SUGGEST GOVERNMENT SEND MEN TO COLLEGE

Thinks Federal Financing of Education May Reduce Unemployment.

CHICAGO. (CNS). If the federal government is to accept the idea of sending young men back to school as a means of further reducing unemployment, the necessary action should be taken at once, those sponsoring the movement declared this week.

Chief sponsor is Dr. Robert M. Hutchins, president of the University of Chicago, who believes that young men who cannot otherwise afford to go back to college should receive financial aid from the government, thus eliminating them from competition with married men in the struggle for jobs.

There are thousands of youths this fall who would like to go to college and are qualified either to enter as freshmen or re-enter as upper classmen, but are unable to do so because of lack of funds.

The government, it is contended, could easily afford to pay the cost of educating such young people, in view of the vast sums being spent to finance other methods of re-employment.

AG STUDENT STUDIES MILLING BUSINESS "ON PAY" AND SAILS BOAT ON LAKES WHILE ON DANFORTH FELLOWSHIP TRIP

conducted by a number of different men, and were about a number of different subjects.

There was a philosopher from a college in Boston, a psychologist from a Michigan college, a preacher from St. Louis, a national Y. M. C. A. presi-

dent, and paper manufacturer from Kalamazoo among the group of speakers.

Recreation and sports in the afternoons were mostly baseball, tennis, swimming and boating. There is no swimming pool at the camp, according to Loewenstein, but the boys all went swimming in Lake Michigan, the boys had a chance to try their skill managing a sail boat.

Another plan, devised to give some deserving freshman the same outing as the Danforth winners get-

was continued by the group this year. Each of the thirty students contributed their share of the amount needed to send one freshman on the same trip.

This year a freshman from the ag college at Kansas made the trip on funds thus raised.

After the camp outing was finished, and before time to come back to school, Loewenstein attended the Chicago fair. He was one of the 366,000 that were on the grounds Labor day, the largest crowd the fair has recorded.
