Aid for the Convocation Program.

WHETHER students will attend a good convocation program if it is offered by the university faculty and administration was the substance of a letter written by Dean T. J. Thompson appearing in the student pulse column of the Sunday Nebraskan.

Said Dean Thompson: "I believe I may say with assurance that if the faculty and administration can be convinced that the larger portion of the students would attend such convocations, no difficulty would be experienced in securing their approval of some very fine programs accompanied by class dismissals."

Obviously there are no tabulations, no student votes, or expressions of campus sentiment indicating students' willingness to attend all university convocations. A universal expression of campus sentiment on the subject, and necessarily so, would mean a tremendous amount of work which in the end would probably indicate little or nothing.

Since the students of this university have never enjoyed the opportunity of seeing and hearing a good convocation program, the Nebraskan has based its pleas for a worthwhile convocation system upon several assumptions. In the first place

THE DAILY NEBRASKAN

the colleges are closed, we would fumigate them, especially the books. Thus we would kill the propaganda germs and save the world for Democracy ... or something. It might possibly be necessary to have another war to save the world for Democracy, but-well-what do college students know about such things ?- College News Service.

"VER since the "Crime of 1873" when silver lost its place along side of gold in our currency system, there has been agitation for the remonetization of the white metal. Silver miners have been most viving student interest in debating and restoring insistent in their demands, as is to be expected, and during the last few years they have gained quite a number of ardent supporters in the halls of Congress. The outspoken demand of the silverites now has not been shown among fraternity chapters and is for outright remonetization at the historic ratio barb organizations. With more than thirty fraterniwhich gives sixteen ounces of silver the same value ties and nearly as many barb organizations on the as one ounce of gold. Needless to say, the strongsonably be expected. Eight fraternity teams and est supporters of the move in Congress are those senators and representatives from the states which would benefit most from the remonetization of sil-Whether this may be taken to indicate that intellectual enterprises fail to catch the collegiate ver, and citizens of the so-called silver towns can eye as much as do athletic contests is a matter of also be counted on for something to say in the matconjecture. Greater encouragement of the debate ter.

Another class of supporters of the restoration of silver involves those exporters who sell to orienin their campus activities the prominence of this tal countries, particularly China. That country is on a silver standard, and the natural result of the demonetization of silver in this country would be and has been a decrease in the exports to the old less than half-hearted backing that is evidenced east because American goods became more expensive in terms of the monies of their country. Consequently any action to improve the economic status of the white metal would receive their enthusiastic and unanimous support.

A number of conferences on the silver question have been held at the white house during the past met Klub spring show at the Temple Theater. "The few months, but at the latest one last Saturday, the movement ran into the obstacle of presidential disapproval, but there are two loopholes thru which some action may yet be taken. Administration leaders are now seeking a compromise under which the president would use his present authority withterson. As in last year's show, Art Balley and Herb out new legislation. If this is unsuccessful, it seems possible that Congress will pass the Die bill,

HARRIS RETURNS TO CAMPUS FOR TWO DAY VISIT

which establishes a government commission to arrange the sale of agricultural surpluses abroad with silver to be received in payment at a premium above its price in the world markets. Right now the government is trying to appease the silverites by buying and coining all newly-mined silver and paying the producers sixty-four and one-half cents an ounce, while the world market price is less than forty-five cents.

. . . . EVEN though he went down with colors flying, he went down and now John F. Curry can claim the

doubtful honor of being the first party leader that Tammany has thrown out in the history of its existence. And that is saying quite a great deal, because the political organization known as Tammany hall was born in 1789, the same year that the constitution went into effect. Curry, who has been leader of the party for the last five years, was dethroned last Friday night by a decisive vote of the New York county democratic committee in one of the most dramatic sessions ever held by the Hall.

The revolt against Curry had smoldered for two

were later proved to be costly and disastrous to the

prestige of Tammany Hall. A few recent examples

will illustrate this point. He insisted on the renomi-

but fusion leader Fiorello La Guardia won the posi-

tion. Curry stubbornly kept the Tammany vote

solidly for Al Smith in the Chicago democratic con-

vention, but Roosevelt won in spite of him. And

he opposed the nomination of Herbert H. Lehman

for governor, the man who now sits in the gover-

nor's chair. A surface examination of these facts

would seem to point out that whoever Curry op-

posed was sure of election. But the solid alignment

against Roosevelt lost the tiger organization a great

amount of federal patronage, and the defeat of al-

most the entire Tammany slate at the last munici-

TEACHERS OPPOSE

the depression has sobered the outlook of the average student upon a university education. As such a convocation program would find a warmer reception in the minds of more students, than was accorded many such projects during the glorious twenties. Since Nebraska has never had a regular convocation system, an examination of other middle western universities and colleges finds almost universal participation in good convocation programs.

It cannot be denied that university students are changing. The rah rah boys, dressed in coonskin coats, have disappeared from our university campuses. Since the depression settled on our university campuses student interests have rapidly changed to meet new circumstances. It must be noted, in this connection, that greater significance is being attached to scholarship and intellectual interests completely disregarded by college students of the twenties. As such, there is a distinct demand to be met by university administration in furnishing students with a cultural and intellectual outlet available in good convocation programs. It should give students an intelligent and interesting glimpse of the world outside the classroom thru the eyes of well informed speakers. The Nebraskan feels that here is a distinct challenge which university fathers cannot overlook.

It must be admitted that from time to time the university has secured worthwhile speakers. But usually they were the result of a fly by night decision. Preparations were hurried and in many instances few students were aware of the forthcoming convocation. It is for this reason that the Nebraskan examined the convocation systems used at other universities in the middlewest. In the majority of cases, the programs are well attended and attract campus wide attention. Well informed speakers are obtained, classes are dismissed, and administrative emphasis is attached to the convocations.

Programs such as these might well be worked out at Nebraska. The many thousands attending the convocations sponsored by the administration this year should give the university fathers an inkling of what might actually be accomplished if a complete convocation program is worked out for the entire academic year.

. . . .

If the university administration desires campus wide participation in convocation programs it must plan a complete and adequate schedule for the entire year.

Convocations should be distributed over the academic year at fixed intervals. This insures regularity, which we feel, is a major prerequisite for a successful convocation program. In addition there should be a natural amount of student and faculty anticipation for future programs. At the same time it would eliminate the possibility of an epidemic of convocations.

But more important, the university fathers must of necessity select capable and well informed convocation speakers. In addition, all university classes should be dismissed. Routine details of publicizing the program in the N Book, university catalogue, Dally Nebraskan, and other publications might easily be worked out by the convocation committee.

If this is done, the Nebraskan feels that university students will attend all university convocations in far greater numbers than has been the case in the past. This type of convocation program

place in the world today, is the evolving of a new type of college student. If one will open his eyes and observe, he will note that he is being permitted to witness an upheaval in the development of the young generation.

five barb groups are competing.

The war era and its succeeding, approximate and university students. The dis-fifteen-year period brought to us a swift, giddy, and cussion will be held at the Y. M. thoughtless group of people. The college student is not different or worse than the rest of the population but gives you an emphasized view of the trends of the day. As usual the college men and women have done their part to impress upon us the foolishness and unsteadiness of the post-war period.

However, anyone who has been thrown with the college group for the past three years has noted the Lincoln Labor Temple, where a change. The "rah-rah" boy is already "old stuff." It has long been unfashionable at the better schools to engage in the unreasonable type of football rallies. The bearcat runabout and the coonskin overcoat are alike in abevance. Cheer leaders still hold forth at the big games but mostly for the delecation of the alumni in search of their youth. Most striking and amazing of all is that the undergraduate is beginning to admire mere scholarship!

The day of the "polite moron" seems distinctly phew. past. Time was when the impeccable frame of this personage loomed large upon the campus horizon. Mere grinds, bookcrackers, and scholars were dirt fore his elegance. He trod the campus amid the jingle of many watchchain keys, the aimless flop of the 20-inch bell bottoms, and the aroma of gin, per- ers and the heads of homes fume, and ignorance. But his day is definite'y quently think of the compensation doomed on the campus. Somehow it has taken the depression to suggest to young men and women that one doesn't succeed in life by failing in college and that courtesy and smart in the polite sense make the gentleman and the lady. Such is the evolution as it walks hand in hand with fate and time .- Kentucky Kernel.

Something to Worry About.

Between worrying about Nazi propaganda on the one hand and Communism on the other, our leading national worriers are having a hard time.

Right now, however, they are principally concerned about how thousands of innocent, unsuspecting college students are being turned into Communist revolutionaries. It's so awful that a certain admittedly great chain of newspapers is making a drive for increased circulation by "exposing" the horrid plot to poison the flower of our youth.

Of course, we're not denying that some of our college students are Communitsts. We wouldn't even deny that some of them-a few-are Republicans. But if any political group of students is to be singled out and separated from the others to prevent general contamination, we think the segregation should be thorough. That is, Communists should not be exposed to Republicanism, Republicans should

not be exposed to Socialism and Socialists should not be exposed to Democracy. It's all very catching. Look at the Democrats: They've been exposed to most everything-and see what they caught!

On the other hand, it's not going to be so simple, if we count everyone who is opposed to war as a "Communist" . . . unless we include only those who try to "demonstrate" against war. That, of course, is Communism in its virulent form.

The only thing we can suggest is that we close the colleges entirely-like they did during the big is neither utopian nor unworkable, and as such the flu epidemic-until the menace is past. And while
