Silver Has No Task to Perform in Present Administration’s Program
Arnold Tells Young Democrats Club

By Allian Gatwood

News has no job to perform in the present administration’s program, Prof. Keith L. Arnold of the Department of Political Science told the student body at the annual Y. D. C. banquet at the Lincoln hotel Wednesday night. To support this he added that the salary received by the student would be used for the support of the student body and not for any particular purposes, and that the student body would not be used to support the administration.

In his evening speech, he declared that a student in the administration would be placed in a position of honor and that he would be expected to support the administration in its efforts to keep the University in the forefront of American education.

He said that the issue in most political campaigns is the question of the “Who shall rule?” but that in a university, the issue is the question of “What system will we follow?”

He added that the student body should support the administration in its efforts to keep the University in the forefront of American education and that the student body should support the administration in its efforts to keep the University in the forefront of American education.
