

### CAMPUSOCIETY

**AND NOW WITH THE FIRST SIX** weeks over and the average made, freshmen in fraternities and sororities are looking forward to initiations, most of which are scheduled to take place sometime during the next two weeks. We know of two that are slated for Saturday and one on Sunday, but since most of them are to be a surprise (more or less) to the freshmen they have not yet been officially announced. We feel safe in prophesying that there will be somewhat of a "sophomore slump" during the following couple of months, when erstwhile pledges will breathe a sigh of relief and take to eaking and shows.

**AN ALL-UNIVERSITY** party will be given by the Barb Council tomorrow evening at the Student Activities building on the Ag campus. Professor Cecil Mrs. F. D. Kelm, Miss Margaret Fedde, and Professor George Peltier are to be the chaperons.

**CHAPERONS FOR** the Prom tonight will be Col. and Mrs. W. H. Oury, Professor and Mrs. Gayle Walker, and Professor and Mrs. E. W. Lantz.

**AND EVERYONE** is wondering what to wear to the Phi Mu dance at the Cornhusker tomorrow night, which is the first spring party of the season. From all reports it would seem that you may wear a formal or a suit and still be correctly dressed. Chaperons are to be Miss Pauline Gellately, Professor and Mrs. Roy Cochran, and Mr. and Mrs. Ray Schlentz.

**MORTAR BOARD** alumnae will meet Saturday at 2:30 at the home of Miss Florence McGahey, who will be assisted by Mrs. Ada Westover, and Miss Grace Spacht. A group of books will be reviewed by Mrs. Roy Green.

**ANOTHER PARTY** for Miss Gwendolyn Heger was given last night when Miss Corinne McCarty, Miss Betty Cook and Miss Bernice Lieberman entertained at a miscellaneous shower at the home of Miss Lieberman. Pink and gold decorations were used, and the twelve guests spent the evening playing bridge. This evening Mrs. Eva Burns will give a family dinner for Miss Heger.

**AT THE MUSICAL**, which the Kappa chapter of Sigma Alpha Iota gave Wednesday night at the home of Mrs. Don Berry, the approach of St. Patrick's day was recognized in the decorations. Mrs. Clyde Litch and Miss Lucile Harris poured, Dorothea Gore and Ruth Hill gave piano selections, and Lucille Reilly and Laura Kimball sang.

#### BRITISH SPEAKER IS HERE THURSDAY FOR CONVOCATION

(Continued from Page 1.) much planning and little socialism. An impractical, yet possible type of economic life, he indicated was that where there was little planning and much socialism. Using the soviet union of Russia as an example of his fourth type, Mr. Dalton described it as much of both planning and socialism.

**Russians Experiment.** "It would seem a far-cry from Nebraska to the Ural mountains," said the speaker. "Yet as I was crossing these plains from New York, there have been many things that reminded me of the plains of Russia. As scientific economists," he said, "we should be grateful for the Russian experiment. We have learned that a planned socialism will work. They have effectively postponed consumption for construction, and reached a new high point in rate of accumulations."

Pointing out the seven objectives which he believed the Russian government to have, Mr. Dalton named them as: A rapid rate of industry and electrical build-up of the country; employment of their full amount of human resources; the spreading thru the country of their ideas and ideals; substantial economic equality based on ability; economic self-sufficiency; military defense; and the encouragement of national minorities. "I doubt if any other country would care to try the kind of planning which Russia has followed," Mr. Dalton said. "The people have had to tighten their belts in the hope of better things to come. They are now mostly handicapped by their low level of efficiency resulting from their lack of machine skill. If it succeeds," he added, "there will be other countries follow along lines which are similar, yet must be different because of the different situations and conditions."

One thing common to economic planning in all countries, Mr. Dalton indicated was the move away from individualism, and toward a social purpose in economic life. He lamented the fact that with science speeding ahead there must be millions not able to contribute to the forward process. His prediction was that the future would find us seeking ends to benefit the whole people, and that the parts must be sacrificed if they would conflict with the common good.

*Why*—

Men and women say They Satisfy

FOR SOMETHING to "satisfy" you, means that it pleases you—that it's what you want. This applies to cigarettes or anything.

A cigarette has to taste right—not raw or too sweet. For a cigarette to "satisfy" it has to be mild—not strong, not harsh.

You can prove for yourself whether a cigarette is milder—whether a cigarette tastes better.

And it's because smokers can prove these things about Chesterfield that so many men and women say they satisfy. Try them.
