Apparently eligible students the last minute to enter the antheater known as the "Garlic Opera" (Continued on Page 4.) nual competition for Rhodes Scholarship awards this year, for an unexpected rush on the final day boosted the number of university students here seeking the awards to 14 as the lists closed Thursday noon.

The large number of entries came as a complete surprise, for but three students had filed at a late hour Wednesday afternoon. Dean C. H. Oldfather, chairman of the university committee in charge had repeatedly expressed the belief that interest in the competition was far lower this year than in the past, basing his belief on the small number of students who had sought information concerning the competition.

Last year, 13 Nebraska students entered the competition and Dean Oldfather had announced Wednesday that he expected six or seven about half that number-to com-

## Nebraska Trails in Field of Mental Hygiene, Says Dr. Walton; Declares Many Mind Ailments Could Be Cured

By LORRAINE CAMPBELL.

Nebraska has done very little in the field of mental hygiene, according to Dr. Walton of the psychology department. although the subject has been taken up extensively by various other states since 1910. 'We now know," says Dr. Walton, "that heredity and en-

vironment are factors in mentalo-ailments to the same degree that reached and dealt with they are factors in physical diseases. We know also, that the majority of common mental ailments result directly from environment

over which we have control." Dr. Walton has endeavored, by means of a series of lectures before departmental groups thruout the state, to imprint the fact, that while there are a number of incurable cases in our state institutions, nevertheless, there are a number suffering from mind disorders who, with the proper sort of study and attention might be helped in restraining their normal channel escents differs widely in its scope from that of the adult.
