DEFINITIONS MANY AND VARIED AS CAMPUS MALES LIST QUALITIES TO BE DESIRED IN THEIR IDEAL GIRL.

(Continued from Page 1.)
"sufficiently attractive," stipulates Arthur Mitchell, Delta Tau Delta and business manager of the Awgwan. "And she must have a great amount of that good old quality known as common sense." John Hansen, Alpha Tau Omega, says: "She undergoes alterations every time I see another. Of course she must be attractive, and she must be intelligent. She must be agreeable. She should be interested in my business, but not so interested that she tries to run it."

"Every year would be leap year with the ideal girl," is the terse statement of William McGaffin, who is a member of Innocents society and a Sigma Nu. Jim Crabill, managing editor of the 1932 Cornhusker, believes, "she should have a little modesty, and be willing to agree with her friends once in a while."

Is That All?
Sweetness, understanding, intelligence and good looks, are the only requirements set down by John Gepson, Phi Kappa Psi, as to the ideal girl.

"I want a girl who is striking looking," declared Cliff Sandahl, former editor of the Daily Nebraskan. "She should be intelligent, sympathetic and not too talkative. She must be willing to listen, yet able to keep up a wholesome conversation. I don't want a girl to be too tall," continued Mr. Sandahl. "Any height from five feet to five feet, seven inches will do. There must be no smoking and no drinking, and I prefer brown eyes."

"My ideal girl must be a lady, and try and find one like that! Of course she's got to be good looking, preferably some brains, not more than I have, though. A good sport, that's a cinch," says Dick Devenaux, Alpha Tau Omega, and president of the Innocents society. "It is all a matter of personal taste," says Jack Thompson, business manager of the Daily Nebraskan.

Phys Ed Grad Heads Work at Des Moines

Word has been received by Miss Mabel Lee, chairman of the department of physical education for women, that a graduate of that department, Katherine Krieg, '25, has been appointed commissioner of recreation for the city of Des Moines, Ia. She has been given a three year contract by the city. Work of this type is usually done by men, and according to Miss Lee, Miss Krieg is one of the few women in the country holding such a position.
