CORSAGES TABO AT PROM

Economy Program Back of Committee Request at Lafayette.

LAFAYETTE, Ind .- In accordance with the general economy policy of all Purdue social func-tions this year, the Junior Prom committee went on record last week as opposing the wearing of corsages to the Prom Friday night.

While no definite prohibitive measures were undertaken, the committee published a request for all students to co-operate in making individuals expense a mini-The recommendation was well taken and few corsages were

Tickets were priced at \$4 this year instead of \$5 by the elimination of favors, altho the programs offered were more elaborate than usual, having slender metal covers which could be shaped into costume bracelets. In spite of these economy gestures, the affair is ac-knowledged as the best Prom ever held here.

WITH a good deal of satisfaction we can look upon a recent report of the National Industrial Conference Board which asserts that the cost of living for wage earners declined 20.7 percent from October, 1929, to February, 1932, while the average wage reduction for the same period was only 13 percent. The reason set forth for this encouraging situation is that "more severe reductions have been made in routine and, especially, executive salaries rather than in wage rates.

OHIO STATE HEARS SANDBURG DELIVER SERIOUS LECTURE

COLUMBUS, O .- Slipping into profound seriousness, Carl Sandburg, noted American poet-singer, novelist and lecturer, presented a lecture-recital program before approximately 1,000 persons Tuesday night in university chapel.

The entertainment was sponsored by Chi Delta Phi, honorary literary society, and centered around eleven of his books which his friends called his "eleven crimes.

In characterizing the life of an artist, Sandburg said that critics clash over the works of art in dctermining whether they have in-trinsic value. "An artist may meet objections from critics. Sometimes two generations pass before critics see art in artists' work," Sandburg related.

"Spotting genius when it arises is very important but extremely dificult. Any person who feels he has design should obey what his innermost heart tells him instead of what others say. Such a person may be developing art.'

Talk of the Talkies Mr. Talkie

"Lost Squadron"-Lincoln. A movie within a movie, depicting the neck breaking stunts of the film daredevils in a thrill of modern romance of the air, opens at the Lincoln theater Monday with Richard Dix and Mary Astor in the leading roles of the "Lost Squadron." Hollywood's great film industry is revealed most intimately, with the sound stages being opened for the first time to

'Alexander Hamilton"-State.

Theater goers who saw George Arliss in the "Man Who Played God" will undoubtedly attend the State theater the first half of the week to witness this great picture, "Alexander Hamilton." This play, written by Mr. Arliss and Mary Hamlin, deals with the humanity of Hamilton rather than with the constructive genius which made him a founder of our nation. Mr. Arliss is supported by Doris Ken-yon.

While Paris Sleeps"-Orpheum. This story concerns a French war hero who escapes from a prison at Saint Laurent to save daughter from the streets of Paris. He ultimately sacrifices honor and his own life that his daughter may live and marry the man she loves. Victor McLaglen and Helen Mack are co-starred in "While Paris Sleeps.

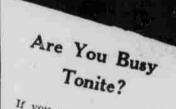

"The Trial of Vivianne Ware"-Orpheum.

"The Trial of Vivienne Ware." which is familiar to most radio fans, having been broadcast over KFAB recently, opens at the Or-pheum theater Thursday. It involves the mysterious murder of a millionaire architect, with Vivienne Commerce. Ware (Joan Bennett) accused of the annual eastern Nebraska the crime. After the district attorney has demanded an electric chair conviction, the innocence of Miss Ware is proven.

'Fifty Million Frenchmen"-State. For the last half of the week the State theater has booked "Fifty Million Frenchmen" with Claudia Dell and William Gaxton in the leading roles. This is an all technicolor comedy picture.

"The Mouthpiece"-Stuart. "The Mouthpiece" deals with the tragic fate of a great legal light who sends an innocent youth to the electric chair in an excess of prosecuting zeal. He learns his ghastly error too late. His conscience destroys his value as a prosecutor. In a revulsion of feeling he turns to the defense of persons accused of crime, bringing all energy and skill that had won him fame as the criminals' nemesis to the defense of those same criminals.

IN 1931 there were registered in the United States 25,814,103 automobiles. This was 781,178 less than were registered in 1930, but then we can expect that each year there will be more and more of these old "Model T's" junked. Nebraska's registration was 416,131.
