METHODISTS COMPLETE OLD TIME FETE PLANS

Box Social, Entertainment To Feature Saturday Night Party.

With elaborate plans already completed for the third annual box social and old time party to be held at the Epworth Methodist church Saturday evening, a large crowd of students is expected to attend. The church is located at 30th and Holdrege.

Entertainment, consisting of various skits and musical numbers will precede the box social. To lend old time atmosphere to the gathering, students will wear overalls and aprons to the affair. The league parlor is being decorated to create a likeness of the country school room.

All girls attending the social are being asked to bring boxes of food. There will also be a spelling bee with the most popular young lady and the man with the largest feet will be honored in a novel fashion.

NOTED SCULPTOR SCORES AMERICA IN SPEECH HERE

(Continued from Page 1.)
Artist's Guild at 8 o'clock. He arrived thirty minutes late.

"When I was abroad," he said, "I constantly bumped into Americans by the dozen, Americans hungering for fine and beautiful things which they cannot find in this country but must seek in Europe." He delved into history many times to prove his points, illustrating with ancient Grecian and Roman contributions to culture.

Referring to the Nebraska Capitol he cited it as one of the few expressions of that fitness and beauty which can be found in this country. He suggested that two bronze tablets be added to the Capitol which would record the history of the building and serve as a monument to the architect and the sculptor who worked with him.

HIGH SCHOOL DEBATE LEAGUE MEETS HERE

Forensic Society convenes in Andrews Hall at 7 Tonight.

The Nebraska high school debating league will hold its annual meeting tonight at 7 o'clock in Andrews hall, room 126. Two delegates from each of the sixteen Nebraska districts will be present to vote on the affairs of business.

This meeting will take into consideration all of the questions relating to general policy and the operation of the league. One of the subjects that will be brought up is the question of using three judges instead of one, as was done last year in the final tournament.

Another question to be brought up is whether the division of the state into permanent districts, first attempted last year, is to continue to be the policy.

This is the regular meeting of the league which fosters debating in all of the high schools throughout the entire state, which is divided into sixteen districts with a director in charge of each district. Any person interested in debating is welcomed to attend the meeting.

The University of Nebraska founded the league nearly twenty-five years ago. All official bulletins and publications are issued by the extension division of the university which also handles other routine matters for the league officers.

On the face of the matter this would appear to be the case, but economics show that the collection of huge reparations and debts is of doubtful value to the creditor.

Furthermore, most of the money that the allied nations borrowed from the United States was spent in this country. Many people support the belief that the United States should collect the post-armistice war debt, and cancel the pre-armistice war debt. This plan is worthy of consideration, especially if France and the other allied nations could be convinced that the reparations demanded of Germany are entirely too large, and would consent to a revision.

The United States, as the creditor nation, should take the lead in this matter.

Good news from Paris: Japan and China, together with the members of the League of Nations council, have unanimously adopted the resolution on Manchuria drawn up by that body. Incorporated in the resolution are the following specifications: The Japanese will withdraw their troops within the treaty zone as quickly as possible, both sides will refrain from further fighting, a neutral commission of five will be appointed to investigate the conditions. Despite a late semi-official dispatch stating that the Japanese are advancing on Chinchow, it may be believed that the solution of this difficulty is near at hand.

EPISODES

By Oliver DeWolf

An extension of his plan to relieve the debtor nations. President Hoover has asked congress to consider a revision of the war debt owing the United States. The moratorium was the first step to aid the debtor nations, and it has been expected that Hoover would ask congress, not only to ratify the one year holiday plan, but also ask that further relief be given to these nations. At the present value these debts are estimated at \$9,000,000,000.

The president presented this request to congress in a special message on foreign affairs. Altho, nothing was said in the message concerning debt cancellation, congress has been asked to revive the world foreign debt commission with authority to go into the problems and make a report. The report would have to receive the approval of congress. In view of this, it is thought that Hoover is endeavoring to scale down the huge war debt of the allied nations. They have been paying this debt off largely thru the proceeds of the reparations collected from Germany. It is a well-known fact, or at least it should be, that Germany is unable to meet the obligations demanded of her. If by chance congress would agree to scale down the war debt with the understanding that the German reparations are to be scaled down proportionately, it would undoubtedly tend to alleviate the present depression. Some people, however, will insist that the United States would be the only country losing money.

Any legislative business that the United States senate has before it, will be delegated to the background until they can decide upon a president pro tempore. Senator Moses, republican of New Hampshire incurred the displeasure of the independent bloc of the senate when he called them "sons of wild jackasses." Little did he realize at that time, that his statement was likely to prove a boomerang. These same independents are effectively blocking Moses's reelection. On the other hand the democrats are solidly backing Senator Pitman, and there is no compromise in sight. With all the business that the senate has before it, one hopes that this comparatively insignificant problem is soon "ironed" out, and the senate will get to work.

SWIM POOL SCHEDULE IS ANNOUNCED TODAY

Opening Date Unset Until After Regents Pass on Operating Budget.

The date for the opening of the swimming pool has not yet been arranged by athletic officials. This is due to the fact that the board of regents has not approved the budget for the expenses of operating the pool.

"The pool probably will be opened immediately after Christmas vacation, if not sooner," said Dr. R. G. Clapp. "And those desiring the use of the pool may secure their physical examination at Pharmacy hall at any time now."

Examinations for permits will be given from 9 to 12 a. m. every morning except Sunday for men and from 1 to 3 p. m. every day except Saturday and Sunday for women, he stated. Other hours will probably be arranged for those who cannot take the examination at the scheduled hours.
