sports Scribe Tells Story of Work in Practice.

SQUAD OPPOSES VARSITY

Second Team Demonstrates Opponents' Plays for Regular Gridders.

BY MURLIN SPENCER.

Another group at the University of Nebraska that holds a place among the unsung heroes of the gridiron is the "B" or nubbins squad. The nubbins came into prominence this year as the result of their two victories over other schools in the state and their work against the varsity in regular practices.

Coached by Jo Lehman and Red Young, the nubbins won from Peru 13 to 7, Kearney Normal, 7 to 0 and lost to the Freshman eleven by the score of 2 to 0.

Out for practice every day during the regular season, playing only a small schedule and learning plays of varsity opponents for demonstration, the nubbins squad is as much responsible for the successful season just finished as the varsity itself.

Nubbins Perform Quietly.

Little is known or heard for the most part concerning the nubbins. The squad is made up of men who have not had the necessary experience for varsity play, lack necessary physical qualifications or men who have not had the opportunity to learn the game.

Each season the regular varsity squad is cut into half, the one half making up the regular varsity and the other making up the nubbins. The nubbins use the same plays, have expert instruction, and go through the same preparations as the varsity itself.

A man who proves to the nubbins' coaches that he is able to perform in a manner equal to the varsity men is immediately promoted. Roby, Staab and Holmbeck are men who started the season on the nubbins squad and were sent up for regular varsity competition. All of them took part in the late games on the Huskers' schedule.

The feature of the entire season

was the fact that almost 100 percent attendance was recorded. More interest was shown by the members of the squad than ever before.

Kearney Game Best.

The nubbins turned in their best game against Kearney Normal, coming out on the long end of a 7 to 0 score against a team which was rated highly in its own conference. In their opening game of the season, the nubbins won from Peru 13 to 7. The only loss of the season was at the hands of the freshmen in a tight game which was decided by two points.

Following are the members of the nubbins squad: Akerman, Armstrong, Bailor, Beerman, Banta, Barger, Cole, Chase, Clark, Hulbert, Jones, Kerlakedes, King, Kroger, Lunney, Lefel, Moses, Mason, Mueller, Miller, Peterson, Melvin, Paul, Rockhold, Raugh, Rowand, Uptegrove, Wenke, Yorky, Green, Nevin, Rezek, Glasson, Sell, Woolcott, Hubka, Parker, Wilson, Scott, Staab, Holmbeck, Roberts, Schultz, Peden, Gardner, Scoggins and Roby.

'Coon Hunting Seen As Latest Revival; Janitor Gets Four

BY ED APKING.

Coon hunting, that once popular sport of the southerner, which is gradually staging a comeback, made its appearance among Nebraskans ushered in by Fred E. Titus, janitor of U. hall.

The sharp hysterical barking of the hound who has "treed" a coon is again being heard by Nebraska people and increasing numbers of the animals are being caught.

One of a party of four men and a dog, Titus made a foray in the woods near Greenwood and came out victorious with four coons and fourteen possums.

According to Titus this is a rather remarkable record for one dog in a single night, as the dog, besides trailing and treeing the animal, must also kill the animal after it has been driven from the tree.

"Coons put up quite a bit of fight, especially if they are hard pressed," explained Titus, "it takes a good dog who knows how to keep out of reach of their claws to kill them. Even then the dog is usually scratched up somewhat."

The dog accompanying the party was "a good un" according to Titus. It belonged to his son, Walter Titus.

Those caught by Mr. Titus were in his opinion, small ones, weighing around fifteen pounds. He told of a party of twenty-four men who went recently with three dogs and captured a coon weighing twenty-seven pounds. "He must have been a fighter as one of the dogs was badly injured."

Thursday night again saw this sportsman following his hound.

KANSAS HOOP COACHES PREPARE FOR OPENERS

Court Mentors Agree to Have No Limits on Number of Times Out Called.

GRID INJURIES HAMPER

LAWRENCE, Kans., Dec. 9.—The first game of the season for the basketball squads of the University of Kansas and the Kansas Aggies to be played at Lawrence Friday will probably be marked by a large number of times out, both coaches agreeing not to limit the number which the other team shall have. This agreement was reached because of the fact that several of the members have been out for football and have not had sufficient time to get in shape for the fast action required on the basketball court.

Seven of the Kansas basketball players have been out for football and competed in the final football game with Washburn last Saturday. These men have not yet been out for basketball practice this year but were expected either Monday or Tuesday. The only time before the Aggie game when the coaches will be able to get the entire squad together for practice will be Thursday, the day before the game.

The official for the games with the Aggies both at Lawrence the 11th and at Manhattan on the 16th will be E. C. Quizley, veteran Missouri Valley official. In these two games a man can compete only on one team, or in one game. If the coach uses a player in the first game, he will not be able to compete in the second. The Aggies will probably bring a large squad for the game at Lawrence, which will be called at 7:30.

Kansas will go to Manhattan in motor cars for the game on the 16th, leaving about noon and returning immediately after the game.

Elmer Schaeke, star backfield man on the Jayhawk football squad is coming out for basketball. He sprained his ankle in the game with Washburn last Saturday so will not be able to come out for practice for a short time. Schaeke will not be able to compete in the Aggie game here Friday, but will

probably be able to see action in the return game at Manhattan. Cronkite also sprained his ankle in the game between the Aggies and Wichita university last Saturday, but it is possible he will be able to compete in the first game. If Cronkite is unable to play, the Aggies will have Dalton, another man who is 6 feet 4 inches, to take his place at center.

BIG SISTERS PLAN FETE

Tickets for Annual Dinner Dec. 17 Released to Houses.

Tickets for the annual Big and Little Sister dinner which will be held in Ellen Smith hall Dec. 17 will be placed in all of the organized houses the early part of this week. All university women are invited to the dinner where Little Sisters will attend with their Big Sisters.

The theme of the party will be Christmas, and the decorations and the program will be in accord with this idea. Besides the special program which is being planned, there will be games and social dancing for the guests after dinner.

LeRossignol Speaks at Manufacturers Meeting

Dean J. E. LeRossignol of the college of business administration addressed the convention of the Nebraska Manufacturers association on Thursday, Dec. 3. His subject was "The Economic Soundness of Patronizing Home Industry."
