Would You Fight For Your Country?

Early in January students in 150 American colleges and universities will cast ballots in a peace poll conducted by the Association of College Editors through the offices of the Literary Digest, current news weekly.

First on the list of questions is the following: Do you believe that the United States can stay out of another great war? (a) If the borders of the United States were invaded, would you bear arms in defense of your country?

At present it is the policy of the United States government to defend economic interests of its citizens wherever those interests may be located. This policy, which is also followed by other imperialistic nations, has been responsible for most of the wars that have plagued the human race.

What is the true patriot? Military men declare that to be truly patriotic a man must agree to bear arms for his country in any war, no matter what is the cause for the conflict.

Two years ago eastern college students started circulating a petition among colleges and universities throughout the nation, the petition stating that the signers would refuse to fight in any kind of a war. Student pacifist opinion has developed to a point far more advanced than that prevalent two years ago.

Outline of Red Theory TO THE EDITOR:

Mr. Jack O'Sullivan, having read with great interest your illogical, emotional lambasting of the Reds in this country, especially students, I hasten to the defense of the editor in his opinion toward your irrationality.

'ETIQUETTE' NEXT CHARM SCHOOL TOPIC. Ruth Sperry to Talk to Freshman Girls Tuesday.

Teaching Aspirants Register This Week. Registration of students in the department of educational service at the university will be held Wednesday, Thursday and Friday of this week.

Engineer Alumni Return. Recent alumni visitors in the college of engineering have been: Raymond M. Snyder, a graduate of 1934, now living in Pawnee City; and James F. Chapman of Ashland who was graduated in 1930.

be a Communist to belong to it anymore than one has to be a Communist to attend the University of Nebraska, although Communists may exist in both.

But through with this dilly-dally about the "dangerous" Red element in our student body. From the material you have presented, Mr. O'Sullivan, it is not difficult to judge that you know very little about the theories of Marxism and Leninism which you so readily reproach.

Communism? What is this horrible thing that you are battering from pillar to post in your effort to make us hate the very color Red? Let us see.

The social system under which the machinery of production and distribution and the natural resources with all things socially used, will be owned and controlled by the people collectively.

Communists hold to the collectivist theory carried to its ultimate—the collectivist control of all production. It is the affirmation that nothing essential belongs to everybody, that is to say, all there is on the earth belongs to the world as a whole and to no individual in particular.

Communists believe in and aim to apply centralized control and operation of production, distribution, and administration over wide and varied areas. They take this stand because industry is a huge, co-ordinated machine which is entirely interdependent as realized.

Galileo Galilei, that great Italian scientist born in 1564, the founder of experimental physics and astronomy, met his death as a heretic in 1642. He was led before the high ecclesiastical court as a heretic to hear his death sentence read to him.

We Can Help Those Less Fortunate Than Ourselves...

And at little bother and no expense!

THIS WEEK

It's Christmas time! But Christmas to many will mean little more than any other day of the year. For it is they on whom fate has not smiled kindly.

In cooperation with Lincoln charity organizations, the Daily Nebraskan is conducting a campus-wide campaign for old clothes. Things for which you no longer have any use, will prove most useful to Lincoln needy during cold winter months.

Those old shoes you can't wear, which at the present time merely clutter up your clothes closet, may just as well be given to charity. That dress you thought had seen its last day weeks ago, will see many more when given to folks who never get to buy pretty new things.

So give and help somebody have a merrier Christmas. We'll be glad to call for even the smallest contribution. It's the little bits that eventually count. We can all do a little to help.

Organized House Presidents

100% representation in the campus Honor Roll is the goal for organized houses. So why not talk over the charity drive at your meeting Monday night. We want you to be included. Our delivery service will call for your contribution.
