SKATING WITHOUT SKATES—that's what most of the university students and everyone else have been doing for two days now. It all happened in about a half an hour Tuesday just after 5 o'clock. What appeared to be a fog was a sleet of the worst kind. And the next morning, although the walks and streets were a solid cake of ice, people had to go to 8 o'clocks. It was a choice of walking and breaking your own leg or driving and breaking someone else's. Professors counted students who were a half an hour late on time. And in one "Sosh" class room after struggling for what seemed hours against the elements to get there, students found that the lights wouldn't go on and class was dismissed. So they skated, so they slid, so they stumbled, so they fell—but school goes on forever.

MARRIED yesterday were Elizabeth Jane Sheldon of Nehawka and Richard S. Cole of Weeping Water at 7:30 o'clock at the home of the bride's parents. The bride was a member of Kappa Kappa Gamma when she attended the university. The bridegroom is in business in Weeping Water where the couple will reside.

ANNOUNCED recently was the engagement of Lorena Schwarding to Homer C. Kelley of Scotia. Both Miss Schwarding and Mr. Kelley are former university students.

MRS. MARGARET REA was the hostess when the Chaperons' club met at the Phi Mu house Tuesday afternoon. Entertainment was furnished by Mrs. Chauncey Palmer Smith who read on original one act comedy, "The Acid Test," and by Miss Claralyce Davis who sang two numbers.

A MARRIAGE which took place Saturday was that of Mary Ann Weaver of Falls City to Lloyd J. Neil of Cozad. Mrs. Neil attended the university and has been teaching at Cozad. After a trip to Texas and other points in the south, the couple will make their home near Cozad.

PHI DELTS elected officers for the coming year at a meeting Monday night. They are: Bill Horchem of Ransom, Kas., president; Gordon Aldrich of Lincoln, reporter; Jack Mohr of Coleridge, secretary; Dick Chowins of Lincoln; warden and chorister; Bob Proy of Omaha, chaplain; Bob Hutton of Lincoln, historian; and Don Gipson of Omaha, alumni secretary.

NEW OFFICERS of Sigma Phi Epsilon for the coming semester are: President, Bert Dorice of Moline, Ill.; vice president, Milo Jensen of Denison, Ia.; secretary, Norman Harris of Chicago, Ill.; and treasurer, Victor Wragge, of Howells.

SIGMA ALPHA IOTA, musical sorority, entertained at a monthly musical at the home of Ruth Hill last evening from 7 until 10 o'clock. The program was composed of a piano selection, "C Minor Fantasy" by Bach played by Ruth Fries; two harp solos played by Ruth Hill, "Song Without Words" by Dubez and "Sailor Song" by Chalmers; and two piano numbers, "Prelude in C Sharp Minor" by Chopin and "Malaguena" by Lecuona presented by Mildred Walker. About thirty guests were present.

KAPPA DELTA mothers' club will meet at the chapter house this afternoon at 1:30 o'clock. Mrs. Leo Soukup and Mrs. Ella Veon will be hostesses.

MOTHERS of Alpha Phi members held a 1 o'clock luncheon at the home of Mrs. A. J. Stenten Tuesday afternoon. Assisting hostesses were Mrs. Anna Meyer and Mrs. Max Meyer.

AND FRIDAY afternoon at 2:30 o'clock the Lambda Chi Alpha mothers' club will meet at the chapter house. Hostesses will be Mrs. Florence Giggons, Mrs. B. A. Anderson, and Mrs. P. H. Jacobs.

A DESSERT luncheon will be given by the Theta Chi auxiliary at 1:15 o'clock Friday afternoon at the chapter house. The afternoon will be spent sewing for the fraternity.

WHAT'S DOING.

- Thursday, Kappa Delta Mothers' club chapter house, 1:30 p. m.
- Friday, Lambda Chi Alpha, chapter house, 2:30 p. m.
- Delta Upsilon, formal, Cornhusker, 9 o'clock.
- Theta Chi auxiliary, 1:15 o'clock dessert luncheon, chapter house.
- SATURDAY, Pi Beta Phi, formal, Cornhusker hotel, 9 o'clock.
- Carrie Belle Raymond Hall, formal, 9 p. m.
- Xi Psi Phi, mid winter frolic, Lincoln hotel, 9 p. m.

It's a Townsend Photograph that satisfies.—Adv.

Depict Use of Carbon Brush in Machinery

Problems arising in the attempts to fit carbon brushes to various types of machinery were discussed by J. A. Robinson of the National Carbon company of Chicago before members of the American Institute of Electrical Engineers, Wednesday evening. He also presented the film, "Behind the Pyramids," to the students.

A survey of the senior class at Boston university indicates that matrimony there finds some favor as an undergraduate project, inasmuch as it was found that four of the six highest ranking seniors are married.

TEACHER OF FAMED PLAYWRIGHTS DIES

Prof. Baker of Yale Trained Eugene O'Neill, Sidney Howard and Others.

NEW YORK, Jan. 17. (C.N.S.) Prof. George Pierce Baker of the Yale university drama school, who perhaps has started more playwrights on the road to success than any other man, died this week at the age of 68.

Professor Baker made revolutionary changes and contributions to modern drama yet never was seen over the footlights or in the marquee.

The work that made him famous the world over was the training of budding playwrights and producers who registered as his students for "English, 47" at Harvard university or "Drama, 47" at Yale university.

From his "47" showshops came: Eugene O'Neill, three times winner of the Pulitzer prize in drama, author of "Emperor Jones," "Strange Interlude," and "Mourning Becomes Electra."

Sidney Howard, whose "They Knew What They Wanted" won the Pulitzer prize in 1925. Walter Pritchard Eaton, playwright and critic, who succeeded Professor Baker as teacher of "Drama 47" at Yale.

Lee Simonson, scenic designer and director for the Theater Guild, and Robert Edmond Jones, who designed the costumes and sets for O'Neill's "Mourning Becomes Electra."

Professor Baker's teachings were based on an idea that drama could be taught in classes and should be taught thru practical work in mechanics of the stage.

He became director of the "47" workshop at Harvard, assistant professor of English in 1895, and full professor in 1905. After thirty-six years as a member of the Harvard faculty, he went to Yale in 1925 as chairman of the department of drama and director of the new Yale university theater. There he taught until his retirement on July 1, 1933.

JAYHAWKERS REMAIN UNDEFEATED IN BIG SIX

Sooners' Winning Streak in Basketball Broken By Kansas.

EBLING LEADS SCORING

The defending champion Kansas Jayhawkers remained undefeated in conference rivalry Tuesday night at Lawrence as they somewhat unceremoniously, and with apparently little regard for the vanity of the Oklahoma university basketball team, escorted the luckless Sooners out of a tie for the Big Six conference leadership.

As the fast breaking Oklahomans were handed their first loss in the conference by the decisive margin of 50 to 23, the Jayhawkers killed two birds with one stone, by breaking the Sooners' winning streak of four straight victories, all scores over Kansas State and Missouri, and lengthening their own record of undefeated contests to the creditable number of four straight wins. Prior to Tuesday night's crucial game, Kansas had beaten Missouri twice and Kansas State once.

Only Nebraska, by virtue of her "scratch" victory over Iowa State Saturday, remained in a tie with Kansas for the position at the head of the conference list.

Ray Ebling, Kansas scoring ace, who led the league last week, was the main stave in the annihilation with six field goals and eight free throws out of ten tries for a total of 20 markers. Oklahoma never seriously threatened throughout the contest, trailing 26 to 12, as the gong rang for the half-time intermission.

As the Jayhawkers tried to stretch the score to 50 in the closing moments of the game, reserves battling furiously for both sides brought the crowd to its feet in an uproar. The spectators' hope was realized in the final Jayhawk basket, when Alphonso Wellhausen, 6 foot 7 inch sophomore center, got his only basket of the contest.

After surveying the situation from all angles (pause for our own personal survey), Professor Guillermo Hall, head of the social sci-

GREEK CLASS B CAGE TILTS OPEN THURSDAY

Second Round Class A Games Headline Wednesday Intramurals.

MUST POST FORFEIT FEE

Class B fraternity basketball begins Thursday night, at 7:00 o'clock. All entries are asked to have their forfeit fees in by Thursday noon. The Intramural Department wishes to emphasize the fact that it is just as important to play off the Class B games as those in Class A. The games will start on time and any team more than ten minutes late will forfeit the game and lose its forfeit fee. The schedule appears elsewhere in the paper.

Wednesday night sees the second round of the Class A fraternity round robin played. The games begin at seven sharp Games Wednesday:

League I: Tau Kappa Epsilon vs. Delta Sigma Lambda at 8:20 on Court III and Theta Chi vs. Farm House at 8:40 on Court III. League II: Phi Kappa Psi vs. Kappa Sigma at 7:00 on Court II and Phi Sigma Kappa vs. Alpha Gamma Rho on Court III at 7:20. League III: Sigma Chi vs. Beta Sigma Psi on Court I at 8:20 and Beta Theta Pi vs. Delta Upsilon on Court I at 8:40. League IV: Phi Alpha Delta vs. Zeta Beta Tau on

Germs Propelled By Coughing May Live Hours in Air

CAMBRIDGE, Mass., Jan. 16. (CNS). New facts regarding the contagiousness of various infective diseases were announced today following investigation by Harvard university scientists. They found that infective germs propelled in coughing and sneezing may float, alive, in the air for several hours. This discovery threatens to revolutionize the present-day theories on the possibility of certain respiratory infections being air-borne. Investigations were conducted by William F. Wells, Harvard health scientist and Wyman R. Stone, graduate student of the Harvard graduate school of engineering. Mr. Wells found positive evidence that minute droplets expelled by coughing, sneezing, and

—so far as we know tobacco was first used about 400 years ago—

—throughout the years what one thing has given so much pleasure.. so much satisfaction

They came looking for gold... but they found tobacco

... and tobacco has been like gold ever since!

The tobacco raised in Virginia and exchanged for goods helped the struggling colonists to get a foothold when they came to America.

Later on, it was tobacco that helped to clothe and feed Washington's brave army at Valley Forge.

Today it is tobacco that helps—more than any other commodity raised in this country—to pay the expense of running our Government.

In the fiscal year 1933-34, the Federal Government collected \$425,000,000 from the tax on tobacco. Most of this came from cigarettes—six cents tax on every package of twenty.

Yes, the cigarette helps a lot—and it certainly gives men and women a lot of pleasure. Smokers have several reasons for liking Chesterfields. For one thing, Chesterfields are milder. For another thing, they taste better. They Satisfy.

Early Colonial planters shipped hundreds of pounds of tobacco to England in return for goods and supplies.
