### Slump in Football Receipts Forces Department to Retrench.

## MAKE STATEMENT SOON

### All Coaching Contracts But Bible's Will Expire in The Spring.

Discontinuance of baseball is but a step in a general athletic retrenchment program, it was learned Tuesday at the athletic department office.

A slump in football receipts from last season will mean a cut in the athletic staff and payroll. The athletic board has been considering what action it will take in meetings held during the past two weeks.

"Any member of the athletic staff relieved of their duties are not released because of inefficiency nor incompetency, but because the board believes retrenchment is necessary to put the department on a sounder financial basis," one member of the board declared.

All coaching contracts except that of Dana X. Bible expire this spring. Bible was re-elected on a five year contract following the close of the football season.

Announcement as to the personnel of next year's staff is expected within the next few days.

# BADGERS VOICE PLEA FOR REPRESENTATION

### Wisconsin Student Body Asks Second Member on Athletic Board.

An increase in student membership of the athletic council at Wisconsin university was requested recently in a petition to the faculty signed by the presidents of the six major campus boards. Students already have one member on the athletic board at that institution and have asked for another.

The petition asking that the present student member of the council, the president of the athletic board, be supplemented by another elected by the six major campus boards was supported unanimously by the athletic board.

At the present time the athletic council at Wisconsin is composed of six faculty representatives, three alumni and one student member. Change in the composition of the athletic council has been one of the suggestions made to improve the athletic situation stirred up and aired by the action of the state legislature, the faculty and the board of regents.

## ARCHERY CLUB MEETS

### Tryouts Held Tonight for All Girls Wishing to Be Members.

The archery club will hold tryouts for new members at their regular meeting at 5 o'clock tonight. All girls desirous of membership should be on hand to shoot. The seven or eight receiving the highest scores will become members.

The club is keeping track of scores to see which members can qualify for "Golden Arrow." The score that is necessary for this badge is set by the National Woman's Athletic association.

Regular meetings of the club are held on the first and third Wednesdays of the month.

### Former Davis Cup Star Will Plan Hans Nusslein, Pro Champ of Europe.

## FOUR STARS IN TROUPE

### Burke, Najuch Play Singles; Barnstormers Furnish Canvas Court.

Tickets for "Big Bill" Tilden's tennis exhibition at the coliseum March 10 went on sale Wednesday morning. Prices are scaled from 75 cents upward to \$1.50, with a 25 cent discount to students holding athletic tickets.

The former world's amateur tennis champion and Davis cup star is expected to oppose Hans Nusslein, twenty-two year old European pro champion and reigning court sensation in the feature singles attraction, with Albert Burke, Irish pro champion, meeting Roman Najuch, German ace, in the second singles match.

Emmett Pare, who scored a "hit" with Lincoln tennis fans last year when he appeared with Tilden's troupe, is again barnstorming with the Philadelphia racket star, but he is not billed for a match here.

# G. W. Spoerry Decries Protests Made Against Expense of National Defense

The protests against the heavy expense of the present United States defense facilities are not founded on facts according to Capt. G. W. Spoerry of the University military department. At the present time the United States ranks tenth with the standing armies of other great world powers. Captain Spoerry emphatically denies the statement of Dr. H. L. Smith, former president of Washington and Lee university.

Dr. Smith says, "The United States today is the terror of the world and the military successor of the Germany of twenty-five years ago. Now that we have a president who is discouraging preparations for war, the real admirals and the rest of the military experts come forward to declare that he is 'abysmally ignorant.'"

Captain Spoerry believes that a person making such a statement is either not acquainted with the facts or is an ardent communist. He states, "National protection is as necessary as police protection. The time has not yet come when the police can be abandoned in a city without almost every store reporting a robbery the first day or night. If all of our national protection was eliminated, we should wake up some morning to find ourselves minus a state or perhaps a dozen states."

To prove his point Captain Spoerry gives these statistics. The United States has a regular army of about 108,000 men in comparison to Russia with a regular army of about 840,000 men, France with 600,000, Italy with 500,000, Great Britain and Japan with 300,000. These figures do not take into consideration the organized reserves, which raise the man power of the United States to 375,000. The total war strength of Russia would number over 18,000,000, France 6,000,000, Italy 5,800,000, Japan 2,000,000 and England 1,000,000.

In regard to the movement to abolish the C. M. T. C. for one summer, Captain Spoerry says, "This movement to abolish C. M. T. C. for one year is only a step on the way to the complete abolishment of these camps. The same applies to the measure taken to stop compulsory R. O. T. C. attendance. Our air and navy forces are also exceedingly weak, and I sincerely agree with President Hoover's policy in the present Geneva conference, which is not to decrease our armament one iota until the rest of the powers make a corresponding change."
