VOL. XXXII—NO. 71.

LINCOLN, NEBRASKA, WEDNESDAY, JANUARY 11, 1933.

PRICE 5 CENTS.

FRATERNITIES WILL COOPERATE IN BALL DECORATIONS FEB. 4

Economy to Be Keynote of Affair Says Goulding; Proceeds to Fund.

Economy in all phases of the Interfraternity Ball, decided upon by the committee in charge in order to make a large donation to the Coliseum Decorations fund, will be the keynote of the affair, Byron Goulding, chairman of the committee, announced yesterday.

Very little money will be spent on decorating the field house for the event, which is scheduled for Saturday, Feb. 4. Efforts will be made to secure the co-operation of fraternities in decorating the coliseum, John Gepson, committee member in charge of decorations, announced after a meeting yesterday.

Definite plans have not been decided upon as yet, Gepson added. Tentative plans, call for decorations in keeping with the character of the ball and emblematic of the various fraternities represented on the campus.

"The committee will limit expenses for the Interfraternity Ball as much as possible," Goulding declared after a meeting of the group. "We will endeavor to cooperate with other campus organizations in completing the fund that was started by the Innocents society to secure permanent decorations for the coliseum."

Tickets for the event will be distributed to members of the Interfraternity Council at the next meeting of that organization, according to Otto Kotouc, member of the committee in charge of the ticket sales.

MUSIC CONVOCATION TODAY Lincoln Women's Group to Give Program at Temple Open to All.

The Morning Musical Review, Lincoln women's musical group, will present the convocation program at the Temple theater Wednesday afternoon, Jan. 11. The program is at 4 o'clock, and is open to all. The program:

Grieg, At the Cloister Gate; duet and chorus; duet, Mrs. E. A. Schiess, Mrs. L. E. Mumford.

Lawyers Change Headquarters From Moon to Library as Exams Approach

By Virginia Selleck.

"The propinquity of final examination week has caused the headquarters of the law college to be transferred from the Moon to the Law library," according to Bill Darrah. The statement was made when your correspondent inquired the reasons for the unusual activity in the law building. The library seethed with industrious students laboriously perusing files and the heavy texts. The professors sat with fiendish glee concocting examinations for Dean Foster's proteges. Cram sessions were being held in every nook of the room. "While the merits of this type of study are questionable," said Mr. Darrah, "it has its advantages in that there is consolation in numbers."

Jerry Young said: "To have some one else assure you that your cracked theories are the law at least provides self assurance and may serve to bolster up your failing courage." Jerry was copying briefs out of a dictionary and he merely mumbled when asked if he expected to graduate 'cum laude.'

When asked if exams were worrying him, George Mickel, president of Phi Delta Phi, in a harassed manner, replied that the show at the Stuart was very good and that he rather liked exam week because he has more leisure.

Third Day Comes With Registration Lagging

With today beginning the third day of registration for resident students, a relatively small number of students have enrolled as yet for the second semester, according to the registrar.

The usual last minute rush is expected at the registrar's office on Friday and Saturday.

WESLEYAN ABOLISHES ALL STUDENT FEES

General Tuition to Embrace Former Charges; Is Not Increased.

With the inauguration of a new financial program at the beginning of the second semester, the Nebraska Wesleyan university will abolish student fees. All laboratory, library and book fees, and fees for student activities, including athletics, dramatics, glee club recitals and other programs, are to be included in the general tuition charge. This is to remain the same, seventy-five dollars a semester.

Emmet E. Stoffel, general business manager and treasurer, announced that in addition to the reduction in student fees, the administration is to open a student dining room, at the beginning of the second semester. Students will be able to obtain meals for \$45 a semester. Two dollars and fifty cents a week will entitle the Wesleyan student to three good meals per day for seven days, every week.

KAPPA PHI PLANS EVENING MEETING

Methodist Sorority Will Have Special Guests On Occasion.

Kappa Phi, the Methodist sorority is planning an evening meeting to take place in Wesley House on Thursday, Jan. 12. Mrs. W. C. Fawell, Mrs. Victor West, Mrs. G. A. Grubb, and Miss Gertrude Beers, patronesses of Kappa Phi, will act as hostesses.

Among the expected guests are Miss Miriam of Dunkerton, national secretary-treasurer from Upsilon chapter, and Miss Lola Antisdal of Ames, Ia. Miss Miriam and Miss Antisdal will also attend the Kappa Phi initiation at St. Paul M. E. church Sunday and the alumnae meeting on Tuesday evening.

KLUB CONSIDERING PLAYS FOR ANNUAL SPRING PRODUCTION

Definite Work Starts Next Semester Says Thompson, Kosmet President.

Definite work on the annual Kosmet Klub spring show will start immediately after the opening of the second semester, Jack Thompson, president of the Klub, announced late yesterday afternoon.

The deadline for entering plays was closed Monday evening, and consideration of the manuscripts received will begin immediately, Thompson declared. A committee composed of Jack Thompson, William Devereaux, Klub members, and Prof. E. F. Schramm, faculty advisor to the group, will read the plays and make the final selection.

"With a number of good plays from which to select the one for the spring show, prospects for an unusually good show are in view," Thompson declared. "The committee will announce the selection as soon as possible," he added.

Work on the show will begin with the selection of the cast and appointment of committees for the production. Whether the Klub will use an all male cast or mixed cast will depend upon the play selected, according to members of the Klub.

ENGINEERS ASK PUBLIC OFFICIALS TO MEETING

Invite 500 Attend Jan. 24; Discuss Regulations for Electricity.

Five hundred invitations have been mailed to city electricians, fire chiefs, and other officials of public safety throughout the state by the University of Nebraska college of engineering, inviting them to attend a one day meeting on Tuesday, Jan. 24, in Lincoln for the purpose of discussing the interpretation of Nebraska state and municipal regulations regarding electrical installations and electrical equipment, the recommendations of the national safety organizations, and the promotion of public safety.

The principal speaker at the meeting will be Victor H. Tousley, field engineer for the National Fire Protective association, who will make two addresses. In the afternoon his topic will be "The Pro-

P. B. EX BOARD ADDS MODERNITY TO HALL System Makes Handling Of Raymond Calls Quite Simple.

Among the conveniences and the comforts in the new Carrie Belle Raymond Hall is a modern telephone system. The telephone plans offered for the building by the commercial representatives who worked with the university officials and the architect, resulted in the installation of a fifty line private branch exchange switchboard equipped with three trunk lines and thirteen telephones, in addition to the three public telephones conveniently located thruout the building.

The University of Nebraska is one of the first to utilize such a complete plan of service. The arrangement is a decidedly practical way of handling the communication needs of a house of this size. It provides ready means of reaching all of the girls living in the building from any outside telephone.

Virginia Jenkins, former employee of the Lincoln Telephone company, is in charge of the switchboard. She is assisted in her duties by Julienne Deetken.

Daily Nebraskan Needs Advertising Solicitors

The Daily Nebraskan is in need of advertising solicitors. Students who are interested may apply to Chalmers Graham any afternoon between 2 and 4 p. m. in the Daily Nebraskan office.

CHALMERS GRAHAM, Business Manager.

NIGHT CLASSES OFFER FIFTY-SIX SUBJECTS

Extension Bulletin Lists Studies in Sixteen Departments.

Fifty-six different university courses in sixteen departments of study are to be available for citizens of Lincoln and vicinity through the medium of night classes at the University of Nebraska, according to a bulletin which has been issued by the extension division. Second semester night classes will begin during the week of Jan. 30 to Feb. 4, led by faculty members and meeting in university buildings.

The bulletin, which is being mailed on request to citizens of Lincoln and vicinity by the extension division of the University of Nebraska indicates that classes are open to everyone and that courses in the following different departments of study are offered:

American history, astronomy, business administration, education, engineering, English, fine

DEPARTMENT RETURNS EXCESS EQUIPMENT

Kidwell Sends Military Supplies Back to Chicago Depot.

Due to an excess of equipment, Col. F. A. Kidwell, quartermaster of the university military department, has received authority to return approximately 8,500 pounds of equipment to the Chicago depot in order that it may be distributed where it can be utilized.

Some medical and signal equipment has already been sent. Other equipment to be shipped includes canteens, cups, haversacks, knapsacks, shelter tents, meat cans, first aid kits, entrenching shovel, pistols and holsters, and pick mattocks.

Arndt Airs Views on Technocracy; Indicates Its Good and Bad Points

Technocracy! What is it? Only in the last few months has the word come to the fore and already it has aroused a storm of controversy.

Prof. K. M. Arndt of the economics department tells us what he knows and what he thinks about it. He is not quite sure that the technocrats understand it much better than anyone else.

The headquarters of the technocracy group is at Columbia university where they have been charting the technological unemployment and growth of production in many products as well as making an "energy" survey of the continent of North America.

The general contention of the technocrats is that machinery has been so perfected that the problem of the satisfaction of material wants has been solved. They propose the elimination of the price and monetary system. Everything is to be measured in units of energy. Instead of using money and worrying about prices and values as we now do they intend to calculate everything in "ergs" or units of measured energy so that all economic goods will be dealt with in terms of the energy used in producing them.

Machinery has reached the advanced stage where it is practically automatic and should serve as man's slave and consequently men should have a great deal more leisure. Four hours a day and four

LEGISLATORS RECEIVE ITEMIZED STATEMENT UNIVERSITY EXPENSES

Reports Laid on Desks Each Member; Chancellor Asks All to Dinner 19th.

By Cliff H. Sandahl.

Of interest to the University of Nebraska before the Nebraska state legislature on Tuesday were the following two items:

1. Itemized reports of all expenses of the university were laid on the desk of each member of the legislature.

2. Speaker George O'Malley in the house and Lieut. Gov. Walter H. Jurgensen, presiding officer of the senate, announced invitations had been extended to members of the legislature by Chancellor E. A. Burnett to be guests at a dinner at the student activities building on the college of agriculture campus Thursday, Jan. 19.

The purpose of the get together on that date, Chancellor Burnett explained in his communication, is to "talk over matters of interest to the university and the legislature."

In supplying each member of the legislature with detailed accounts of the finances of the University of Nebraska, L. E. Gundersen, finance secretary of the board of regents, extends an "invitation" for any legislator to examine the institution's "many activities and especially the business departments."

The "invitation" is expressed in a letter accompanying two volumes of financial reports for each year of the past biennium, ending

KIDWELL LONG IN SERVICE

Quartermaster Celebrates Fortieth Year With Army This Week.

Col. F. A. Kidwell, quartermaster of the military department, is this week celebrating his fortieth year in active service with the United States army. He enlisted in January, 1893, in Evansville, Ind., as a recruit. He served first in the Columbus barracks in Ohio.

He was appointed a captain in 1917 when he was in Alaska and was made a lieutenant colonel in the reserve corps in 1923.

Arndt Airs Views on Technocracy; Indicates Its Good and Bad Points

Technocracy! What is it? Only in the last few months has the word come to the fore and already it has aroused a storm of controversy. Prof. K. M. Arndt of the economics department tells us what he knows and what he thinks about it. He is not quite sure that the technocrats understand it much better than anyone else.

The headquarters of the technocracy group is at Columbia university where they have been charting the technological unemployment and growth of production in many products as well as making an "energy" survey of the continent of North America. The general contention of the technocrats is that machinery has been so perfected that the problem of the satisfaction of material wants has been solved. They propose the elimination of the price and monetary system. Everything is to be measured in units of energy. Instead of using money and worrying about prices and values as we now do they intend to calculate everything in "ergs" or units of measured energy so that all economic goods will be dealt with in terms of the energy used in producing them.

Machinery has reached the advanced stage where it is practically automatic and should serve as man's slave and consequently men should have a great deal more leisure. Four hours a day and four days a week is the rough estimate of what each man shall have to work in the belief of the technocrats. For this amount of labor each man shall receive a sum of somewhere in the neighborhood of what is now \$20,000.00 per year and also have a much improved standard of living. Furthermore the United States will be sufficient unto itself and will have no use for foreign importations.
