HUSKERS' PASSING OFFENSIVE MARKS UP LONG YARDAGE

Aerial Attack Shows Result of Practice During Past Week.

O'BRIEN AND BISHOP OUT Nubbins Stop March at Nine Yard Line; May Lack Scoring Punch.

Flashing an aerial attack that functioned for the first time this season, the Husker varsity slashed their way overhead for a total of 134 yards in their scrimmage against the Nubbins Wednesday on the practice field in the Memorial stadium.

Presenting a smoothly clicking offense in their passing department of the game, the Bibliemen showed the benefits received from the emphasis put upon it during the drills for the past week.

However, the scoring punch which so bothered the Huskers last year, is still present this year. Advancing to the 9-yard line in the opening minutes of play the Cornhuskers were halted in their tracks after having first down and nine to go.

Two veterans were out of the lineup, thus accounting somewhat for their weakness. The men out were Gail O'Brien, who has a bruised shoulder, and Clair Bishop, who just had a wisdom tooth pulled.

Sauer and Masterson were the driving roos on the Varsity while Boswell stood out at the receiving end of the passes. Boswell snagged several passes by high leaps into the air while surrounded with opponents tugging at him all the while.

On the third play following the initial kickoff by the B squad, Sauer displayed an excellent bit of broken field running by advancing the ball thirty yards. Previously Parsons had made substantial gains of five and seven yards.

A pass from Masterson to Boswell at this time was good for another thirty yards. Boswell evaded numerous players in order to reach the ball, displaying an excellent piece of footwork.

"B" team punted outside on the 16-yard line making a gain of only six yards on the punt after holding the Varsity for no gain for four consecutive plays.

Masterson then went over for the first touchdown. He followed

WANTS SOCCER APPLICANTS Officials, Who Know Rules, Report to Coliseum, Says Petz.

Harold Petz, intramural athletic director, has just announced that all persons interested in officiating at the soccer tournaments should report to him in the coliseum this morning or afternoon, Thursday, Sept. 28.

The second varsity touchdown was made by Wilson, end, who recovered the ball from the Nubbins behind their own goal line. A bad pass from the "B" center enabled Wilson to do this. Masterson's try for extra point was a failure.

Beaver made the longest run for the Nubbins squad running along the sidelines for thirty yards.

A pass from Sauer to Penny enabled the Varsity to score their first aerial touchdown of the season. The toss was good for twelve yards after which Penny raced another twelve for a touchdown. This time Masterson's placekick was good, making the score 20 to 0 in favor of the Varsity.

Another successful pass in the fourth quarter from Sauer to Miller was good for twenty-five yards, putting the Huskers on the Nubbins' own 4-yard line. Two successive plunges netted nothing. On the third play Sauer hit center for the required yardage making the final score of the day 26 to 0 as Masterson's kick went wide.

The lineups were as follows: Varsity—Foster, Kibourne, Keriakides, Meiring, Hilde, DeBus, Thompson, Penny, Armstrong, Masterson, John Miller, Boswell, Balcer, Parsons, Beaver, Sauer, Cockburn.

Other players were: Nubbins—Dean, Garnick, Huzchem, Mohler, Noprud, Rice, Scott and Tomlin; Varsity—Benson, Coppie, Funkon, Hubka, Elmer, Jones, Justice, Meade, LaNoie, Milne, Miller, Rony, Chorost, Skewes, Wilson, Williams and Veikin.

Why— Chesterfields are Milder TOBACCO to grow, to ripen and become mellow, has to take in or absorb something... not Vitamin D, of course, but something that it gets from the right amount of Sunshine. It's the Southern sunshine you read about, combined with the right sort of climate and moisture, that makes the Carolinas, Georgia, Kentucky, Maryland, and Virginia the best tobacco country in the world. You can stand down there in that Southern sunshine and almost see it grow. This ripe, mellow tobacco is skillfully cured by the farmer. Then, for 30 months, it's aged—just like fine wine. It takes the right quantity of each kind of these tobaccos, blended and cross-blended—then seasoned with Turkish, to make a milder cigarette. Sunshine helps. Just try it!
