

BIG SIX TELEGRAPHIC TRACK, FIELD EVENTS START RELAYS TODAY

Nebraska Defending Champ For 3-Day Conference Freshman Meet.

First events in the annual Big Six Freshmen Telegraphic Relays will be run off Tuesday afternoon.

Nebraska is the defending champ of the conference in these fresh telegraphic meets, and Coach Schulte hopes to have a sufficient number of freshmen track stars out to retain the championship.

The Scarlet hopes rest chiefly on a group of five stars who have been breaking all kinds of records for freshmen in the Tri-collegiate meets this year.

Francis is a shot put and discus star, having won the national high school shot putting championship in Chicago last summer, and bettering 45 feet on several occasions this spring.

Lloyd Cardwell, who doubles as a halfback on the grid machine in the fall, is the ace low hurdler and broad jumper of the team.

Jack McGarraugh completes the list of timber toppers, running third to Cardwell and Chapman until a bruised leg forced him out of competition.

Events will be run off as the men entered in them appear for competition, according to Coach Schulte. No special time will be set for any event, but they must be run off within the next three days.

Individual records will be kept of each place.

YORK NINE NEXT FOE HUSKER DIAMONDMEN

Scarlet Batsmen Scheduled Hop to Ames Friday And Saturday.

Fresh from their recent victory over Ames, the Husker diamond men will show their wares against York at York, Tuesday, May 8.

The slugging Nebraskans will put in a heavy week closing with a return match with Ames at the Iowans' own camping ground Thursday and Friday, May 11th and 12th.

Holding one victory over Kansas State and one over Ames, Nebraska's baseball team will be out to add a few more scalps to its trophy belt this week in an attempt to stage a comeback and establish their diamond supremacy.

The possible starting lineup: Letfield, Orcutt, Centerfield, Joyce or Hoegemier, Rightfield, Coyne, Shortstop, Schrieber or Mueller, Second base, Dakan, First base, Graham or Poore, Pitcher, Joyce, Catchers, Reimuller, Pohlman and Bell.

SAMMIES, PI K A TIE IN SOFTBALL LEAGUE A G R's Capture Loop One Title of Greek Tourney.

Two leagues completed their last round of play in the interfraternity softball tournament Monday afternoon on the coliseum diamonds when Alpha Gamma Rho captured the championship in League I and Sigma Alpha Mu and Pi Kappa Alpha tied for the League II.

Only one game was played in League I since Alpha Gamma Rho had previously clinched the championship. Both Kappa Sigma and Zeta Beta Tau failed to appear for their game, and Delta Upsilon forfeited to Sigma Phi Epsilon. Alpha Gamma Rho defeated Beta Sigma Psi 13-9 keeping their title clean of defense.

Sigma Alpha Mu trounced Beta Theta Pi 9-1 by playing championship ball. Pi Kappa Alpha hit hard to take their game with Sigma Chi 14-8. In the third scheduled match Farm House and Phi Gamma Delta failed to play. The playoff for the championship of League II will be played soon.

PENNEY FREED AFTER CYCLE-AUTO SMASHUP

Lee Penney, former university of Nebraska football player, was freed in Council Bluffs, Ia., Monday, May 7, after being stopped for investigation as the result of a motor cycle and auto crash in which James Grego was seriously injured. Grego, Penney stated, was riding the motor cycle and crashed into the side of his car as he stopped to make a left turn. Penney was released on a \$200 bond.

'Tween U'n Me' By JACK GRUBE.

After groping around in the hazy atmosphere of defeat, the Husker diamond men saw the bright glow of victory for the second time this year in their recent mixer with the sluggers from Ames. Being trounced in the first game of the double header, the Nebraska nine was again holding the short end of a 7 to 0 score when the last half of the eighth came around. Just what happened no one knows. The scarlet and cream boys leaned on the pill to account for nine tallies to be out in front for the first time. In the ninth stanza Ames evened things up and both teams tightened up to hold down the score until both teams annexed three more runs and Holmes of Ames went to the mound. With the score tied in the thirteenth and Dakan and Bauer on the bags, Joyce came through with a clean two bagger on which both runners scampered home to chalk up a much-needed victory. All of the boys were fighting hard and settled down to some real ball playing. They've got the goods, out they just haven't delivered.

In browsing around the campus, I came in contact with many hard hitting ball players who were twiddling their thumbs on the home campus because the Ag campus training demanded entirely too much transportation time and expense. This is right as Roosevelt, because with the far greater student body at the main campus far more enthusiasm and spirit would exist and more available material would don the spikes. Just why Knight can't mould a championship team lies not in his inability as a coach, but in the fact that he is too far from his base of supplies. The fellows I cited as disagreeing with the place of practice are neither boasters nor lazy individuals, but like all kids they like to play in their own backyard best. If we don't move, we're going to get jumped by all other diamonds in the conference. Any good checker player knows that.

Nebraska's netmen started the season off right by vanquishing the racquet wielders from Ames in two mixers in the Iowans' back yard.

In building up the 1934 court team Gregg McBride was favored with three veterans and one new discovery. The vets are Haegen, Peder and Shafer while Hugo Dean is the so-called discovery. After chastising Ames to the tune of 6 to 0 and 5 to 1, the netmen ran in real shape for other Big Six competition and also the Big Six meet which will get under way here in Lincoln. Gregg's prowess as a sport criterion is not to be denied and under his guiding hand the scarlet and cream net artists are expected to carve a niche in the old traditional hall of fame.

As a little advance item for all our competitors in the field of tennis, my foresight suggests: Under the hand of Gregg McBride the Huskers come to tan your hide! With Old Mother Nature Going Mae West, the campus is sweltering under her influence and if success is really one percent inspiration and ninety-nine percent perspiration, those exams ought to be a cinch. No matter who talks about the old U. of N. they can't say, "Not so hot!"

65 ARE EXPETED AT ESTES PARK CONCLAVE

"Can Life Be Planned?" Among the outstanding leaders of the conference are Ervine Inglis, pastor of the Park Congregational church, Greeley, Colo., Arthur E. Holt, Chicago Theological Seminary, Margaret Quayle, psychologist from Columbia university, Ben M. Cherrington, director Foundation for the Advancement of Social Sciences, Denver university, A. D. H. Kaplan, economist, Harold Case, pastor of First Methodist church, Topeka, and Harry L. Kingman, secretary of the Y. M. C. A. at the University of California.

PANHELLENIC IN DEADLOCK OVER RUSHING PLANS

Dr. Lyman's chief interest will be in the American Association of Colleges of Pharmacy meeting. The principal speakers at this convention will be Mr. Zook, United States commissioner of education; C. H. Main, director of the American Council of Education, and Mordecai Johnson, head of Howard university of Washington, D. C., the largest Negro medical school in the country. Johnson will deal with the problem of Negro education in pharmacy in the south. Dr. Lyman is a member of the executive committee of the association.

U.S.C. Offers Grand Opera for the First Time in History

Grand opera will soon be presented to students of the University of Southern California, according to the Southern California Daily. The presentation of "A Painter of Dreams," composed by Charles E. Pemberton, will be the first grand opera to be given before the student body in the history of the university. The performance will be given by the school of music, the musical organizations, including the glee clubs and the orchestra, and the school of speech.

Accessories to raincoats best include a rough felt hat in dark color, a light tweed suit and brogue shoes, the latter combining the utmost in vogue and resistance to campus puddles. Both coats are cut very full with a voluminous drape to the skirts which tends to keep the rain off the feet.

The latest addition to campus shops is the Unique Barber Shop under the management of Messrs. Rudolph Deiner and Jessie Shreve, which opens Thursday in the new location on 14th and S. The shop will cater especially to campus trade.

DOPESTERS SAY TECH WILL FALL IN ANNUAL TRACK, FIELD CONTEST

State Prep School Cinder Meet is Scheduled for Memorial Stadium.

Interest in prep school cinder circles is centered in the probable establishment of several new records, especially in the weights, with the thirty-second annual Nebraska high school track and field championships scheduled for Saturday, May 12, at Memorial stadium. Experts are looking for the debatement of Omaha Tech, 1932 and 1933 Group III champions. The Technicals laid won with 22 points last spring, Lincoln following with 20 1-2 points, and North Platte coming in third with 20 tallies. Genoa Indians took group II honors with 19 1-2 points, while Wymore and Trenton finished with 15 and 13 respectively. Group I produced keen competition, with Anselmo the winner with 13 points, Mason City with 12 and Huntley with 11 counters finished in order. It is almost impossible to dope the winners in any of the three divisions, although several schools are in line for honors again with evenly-balanced squads.

Anselmo and Mason City stand out again in group I, the former to a greater degree than the latter, having won the group B honors in the annual Custer county meet at Broken Bow with an easily chalked up total of 58. Mason City was third with 38 tallies, due mainly to the all-around ability of Ralph McCloughan, spring and jump star.

Western Nebraska schools are apparently stronger than usual, boasting such individual aces as Trumbull of Cambridge, Walker of Bassett, Hooper of Scottsbluff, Watts of Huntley, Williamson of Alliance and Nelson of Curtis.

Larry Nelson, the 6 foot 7 inch Curtis youth, came through with a heave of 174 feet 1 1-2 inches in the javelin last week to better the state mark held by Gilmore of Constock by over three feet. The former record was 170 feet 9 inches, established in the 1929 meet.

Bob Mills will be one of the featured artists of the meet. The Lincoln athlete has bettered 51 feet for the shot several times this spring and won his specialty at both the Beatrice and Hastings meets. His competition will be Francis Hardwick of Parks; Bill Pfeiff of Lincoln; Taylor of Bayard and Elliott of Omaha Central. The discus record seems doomed for a downfall, with several boys surpassing the 1933 mark as well as the 130 feet 9 inch record heave of Payne of Beaver City. The best platter tossers include Hardwick of Parks, DePoyster of Crete, Klas of Tilden, Tuckey of Table Rock and Luper of Minatare.

Nothing unusual has occurred on the track outside of Trumble's 15.8 in the 120 high sticks and his 28.3 in the 220 lows. West of Fairbury leads the milers, his 4:40.3 establishing a new meet record at Beatrice last week.

Dean Lyman to Washington for Three Meetings

Dr. R. A. Lyman, dean of the college of pharmacy, left Saturday for Washington, D. C., where he will attend three national conventions of pharmacists and educators. During this week the annual meeting of the American Association of Colleges of Pharmacy, and the American Pharmacy association events will hold his attention. The latter organization will dedicate its new headquarters building in Washington, in the same city on May 18 and 19. Dr. Lyman will be a delegate for his sixth year to the American Council of Education. He represents the American Association of Colleges of Pharmacy in this body.

Dr. Lyman's chief interest will be in the American Association of Colleges of Pharmacy meeting. The principal speakers at this convention will be Mr. Zook, United States commissioner of education; C. H. Main, director of the American Council of Education, and Mordecai Johnson, head of Howard university of Washington, D. C., the largest Negro medical school in the country. Johnson will deal with the problem of Negro education in pharmacy in the south. Dr. Lyman is a member of the executive committee of the association.

The American Council of Education on which Dr. Lyman has served for the past six years was founded during the war to work out the problems between the war department and the schools of the country. "Although it is interested in all fields of education, it tries chiefly to correlate secondary education with higher forms in order to make the higher forms more attractive," stated Dr. Lyman. "The dominating problem at this session will be to determine what high school training best suits a person for the college course in pharmacy," he said. The American Pharmacy association convention is the only one of educational in nature. During the convention the new million and a half dollar building will be dedicated. "We expect to found an institution similar to the American Medical association center in Chicago," Dr. Lyman asserted.

A poll of the senior class at Columbia University, New York, reveals that the majority of them expect to be earning a minimum of \$3,600 five years from commencement.

Schulte Proves Ability as Prophet; Says Huskers Face Stiff Assignment

That a stiff schedule of hard work awaits the Husker trackmen before they tackle Kansas State in a dual at Manhattan next Saturday was the declaration of Coach Henry Schulte Monday. At the same time the Indian congratulated himself on his prophetic ability, having picked the exact winners of the triangular last Saturday. "I'm not such a bad prophet after all," he declared. "We've still got a lot of work ahead of us before the Big Six meet and our defeat last Saturday in the triangular will serve as an incentive to go out and better our marks."

But two more weeks of practice remain for the Scarlet until the Big Six outdoor meet, to be held in Lincoln May 18 and 19. Joe Knappenberger's victory over Heye Lambertus in the low hurdles came as a great surprise to the Husker coaches. The Kansas States timber skipper finished strong after both had run the first 75 yards in slow time. They were still even a few yards from the tape, but Knappenberger, a bigger and stronger runner, had the "push" to break the tape first. Lambertus will have his chance for revenge at Manhattan Saturday.

"Jacobson showed the most improvement of any of our men," Ed Weir declared. "He was right at Hall's heels for 75 yards in the century and did well in the 220. Hall, incidentally has the greatest pitch for the tape of any sprinter I've seen and that goes for Locke, Paddock, Leland and others." Chambers and Reese were both out of the running for places in the javelin until their last throw, when both jumped into first and second places respectively. "What I'm waiting for is the conference meet," Weir added. "It ought to be the greatest one we've ever had. Take the mile. There's Cunningham, the world's champion and a field of the best distance men ever produced in the conference."

"In the Big Six indoor, for example, Glenn Funk ran a 4:26 mile yet he finished fifth. Cunningham, Lochner of Oklahoma, Langdon of Kansas State, and Hardy of Missouri were all ahead of him." Monday was spent in light workouts by the Husker cindermen. Tuesday will see the same kind of work, with perhaps a few tryouts for the weight men. Wednesday will see heavier workouts and Thursday tapering off drills for the meet with Kansas State at Manhattan Saturday.

JOYCE'S TWO-BAGGER IN THIRTEENTH GIVES HUSKERS 13-12 GAME

Scarlet Evens Series With Ames Nine After 6-4 Defeat Friday.

Whacking a long double into deep center, with two on base, Bob Joyce wound up a wide open ball game with the Iowa State Cyclones in the thirteenth inning to give Nebraska a 13-12 victory and an even break in their two game series. The game was played at the Ag college diamond Saturday afternoon. The first game, played Friday afternoon, was won by the Menzeco-coached swatters after Nebraska had held the lead for six innings. In the seventh, with the Scarlet team leading 3-2, a home run by Aldrich of Ames, with a man on base gave them the lead. Although the score was tied again at 4-4, a run in both the eighth and ninth innings resulted in victory for Iowa State, 6-4.

On Saturday, with Iowa leading 9-2 in the eighth, the Knightsmen broke loose on a grand scoring spree, and when the smoke cleared away, nine tallies had crossed the plate. The visitors closed up the gap in the first of the ninth to tie up the ball game at 11 even. There was no running till the thirteenth, when the Cyclones put one run over to apparently sew up the game. In their half, however, the Huskers managed to put men on first and second, with one down and Joyce came to bat. The Nebraska right fielder came through with a timely two-sacker to give the Scarlet a close win. For Nebraska, Spurlock pitched the entire game, while Digraines started for Iowa State, giving way to Hansen and Scheffroth. Box score Friday's game:

Table with 3 columns: Player, Team, Stats. Includes names like Aldrich, Shea, Griffen, Holmes, Graveno, Van Meter, Wagner, Roberts, Perry, Reimuller, Graham, Pohlman, Wahl.

Almost Perfect Record Made by Blind Student. An average within two-tenths of a point of being perfect is the scholastic record of George Card, totally blind third year pre-law student at the University of Wisconsin. Four years ago Mr. Card became totally blind following an automobile accident. Previous to that time he had been a successful traveling salesman. When he entered the University of Wisconsin his wife enrolled with him and took notes and acted as a reader. Later Mr. Card learned the Braille system and now takes his own notes and uses a typewriter in writing papers and examinations. A closer social and classroom relationship between students and professors has developed in the past years, according to Dr. Claude M. Fues, head of Phillips Academy.

NETMEN FACE KAGGIES THURSDAY AFTER WIN FROM AMES SATURDAY

Visitors Bring Strong Team For Contest at Lincoln Tennis Club.

Officially opening the 1934 tennis season by trouncing Ames to the victorious tune of 5 to 1 and 6 to 0, the Cornhusker clay courtmen will show their wares against a strong team of Kaggie netmen at the courts of the Lincoln Tennis Club Thursday, May 10, at 2:00 p. m.

With three of the four berths on the scarlet and cream tennis team filled by the veterans, Wilbur Haegen, Jim Shafer, and Vorriss Peden, the Huskers' hopes for victory soared to new heights. The new member of the team is Hugo Dean, a rangy and husky racquet wielder whose prowess on the courts was proven in the initial matches of the season. Pairing Haegen and Shafer and Peden and Dean, Coach Gregg McBride, tennis mentor and prominent sport criterion of the middle west, believes that he has found the winning combinations, and will send his team against the invaders to establish their court supremacy.

Coach McBride further announced that the Athletic board will sponsor its annual Freshman Numeral Tennis Tournament and all available material is requested to report to the Athletic office or Vorriss Peder at the courts for registration. McBride urges all tennis men to report for practice at the first opportunity so they can get into form at an early date and settle down to a real level-headed game.

Another highlight in the tennis circles is the Nebraska State High School meet which will be conducted at the Lincoln Tennis Club Friday and Saturday, May 11 and 12. Critics of distinction give Kansas and Oklahoma slight advantages over all other Big Six competition in the Big Six meet which will take place May 18 and 19 at the Lincoln Tennis Club, but local enthusiasm is running high after Nebraska's stainless record on the courts thus far this season.

Fred Waring, the popular dance maestro, will judge a beauty contest to be staged on the Ohio university campus by that institution's yearbook. Students at Michigan State college, mails on an average of 4,000 letters per day, and 300 laundry bags.

Why not try one of these new PALM BEACHES... today at Magee's. A complete assortment... in a full range of sizes. SECOND FLOOR. Magee's

JOHN TIERNAN PLANS RESEARCH IN OMAHA. Dr. D. A. Worcester, professor of educational psychology at the university, and John Tiernan, graduate student in teachers college, were in Omaha Thursday. They were arranging for research which Mr. Tiernan expects to make toward his doctor's thesis, which is concerned with the testing of one of the hypotheses of the Gestalt theory in psychology. Dr. Knight Dunlap, professor of psychology at Johns Hopkins University, is doing special research on the problem of just why babies suck their thumbs.

There's Bounce in a PALM BEACH SUIT. RESILIENCY! COME-BACK! RECOVERY! Hang it up over-night, and the wrinkles bounce out. The suit comes back to its normal beauty and shape, almost as well as if pressed with an iron. This is due not to any added finish which might vanish in the laundry... but to new developments in the actual construction of the fabric. \$18.50 At Your Clothier's. GOODALL COMPANY - CINCINNATI

Showing how Palm Beach Suits retain their smooth lines. Each of these summer suits, made of four totally different summer fabrics, was subjected to precisely the same musing treatment. Two sets of photographs were taken: (1) immediately after musing; (2) after hanging the suits up over-night. The Palm Beach Suit not only wrinkled or mused less than the others... but also showed truly amazing facility in the matter of "automatic recovery." (See actual photographs. In each case photo on left shows results after hanging.)
