MONDAY, JUNE 11, 1934.

LINCOLN, NEB.

COMMITTEE MEETS MONDAY TO OUTLINE RECREATION PLANS

Prof. E. W. Lantz Is Faculty
Member in Charge of
Activities.

Plans for an elaborate summer school recreation program will be formally completed today when the recreation committee under the supervision of Prof. E. W. Lantz, faculty member in charge of this phase of summer school life during the past four years, meets this afternoon.

Effort is being made, according to Dr. Lantz, to make this year's schedule one of the most complete and most successful recreation programs since the inception of the idea several years ago.

Pleased With Results.

Highly pleased with the results of last year's program the committee is going ahead with a more extensive program this year, he stated.

Included on the tentative program is an organized picnic or party each week, baseball, golf, horseshoe, and tennis tournaments. Complete arrangements of the dates and schedules of these events will be made available sometime this week it was announced.

"Realizing the need of a full program of extra curricular activity, the summer session administration will put forth every effort to provide a recreational program, incidental to regular classroom activity which will find a favorable response in every student, Prof. Lantz stated.

Parties in Coliseum.

According to tentative plans, the parties will be held in the university coliseum, with an orchestra and small admission fee for summer session students. Complete details of the organized athletic tournaments could not be learned Saturday but it was expected that practice in these events would commence early this week. Complete plans for more extensive picnics were indicated Saturday by Professor Lantz.

A full and complete schedule of recreational plans for the summer session will be carried by the Nebraskan in next Thursday's issue.

OVER 1,000 REGISTER FOR SUMMER SCHOOL

Signing Up of Graduates Is Expected to Swell Unofficial Total.

Over a thousand students had registered for the summer session by Saturday noon, an unofficial

Professor Dies

Dr. F. M. FLING

Who died last Friday evening from pneumonia several weeks after an operation. He had been ill for several months. Funerals services will be held Monday morning at 10 o'clock in Westminster Presbyterian church with Rev. Dean R. Leland officiating.

check-up revealed. Graduate college registrations, when completed, are expected to swell this figure. A straggling registration of undergraduates is also expected until Thursday this week.

After Thursday, undergraduates may not register under written permission of instructors and Director Moritz. No registrations will be accepted for credit after June 22.

A combination of economic conditions and hot weather during the past two weeks, which may have changed the minds of some who intended enrolling in summer school, was held responsible by officials for the figure.

Nebraskan Requests Rooming Houses to Appoint Reporters

In order to cover all the news on the campus of interest to summer students, the Nebraskan asks that a reporter be appointed in each organized rooming house. A meeting of these reporters will be called later.

The Nebraskan suggests that in making those appointments each house, if possible, should designate who has had some previous experience along that line of work.

Any other summer students who desire practical experience in reporting are asked to call at the Nebraskan office at any time.

LAST RITES FOR DR. FRED M. FLING TO BE HELD THIS MORNING

University Professor Dies
Friday Night From
Pneumonia.

Funeral services for Dr. Fred Morrow Fling, internationally known historian and instructor in history at the university since 1891, will be held at 10 o'clock Monday morning in Westminster Presbyterian church with Rev. Dean R. Leland officiating.

Dr. Fling, who had been ill for some months, died last Friday evening of pneumonia several weeks after an operation.

Dr. Fling was born at Portland, Me., in 1860 and received his A. B. degree from Bowdoin college in 1883. Money for further scholastic work was saved during five years of high school teaching in Biddeford, Me.

Thesis on Mirabeau.

At the University of Leipzig, Professor Fling received his M. A. and Ph.D. degrees in 1890. His thesis on Mirabeau there began a lifelong study of the French revolutionary patriot. While there he formed a friendship with two other university faculty members, Prof. W. G. Langworthy Taylor and Dean J. E. LeRoussignol.

Professor Fling came to the university in 1891 where he served until the time of his death with the exception of periodic trips to Europe for historical research. He received a full professorship in 1906. While serving in the United States army during the World War Professor Fling was a major of the general staff and was chief of the section of diplomatic history of the historical branch. He was later commissioned to collect material from the Versailles peace conference.

Dr. Fling made his last trip to Europe in 1929 when he was accompanied by Mrs. Fling and their son Wentworth.

Studies Life of Mirabeau.

During his life Professor Fling collected a large amount of material on the life of Mirabeau and according to Professor Taylor, who was intimately acquainted with Dr. Fling's works, a 500 page volume "The Youth of Mirabeau" has been published and two other volumes completed.

Twenty years were spent by Dr. Fling on one of his most scholarly works, a history of civilization. Publishers had evinced great interest in the work, but it was uncompleted at the time of his death. Dr. Fling's private library was one of the most extensive of any member of the university faculty.

Other works of Dr. Fling include "Outside of Historical Method," "Studies in Greek Civilization," "A Source Book of Greek History," "History of France in the History of Nations," "Source Problems on the French Revolution," and "The Writing of History." He also wrote numerous articles on historical subjects for American and European periodicals.

Gains Eminence.

Professor Fling gained eminence in the teaching field throughout the country as the introducer of the

GRADUATE AWARDED PH. D. AT FLORIDA Klotz One of First Two To Get Such Degree at That School.

Lyell Klotz, graduate of the university, was one of the first two to receive doctor of philosophy degrees from the University of Florida, according to a recent news dispatch. For the first time in its history that institution is conferring such a degree.

Klotz received his bachelor of science degree in pharmacy from the university in 1928 and a year later received his master's degree here. Entering the University of Florida in 1932 he made pharmacy his major and chemistry his minor. He taught for some time at the University of Charleston, S. C.

Summer Director

R. D. MORITZ.

Who is director of the university summer school session. In his welcome to summer students he declared that the task of the twentieth century is the development of the social sciences as the task of the nineteenth was the development of the physical sciences.

RECOVER BODY OF TOM YOUNG FROM SAND PIT

Law School Senior Drowns
Saturday Morning at
Linoma Beach.

After searching for eighteen hours the body of Tom Young, university law school senior who was drowned at Linoma Beach early Saturday morning, was recovered from forty feet of water by search parties Saturday night.

Young, accompanied by Maude Moore of Lincoln, set out to swim across the sand-pit about 3 a. m. and becoming exhausted, went down. Miss Moore, who also started to go down was rescued by the life guard awakened by the screams. The two were accompanied to the beach by Don Robertson, fraternity brother of Young, and Mildred McClendon of Lincoln.

Fifty men, led by Sheriff Harry Mundell of Sarpy county, dragged the sand pit all day Saturday in

Means of Bridging Wide Gap Between School and Jobs Under Consideration

Ways and means of bridging the wide gap between school and employment are now under consideration, reports Prof. A. A. Reed, director of the university extension division, who recently returned from Washington, where he had been called by Commissioner G. F. Zook, of the office of education in company with fifty other educators.

Included in the group were seventeen official representatives of national youth welfare organizations, five representatives of state departments of public instruction, five vocational education directors, five college professors, and four superintendents of schools.

"Since all action was of a nature advisory to the office of education, any statements as to recommendations of the conference must come from that office," explained Director Reed. He explained that three separate reports were made as the results of three round table discussion groups and that co-ordina-

BEAUCHAMP TO OPEN LECTURE SERIES FOR SCIENCE TEACHERS

Open Group Conference Is
Scheduled After Each
Class Period.

SCHEDULE FOR FIRST HALF OF WEEK.

June 11, 2 o'clock, T. C. 323—Lecture, "The Psychological Basis of the Unit Method of Teaching."
June 12, 9 o'clock, T. C. 126—General conference.
June 12, 2 o'clock, T. C. 323—Lecture, "The Organization of Science Units."
June 13, 8 o'clock, T. C. 21—Special lecture, "The Technique of the Class Demonstration." 9 o'clock, T. C. 126—General Conference. 11 o'clock, T. C. 21—Repeat of 8 o'clock lecture. 2 o'clock, T. C. 323—Lecture, "Teaching Students to Study Science."

Science teachers will hear the first of a group of lectures specially planned for them Monday afternoon at 2 o'clock in T. C. 323 by Dr. Wilbur L. Beauchamp, assistant professor of education at the University of Chicago. Dr. Beauchamp, who has been active in research relating to the grade placement of science principles, and in the development of unit for science teaching will have as his subject, "The Psychological Basis of the Unit Method of Teaching."

Tuesday Dr. Beauchamp will lecture on "The Organization of Science Units," and "The Teaching Technique of the Unit Plan" will be his subject Wednesday. These lectures are included in the course of study for Education 142, 122, 121, and other courses co-operating. They will also be open to auditors.

Gives Special Lecture.

Dr. Beauchamp is scheduled to appear at 8 o'clock Wednesday morning in T. C. 21, for a special lecture on the subject, "The Technique of the Class Demonstration."

REGISTRATION FOR MUSIC COURSE OPENS

75 High School Boys and
Girls Expected to
Enroll.

Approximately seventy-five boys and girls are expected to register today for the second annual four weeks' summer session of the all state high school orchestra and choral course from June 11 to July 7, according to Howard Kirkpatrick, director of the school of music.

The orchestral division will again be in charge of William R. Norton of Flint, Mich., and George R. Howerton of Chicago will have charge of the choral work. Non-resident boys and girls will be housed during the session in separate dormitories where they will be under the direction of trained supervisors.

Results of Survey of Enrollment by Subjects in Nebraska Public Schools

Editor's Note: The following is a compilation of the results of a survey of the enrollment by subjects in Nebraska Public Accredited Schools made by Prof. R. D. Moritz, Director of the University Educational Service and director of the summer session. Omaha, Lincoln, private and parochial schools are not included.
