BARBS POSTPONE COUNCIL ELECTION

Marvin, Chairman, Says New Members to Be Named Soon After Spring Vacation When Unaffiliated Students Will Select Eleven for Posts.

ACTION NOT RESULT RECENT FACTION PROTEST

Conflict With Student Governing Body Balloting Cause Of Decision; No Change Will Be Made in Slate, States Leader of Organization.

Election of new members to the Barb council, scheduled for Tuesday, has been indefinitely postponed, according to an announcement made Monday evening by Burton Marvin, chairman of the Barb council. No definite date has been set for the naming of the eleven new members by the unaffiliated student body, but the election will be held shortly after the spring vacation period.

The reason advanced for the postponement of the election was that the council wishes to comply with student council eligibility regulations, and in that way standardize rules on the campus and avoid difficulties with the administration.

Not Result Protest.
"The postponement of the Barb council elections is in no way the result of the Green Toga protest asking that the Barb elections not be held on the same day and at the same place as the student council elections," stated Marvin, emphatically denying the opinion that the Green Toga stand effected his action. "In the first place the Green Togas would have a hard time proving that the Barb council election took place in the form of undue lobbying, as they charged. Such a political move evidently has no connection with the Barb council election, but is prompted by some other force which can easily be understood."

Elections Conflict.
"It was revealed to me Monday that last year the Barb council election was held under similar conditions as it would have been Tuesday. Because the same polls were used as were utilized by the Student council, and the eligibility rules were different the Student council got in trouble with the university administration. We wish to have time for investigation of these rules, so that we may cooperate with the student council, and place the Barb council in a better light by complying with a standardized set of requirements. There is no particular necessity of rushing blindly into a recurrence of last spring's situation."

Names of Candidates.
Names of the ten members of the Barb council, a group of male members which is always a feature of Kosmet Klub spring musical comedies, were released yesterday afternoon by Herb Yenne, author and casting director of the show, "The Campus Cop."
All ten of the members of the Barb council have been holding daily rehearsals under the direction of Ralph "Doc" Ireland for the last three weeks. Ireland has directed both the male and pony choruses for Kosmet shows for the last several years.
The members of the chorus and their stage names are: Henry Larson as Mary Marsh, Jack Green as Helen Jones, Dick Decker as Louise Ralph, Glen Mace as Jane Roberts, Dan Easterday as Ann Walton, Bob Pierce as Dotty Allen, Ben Rimmerman as Virginia Howe, James Harris as Ruth Morse, Carl Wigenhorn as Susan Carlson, and Bill Garlow as Babs Scott.
The chorus will present four dances, all conceived by Director Ireland, during the production. The show will be presented for a six day run at the Temple theater from April 23 to 28. Eddie Jungbluth's orchestra will play, and a cast of forty-one is included in the show.

Eighteen Filed.
Eighteen Barb students representing the four undergraduate classes and the graduate college filed during the past week for membership in the Barb council. Eleven of them will be named to positions on the council at the postponed election. The total membership in the Barb council is eighteen, seven hold-over members having been elected at the council meeting last Wednesday.

Two sophomores filed for posts on the body, Bill Newcomer, York, in the College of Business Administration; and Lumear Sedacek, Ord, Business Administration, are the applicants. With two sophomore positions to be filled, these two people are assured of membership unless others are named by virtue of being written in on the ballot.

TODAY'S NEWS Briefly Reviewed

Samuel Insull, former utilities magnate and long wanted fugitive from United States authorities, has been apprehended for the United States government. His arrest was effected in Istanbul, Turkey, when Turkish police boarded his steamer, the Malotis, and took him ashore. He is being kept, closely guarded, in a hotel there. It is thought that Insull has taken his last stand for freedom and that he will soon be back in this country to face charges in connection with his former business interests.

Sure signs that business is getting better—applications for loans from the Reconstruction Finance Corporation have fallen off and large amounts are being paid off on RFC loans. The steel industry is now operating with production much higher than a year ago. Instead of producing 14.8 percent capacity as was the case a year ago, steel corporations and now operating 40 percent capacity.

Dwight Griswold, editor from Gordon, yesterday filed as the republican candidate for Governor. He was that party's candidate in the 1932 gubernatorial race, but failed election when the democratic landslide took the state. He comes from a pioneer Nebraska family and has led an active life in the affairs of the state, having served in the State Senate.

FACTION CHANGES ARE RUMORED AS ELECTION OPENS

Green Toga Party Rejoices As Barb Council Race Is Postponed.

PROGRESSIVE STOCK UP

Possible Write-in Votes Predicted to Overcome Candidates.

BY SOLON.
With rumors of faction changes on the eve of election making the outcome of the election more than ever a matter of conjecture, students go to the polls today to elect members of the student council, publications board, and the Ivy Day orator. Both sides claim victory on the eve of election, professing that students will declare themselves in favor of programs outlined in their respective platforms.

Green Toga members rejoiced as word that Barb council elections, scheduled to take place Tuesday at the same places as the regular election, will be indefinitely postponed. Green Togas had published a protest against the Barb election. Barb leaders deny that any political significance was attached to the fact that both elections were scheduled for the same time and place, and declared that it has been a custom of recent years. Meanwhile Progressive stock took an upward turn as the registrar's office ruled their Green Toga opponents in Pharmacy and Dental colleges ineligible, and only Progressive candidates remained on the ballot. At the same time, a reversal in ruling on the eligibility gave the Progressives a candidate from Law college whose name will appear on the ballot. With no opposition to the Progressive candidate in Teachers college also, the minority faction needs only an even break in the remaining offices to wrest control of the council from the Green Togas.

Rumor originating in feminine ranks insists that women candidates will not be running independently as listed on the ballot and filings, but that definite lines have been drawn which extend even into agreements with men's factions.

Dr. Stoke Sees Missouri Valley As '49th State'

Dr. Harold W. Stoke, assistant professor of political science, in the Sunday issue of the Lincoln Journal and Star described his vision of the "49th state," perhaps better understood when called the Missouri Valley empire. The idea embodies the creation of a special Missouri valley area for the development of its natural resources.

The plan, sponsored in the United States congress by Senator Norris, is comparable to the Tennessee valley Muscle Shoals development which President Roosevelt asked congress to create a year ago.

Features of the Missouri valley development are: To improve the navigability of the Missouri river; to provide for flood control; to provide for reforestation and the use of marginal land; to promote the agricultural and industrial development of the valley area; to provide for the restoration of the water level for irrigation, and for the production of electrical power.

This new notion is called social engineering and is an idea somewhat new to Americans. Doctor Stoke points out. Justification is found in the fact that, while the Missouri valley area is still comparatively sparsely populated, in the course of the next fifty or so years there will be a much more dense population, and planning for the future will have its reward.

It means foresight on the part of the government, preparing by careful planning one of the nation's most important agricultural sections, for the future. Agricultural production, irrigation and flood control will all be of major importance in the near future.

Development of the river area also means development of electric power. (Continued on Page 2.)

Place for Girl On Publications Board Is Sought

For the second time since the student publications board was set up in 1918, a woman has entered the race for a position in that body. That woman is Sarah Louise Meyer, Arts and Science freshman from Lincoln, who filed for sophomore member of the board.

The only other woman to file in the history of the organization was Helen Baldwin in 1932. In commenting on the situation Gayle C. Walker, head of the school of journalism and chairman and chairwoman of the board, stated, "While the student publication board is not concerned with undergraduate politics, I heartily welcome the filing of Miss Meyer for a position on the board as indicative of increased interest by women in the conduct of student publications."

Prof. Walker indicated that often there comes to the surface a feeling that women have been sighted in their aspirations toward positions on the various publications, but that the board had adhered to no such policy of discrimination.

"The publications board regards itself above politics and purposes to continue to guard the system of appointment from any political influence," Walker declared.

Miss Meyer stated concerning her filing, "Although women have been displaying a rapidly increasing interest in activities and in the various campus publications in recent years, they have not been (Continued on Page 2.)

PROGRESSIVES ASK FOR OPEN MIND IN SPRING ELECTIONS

Today marks the second test of the two new campus political factions, the Progressives and our opponents, the Green Togas. We ask, that in the interest of good student government, the voters go to the polls with an open mind, but first of all, that they go to the polls and vote.

We have submitted our platform, dealing directly with issues that have come before the students, and that are bound to appear again before the new council is replaced next year. Our candidates are pledged to support these issues to the best of their knowledge and ability.

With confidence we submit our candidates and ask that you consider them carefully. You are entitled to vote—that's your voice in the student government. And bear in mind when you vote, that it is progress of the campus, not of political bosses and political combinations that counts. A vote for Progressive candidates is a vote for "Progress, not politics!"

The Progressive Party submits the following platform to the students of the University:
1. The Progressive party stands for honesty in student government. We feel that unquestionable honesty is particularly important in the conduct of campus elections. Student government can never function at maximum efficiency nor can it have the support and trust of the student body as long as there is suspicion, distrust or actual malfeasance in the conduct of elections. Regardless of whether or not dishonesty has occurred in the conduct of elections by the existing government, we feel that an adequate safeguard must be established to check all suspicion and doubt concerning the conduct of elections. We pledge ourselves to the erection of a faculty committee to actively supervise all student elections whether these elections be for the regular political or honorary offices.

2. The Progressive party represents virility and true representation on the part of student officers. We promise that any candidate elected under the Progressive banner shall be held strictly accountable to the party and to his duties. We advocate more potent and stringent methods of recall for cases of laxity in office;

3. The Progressive party deprecates the incessant political maneuvering and "wire pulling" practiced by the aspirants to the senior honorary societies. We pledge ourselves to support all methods of reorganization of student government which will tend to minimize this very cogent evil;

4. The Progressive party deprecates all political combinations (Continued on Page 4.)
