WHEN BUDDY ROGERS visited the Phi Psi house last night about 9 o'clock all of the Phi Psi's scrambled to find dates to introduce to the famous motion picture actor and orchestra director. Reporter Crashes Through Feminine Admirers to Interview 'Buddy' Rogers

BY JACK GRUBE.

After cleverly executing one of Dana X. Bible's famous gridiron explosion drives to bowl over an admiring feminine multitude which in a state of "Ga-Ga" thronged the abode of Buddy Rogers, your old screen reporter finally gained council with the old idol of stage and screen.

He immediately impresses his interviewers with his unheard of simplicity and democratic viewpoints and converses in a congenial manner which makes you feel as though you've known him all of your life. Bud rises from the terra firma a little more than six feet and must tip the scales at close to 185, so it's no wonder his admirers in the fairer sex go for him in a big way. He is a dapper, robust, grownup collegian who sports the clothes the boys of the campus would like to do if their finances were not so sadly depleted.

In order to assure the public of a lot but of news, your interrogator "hummed" and "aahed" a few times and after shifting from foot to foot finally whispered in a "Cum up an see me sum tum" objective. "What do you think about the 'She done him wrong' gal?"

With a twinkle in his eye, Bud stepped closer and consoled me by saying, "I'm going west right now to see if she has everything they say she has. I believe in the old Horace Greeley axiom, 'Go West, My Boy.' He failed to disclose whether or not he referred to directions in his frequent use of term 'west.'"

In regard to his climb to the heights under the bright lights, Rogers credits "Old Lady Fortune" with his success since he was selected from the students at the K. U. school of journalism to take the big hop to the home of the cinema Hollywood. He assured me that his ability and success was far greater on the stage and that he paddled away more "sugar" now than when he was under the thumbs of the celluloid kings.

Gals, he's still "that way" about Mary Brian, and Mary Pickford is the old traditional friend of the family so you might just as well

put away the rouge, nail polish, lip stick and glad rags because he is somewhat immune to your charms and fantasies.

When it comes to Hollywood, Bud is wild about it, and says he has succumbed to its supreme serenity and solitude. He invalidated the saying that it is just one speakeasy after another filled with individuals making the proverbial "whoopie." "The high life described is good food for a scandal hungry public, so smart publicity agents feed them the right dope and they get fat on it," he declared.

The cinema Adonis was here at the home of his sister, Mrs. John Binford and her husband, local golf tric kartist. He left Thursday for California with his father and mother to enjoy the spell of West—I mean west.

in the year during the football season," she said. Jack Miller, member of "N" club committee in charge of the affair, urged that every student turn out for the rally. "It will be a short, spirited display of pep," he said. "It is a fitting tribute to one who has stood by Nebraska thru the years so loyally as has Coach Schulte."

"It's a fine idea," Coach Schulte stated. "Other schools and coaches are going to be pleased to see a fine turnout for the rally thus indicating that the student body backs their sports in all departments. It will convey the idea that Nebraska still maintains that fine spirit for which she is noted."

and 1 minute 53.2 seconds respectively. The low timber-topping record is 23.3 seconds, set by J. Welch of Missouri. New Mile Relay Mark. The fourth record in the track events which will go by the boards is that in the mile relay. The present record is 3:19.6, established in 1922 by Nebraska, but the Kansas 1924 combination looks .6 of a second better to the Husker coach. Among the field events, the high

jump offers the best performance, with Doug Barham of Oklahoma clearing 6 feet 6 on the dope sheet. The present record is 6 feet 3, held by Newblock of Oklahoma. Elwyn Dees of Kansas is considered equal to the task of cracking Hugh Rhea's mark of 49 feet 11 inches in the shot. The Kansan is predicted to finish with a throw of 50 feet 3 inches to his credit. Clyde Coffman, also of Kansas, looks good for a new record in the pole vault. The present record is 13 feet 5 is held by himself, and Coach Schulte considers him one inch better this year.

The javelin mark will fall, with Carl Ripper of Iowa State on the throwing end of the spear. The present record of 197 feet 9 inches was set by Marks in 1932, and has been exceeded by Ripper by 9 feet this year.

NETMEN IN LAST MEET WITH CLEAN RECORD

After sailing through all Big Six competition with a stainless record, Nebraska's netmen will show their wares in the conference meet at the Lincoln tennis club Friday and Saturday May 18th and 19th.

With all schools represented, the scarlet and cream racket wielders will have a real assignment on their hands when they attempt to cop their court title.

Coach Gregg McBride, clay court mentor, expressed his satisfaction with the present quartet and looks forward to a good showing in the final event of the season. He will send Wilbur Haegen and Jim Shafer against the invaders.

The semifinals will open Friday morning at 10:30 and will continue through the day and most of Saturday. The time of the final matches will be announced at the courts upon termination of semifinal mixes.

General opinion seems to give the Sooners and the gentlemen from Kansas U a little edge over the Cornhuskers, but local sports writers maintain that a strong team seldom loses in its own home town.
