

NEBRASKA WALLOPS IOWA STATE OUTFIT BY 25 TO 16 SCORE

Win Gives Huskers Chance At Big Six Conference Pennant.

Following a poorly played first period the Nebraska cagers came back after the intermission a rejuvenated five and proceeded to subject the Iowa State team to a 25 to 16 defeat Monday night on the Coliseum court. This win gives the Huskers an even 500 percentage in the Big Six cage race and means that the Brownemen are still in the money as far as champions hip contention goes. It was the third defeat for the Cyclones and virtually puts them out of consideration for pennant chances.

Steve Hokuf, Courtesy Lincoln Journal

At the halfway mark the count was 8 to 7 Nebraska, the Scarlet coming from behind a 7 to 4 lead of the visitors in the last two minutes, Hokuf sinking a couple of quick scores. The big guard was the individual star of the tilt and in the first period made seven of the eight points rung up by the home team. He made a shot from the foul line in the first minute of play but from then until halftime proceedings were slow, both teams presenting sloppy offenses, and the passing being a bit wild.

Coming back on the floor after the rest period Henrion, Boswell, Hokuf, and Mason scored in quick succession before three minutes of play were gone to make the score 16 to 9, Hood, Ames guard, having stowed away a pair of free throws in the meantime. Boswell and Hokuf scored on dribble-ins, the former scoring a couple of those as well as a shot from the foul circle to complete the field goal counting as far as the Huskers were concerned.

Ludwig, veteran Iowa State forward, was going hot for the Menzemen in the final half, caging a trio of floor shots, to put himself in the leading scoring position among the visitors.

Steve Hokuf was the outstanding player on the floor all evening, taking the ball off the bankboard in good fashion, sinking five nifty field shots, and playing an outstanding floor game. His thirteen points put him out in front in the scoring column, and Boswell tied with Ludwig for second honors with six tallies. Henrion also played a topnotch game for Nebraska, as did Anderson and Hood for the Cyclones.

COMPANY F CAPTURES R.O.T.C. TRACK MEET

Has Point Total of 3017; M Company Follows With 2961.

In the annual military science track meet held during the two weeks following vacation, Company F came out on top with a 3017 point total. Company M came in second with 2961 counters, and Headquarters company captured third honors with a 2953 total.

The remaining groups finished with the following totals: Co. E-2928, Co. G-2877, Co. H-2758, Co. A-2725, Co. I-2656, Co. K-2581, Co. C-2572, Co. L-2558, Co. D-2492, Co. B-2435.

Six events were listed in the competition, the members of the various companies tying for honors in the 50 yard dash, shot put, 50 yard low hurdles, broad jump, high jump, and the 256 yard run.

Company M compiled the best average in the shot-put the Saturday morning students averaging 25 feet 3 inches. In the hurdle event the Ag college Headquarters company was highest with an average time of 8.4, company E was outstanding in the broad jump with 15 feet 11 inches, and in the high jump the average leap for both companies and F was 4 feet 5 inches. The sixth event, the 50 yard dash, saw all of the companies except Headquarters, B, C, and L averaging 6.6.

ering the entire field of investments and written by Prof. John E. Kirshman, instructor of finance, has just come from the press and is ready for distribution, according to word received by Mr. Kirshman.

The general conception and organization which, in the earlier edition, made this pioneer text popular, has largely been retained in the second edition. Otherwise, the book has been almost entirely rewritten to cover the post-war changes in economic and political conditions.

The altered status of production, international trade, finance, and the new distribution of gold, as well as important changes in taxation and tariffs, are among the subjects now given analysis in the rewritten text.

Noteworthy are the following features of the new edition: detailed sectional headings through; selected references at the end of each chapter, a new chapter on interest and profits, greater emphasis on income and an element of credit; and new chapters on bank stocks, insurance stocks, investment trusts, electric light and power companies, gas securities, street railways, telephones, telegraphs, water companies, business fluctuations and others.
