COLONIAL MOTIF TO BE USED FOR NEW DORMITORY

Architects Announce Plans For Furnishings and Decorations.

BIDS CALLED FOR MAY 26

Building Expected To Be Completely Equipped By September.

Furnishings and interior decoration of modified early American and Georgian colonial feeling will be used throughout Carrie B. Raymond hall, new residence building being erected on North 16th street, according to announcement by Davis & Wilson, architects for the structure, yesterday.

In keeping with the exterior of the building so decidedly colonial in architecture with its red brick and tall, white supporting columns, the entire interior, according to Mr. Wilson, will be done in period styles.

Four lounge rooms on the first floor in the front wing will have paneled walls and be decorated after the colonial fashion of comparatively light walls and dark floors. The two large parlors will be carpeted while the smaller two will have floor coverings of small rugs.

In the back of the front wing on the back of the front wing on the main floor which is to be paneled in knotty pine, a combination of early American and provincial furniture will predominate. Two dining rooms will have paneled walls and furniture Georgian colonial in feeling as will the parlors. Each of the four parlors will have a fireplace with painted wooden mantels in keeping with the colonial motif.

Bids Due May 26.

Bids for bedroom furniture are due on May 26, and following the acceptance of one of them, draperies and other furnishings will be rapidly selected in order that the entire lot may be assembled and put in before school opens in the fall. Bedroom furnishings, too, will be found to prevail in modified early American tone. Each room will contain two low and single beds, two chests of drawers, a double study table, two chairs, and mirrors; complete double closets, and lavatories in tile niches will be a feature of each room.

The structure itself, which follows the plan of an H, will eventually house about 600 women, although the unit now being constructed will accommodate only 170. The central unit has, accordingly, a great many more parlors and social rooms than will be found in each of the additional four units expected to be added. One side of the H will contain the dining rooms and kitchens, the other will be occupied by the director's suite, including personal rooms and a private office, a main office and the four parlors.

The center of the H will find the (Continued on page 2.)
