# A Pamphlet Still Needed.

 $N^{\mbox{\scriptsize OT}}$  TO be outdone by the unaffiliated girls who are beginning organization under sponsorship of the A. W. S. board, barb men Tuesday met to strengthen the Interclub council.

The council, which is the organization thru which glimmerings of barb participation in activities have fltered, is making a heroic effort to put within reach of non-Greeks some measure of opportunity in extracurricular affairs. Last year its program embraced organization of groups for participation in intramurals, sponsoring of parties, and some attempt to acquaint unaffiliated students with the work and play into which they might enter in various activities.

There is every indication that the council is trying equally hard this year to form an organization sufficient to effect a union between unaffiliated men and the field of activities and the Tuesday evening meeting was among those indications.

But the Interclub council alone does not have the momentum to form any kind of a lasting, effective organization. To do that will require the direct help of organizations already established, and "organizations already established" implies that every branch of extracurricular activities must be open to unaffiliated men and women.

. . .

MORE specifically, barbs must be extended help in

their efforts at organization, and that assistance can be given in two ways: By Student council interest in putting the Interclub council on a firm basis, and by publication, at the beginning of every year, of a pamphlet setting forth and describing all campus extracurricular activities.

Such a publication was sponsored, it will be remembered, as on outgrowth of a meeting calling attention to the necessity of a revitalization of activities two years ago. Information was collected by the Innocents society but the cost of printing in booklet form could not be met and the data that had been gathered was printed in the Daily Nebraskan in serial form. Dragging out from day to day over a long period of time this method was not at all satisan honorary colonel to preside at the opening of the formal season. The contrast has its amusing aspects.

## Novelty in A Comic.

WITH emphasis on Homecoming and football, the new Awgwan, on sale today, combines the appeal of a football player, a pictorial handbook, and above all a student medium of literary expression.

If this be fullsome praise, so be it, but the magazine is good. Decked out in a colorful "new process" cover,

produced by photographing a design made of fabrics, the comic continues to offer new features to campus readers. Avid as they always are for novelty, those readers should enjoy the array of pictures colected for this month's issue.

They should enjoy, too, a departure into a new field-reviewing-as represented by the sketch, "Rose Is a Rose." which would do credit to an avowed literary magazine.

Homecoming is the theme of the November Awgwan, and the publication should be well received by a campus beginnig to turn its attention to Homecoming activities. It's a good magazine,

### On the Chin.

IT'S all right to have economy; let everything else go by in times of stress, but don't let false economy fall on our public schools. It would not do the state a bit of harm if we did not build another mile going to do. On both sides of the of road for the next three years. It would not do much harm if we did not spend any more for operating the canals. I could name dozens of other activities that we could get along without in time of trouble. But one single year that education is neglected can never be brought back. We can build roads any time. But where you lose one year in public education it can never be regained."

That is Alfred E. Smith speaking. The quotation is from an address on the recent occasion of his presentation of an honorary doctor of laws degree by New York university.

There is little need to expand the ideas set forth in his remarks, for they apply with equal strength to Nebraska as well as to any other state. The quotation should, indeed, be graven on the walls of every state's legislative chambers.
The drivers cracked their whips and drove to the edge of the drivers of of the
