

COMMITTEE PROPOSES MOST DRASTIC CUTS

Slated for 10 O'clock Thursday.

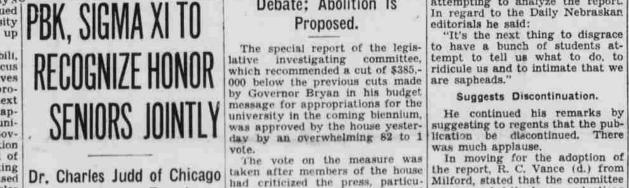

Present Total, Supported by Democrats in Caucus. Lowers Bryan's Recommendation \$451,150 And Investigators' Report \$66,150.

The general state appropriation bill for the 1933-35 fiscal biennium was reported out on the floor by the house finance committee Wednesday with a slash of nearly a million and a quarter dollars under 1931-33 in the university budget.

Debate on the measure opened in the house in the afternoon, but the section containing the university appropriation

was not reached in yesterday's session. Debate will be continued this morning with the university appropriation slated to come up about 10 o'clock. finance committee bill, The

which house democrats in caucus Tuesday night pledged themselves to support, provides a total appro-priation of \$3,127,450 for the next two years as against \$4,359,600 ap-propriated in 1931. It cuts the university budget \$451,150 under Governor Bryan's recommendation and \$66,150 under the proposal of the special joint investigating committee whose report caused consternation in university circles when released a few days ago.

By the Observer.

Faced by the proposition that the opportunities for a type of higher education creditable to the state of Nebraska activities in the nation, as well as may be disastrously curtailed, in the state, the University of Ne- students of the university will gather, by mutual consent, at 7:15 in the Temple theater this evening, for the purpose of fining the powers of the board of giving expression to campus sentiment. James E. Lawrence, editor of the Lincoln Star, has been invited to act as chairman at the mass meeting and he will discuss the situation from the chair. A majority of the Student council called by telephone late last night sametioned the meeting.

tor, when the interests of the university shall require it." Students have expressed the idea that some tangible method By submitting their findings as showing their sentiment should te recommendations, the special comprovided. While there is no indicamittees of the house and the sention that any attempt will be made ate have evaded a charge that they to impress the student viewpoint on the legislature. meeting is to formulate a definite expression of opinion and crystalize the campus sentiment.

A tabulation of the finance committee's appropriation proposal and a comparison with the 1931 appropriation, the request of the Board of Regents for 1933-35 and the recommen dation of Governor Bryan's budget appears in columns three and four.

A rider to the legislative appropriation bill for the university would require the university to sever its connection with the North Central Association of Colleges.

The general maintenance fund of the university, out of which salaries and operating expenses are paid, is hardest hit by the finance taking a \$954,400 cut. The milding appropriation, which in 1931 totaled \$195,000, is completely eliminated in accordance with the recommendations of both the Regents and the Governor.

Medical College Not Cut.

The medical college and university hospital are not cut at all under the committee's measure, the appropriation for these two remaining at \$375,000, the same as for 1931-33.

Other items in the university appropriation from state taxation funds are cut as follows:

Students Face A Crisis.

interested in whether or not the institution is so crippled that Columbus to Meet Ord in Six Seniors, Four Juniors double theactual enrollment at the load of professors, or attempt in it will be lowered to the rank of a mediocre institution? Are the students interested in whether or not the faculty of the university is paid on such a low scale that only medioere men will be able to remain here? Is there any interest on the part of students, alumni and taxpayers of the state as to whether or not the future educational opportunities for young people are to be so severely restricted that a decent advanced educa-tion will have to be sought in other states, thus limiting the rights of citizens of this state?

The Nebraskan is confident that students are interested in the crisis which confronts the university. Student sentiment has been running high over the attitude of the legislators which urday evening. goes beyond a reasonable cost cutting program and proposes to stifle educational activities and mix political considerations with university functions.

The legislature feels that their sole mandate fom the people was to reduce taxes. By reason of the immensity of the majority which the democratic party polled, this feeling has become irresistible. All other factors are apparently being overlooked.

Nebraska university students are not blind to the necessity for cutting expenditures of government. But neither are they blind to the necessity for using discretion and reason in this program. The consideration of the state from a social point of view as well as from the point of view of the individual taxpayer must not be allowed to be completely overwhelmed.

It is now time for citizens of the state forcefully to call these other considerations to the attention of the legislature. The mass meeting of students tonight may and should have a part in presenting to the attention of the legislature the necessity for caution, and the adoption of a long-time point of view.

The state and its essential institutions are set up to serve the people for all time. The existence of a severe depression is no excuse for becoming imbued with the spirit of panie and so wrecking them to the point where irreparable damage is class done for the future.

mendations were followed, the uniersity would be projected into politics in such a fashion that its sefulness and its value would be the future of education in this destroyed forever.

Never before in its entire history has any legislature attempted to direct the board of regents what nection with the faculty shall be

discontinued. That is the actual of Anne: Enroll fect of the report which has been drafted. The regents, the committees may argue, are not required to follow the detailed program set forth. What would be the result if the university governing board ignored it? That it would provide political fodder for every candidate for legislative position cannot be denied. It would place the university in the swirling currents of party politics two years hence in truly calamitous' fashion. That it would substitute meager, minteland partisan, many times ligent. prejudical control for trained, experienced, and intimate knowledge of conditions and problems is so patent that it does not permit of question. As the World-Herald

aptly puts it: "One may question whether there is wisdom in the proposal that the legislature limit certain salaries, designate the teaching

Students Worried.

That students are frankly worried about their own future and state is obvious from sentiment expressed on all parts of the campus. The source from which student anxieties emanates is clearly the appropriations bill and the joint report of the committee investigating the university. A diagnosis of student sentiment

apparently reveals the following ideas which are significant from the student point of view. 1. An appreciation of the

necessity for the legislature to curtail expenses and sympathy with the idea of retrenchment in the university

A fear that because the legislative committee has under-taken to fix faculty salaries specifically, that the university will be subjected to political influence and that the administrative policy of the university will thereby be severely handicapped. The belief that by making

cuts too drastic, the legislature will force better members of the teaching staff, loyal though they be to the institution, to accept jobs in higher salaried institutions.

The fear that the range of selection in courses, which makes the University of Nebraska a great institution as compared
