

CAMPUSOCIETY

APRIL SHOWERS MAY BRING MAY flowers, but so far we haven't seen anything of the showers and the future for the flowers doesn't look very bright in all this gray weather. Now that initiations are practically all over—and everyone has grown very weary congratulating everyone else—and the Kosmet club is having its fling—and the "Park" has opened, it should be spring, but the weather man certainly isn't being very definite about it. There is a decided lull in campus activity long about this time, which is usually attributed to spring fever, but this year with the thermometer at 80 for two days and then freezing for a week, spring fever isn't even a good excuse. No one wants to wear spring formal to the parties, because, after all, chiffons and organdies don't do so well in a raging dust storm—and there is always a 100 to 1 chance that the elements will do something smartie. This weather may be good for several things but right off hand we can't name one, and any way you take them "gray days" aren't "hey days" as far as we are concerned.

SEEN ON the campus: Frank Crabill hurrying somewhere, busy as usual—members of the Kosmet show cast looking faintly pinkish yellow—Bob Joy, Tom Britton and Ed Uptegrove playing pitch in the "Moon"—several brave young men playing tennis on the courts beside Bessie—Paul Amen carrying many books in the general direction of the Math building—Anne Roscow and Dorothy Green sauntering—Hank Kosman in the box office at the Temple looking very official and smoking a cigar—Art Bailey of "Kiss Columbo" fame, very mannish looking in the daylight—two violets battered and dusty, near the north wall of the Administration building—Wood Shurtleff searching for Maynard Miller, reason unknown—Les McDonald dodging a car while crossing the street.

AFTER the Delta Upsilon initiation this afternoon, the chapter will entertain at a house party tonight. The party is closed and fifty couples are expected to attend. Fred Guggemos is in charge of the arrangements and Mr. and Mrs. Cloyd Stewart and Mrs. Caroline Phillips will chaperon the party.

party of the year tonight at the chapter house. Forty-eight will attend the affair and the hosts will be Mr. and Mrs. Henry Campbell Dr. and Mrs. Glen Warren, Dr. and Mrs. Earl Deppen, Mr. and Mrs. Max Roper and Mrs. Chauncey Smith. Mrs. Henry Campbell is in charge of the arrangements.

RECENT initiates of Delta Sigma Lambda are: Vern Bartow, Fairbury; Forrest Brown, Western; Tom Dixon, Big Springs; Harold Lutton, Ashland; Lyle Jensen, Big Springs; Robert Schluckebier, Palisade; Bill Schneiderwind, Omaha and John Vogler, Kimball.

AND THE Betas had a bit of fun one night last week with the skin of a cat which one of the more ingenious of the brethren brought home from zoology lab. The odor of the specimen was quite unpleasant and the boys had themselves a time putting the cat skin under the pillows of the unsuspecting in their midst—fun!

SIGMA PHI Epsilon held initiation Sunday. Those initiated were: Nathan Allen, Lincoln; Earnest Jaeger, North Platte; Ralph Nollkamper, Gregory, South Dakota; Purman Rembe, Bancroft and Paul Wenke, Pender. After the ceremony a banquet was served at the chapter house with Burt Durkee as toastmaster and Capt. Walter T. Scott as the principal speaker.

MRS. GARDNER Moore entertained the Sigma Alpha Iota alumnae at her home Tuesday. There were twenty-four present and the following officers were elected: Mrs. R. M. Anderson, president; Genevieve Wilson, vice-president; Ruth Dreamer, secretary; Grace Wekesser, Treasurer and Katherine Simpson, editor. Assisting Mrs. Moore as hostess were Lucille Reilly, Fern Ammon and Lucille Harris.

TO-NIGHT on the ag college campus in the student activities building an Ag College Barb league mixer will be held. Chaplains for the affair will be Mr. and Mrs. R. T. Prescott, Ruth Eloise Sperry and Mr. and Mrs. F. D. Keim.

FORTY members of the Kappa Kappa Gamma alumnae association will meet for luncheon and a

WHAT'S DOING.

Friday.
KAPPA SIGMA alliance party at the chapter house, 8 o'clock.
PI KAPPA ALPHA auxiliary, 1 o'clock luncheon at the chapter house.

"DYNAMITE RANCH."

3,072,000 POUNDS OF DUST FALLS IN LINCOLN

Geology Students Measure Dirt Brought Here by Week's Storm.

40 CAR LOADS PER MILE

Forty car loads of dust per square mile fell in the Lincoln territory between March 21 and March 28, according to Dr. A. L. Lugin, associate professor of geology at the university. Calculations made thru the week by graduate students in his department showed that 5 grams per acre, or 3,072,000 pounds per square mile.

Following the great dust storm of March 20, Charles Osborne of Cherry, and Marion Graetz of Omaha, collected the total dust fall for a period of one week in Lincoln. A pan partly filled with water was placed on the roof of Morrill hall at the university, about forty feet above the ground level, and dust collected from 4 p. m. March 21 to 4 p. m. March 28.

Dust Does No Good.
Most of this dust blew from the west and southwest out of western Nebraska, Kansas, and eastern Colorado, Dr. Lugin believes. Such dust does no particular good, says the geologist, and unless there is too much probably does no harm. It is mostly the same kind of soil that is already here, he points out.

Dr. Lugin thinks the storm of March 20 will go down in history as one of the greatest ever to blow across the plains, since it covered territory from Nebraska to Texas and some of it blew on to the Atlantic coast.

"Apparently about half as much dust fell per square mile in the Lincoln area on that one day as fell the following entire week," says Dr. Lugin. "In view of such figures as these and others collected by careful observers in other places, no one can very well doubt the efficiency or the quantitative importance of the wind as a geologic agent for the transportation of earth materials."

PIPER TESTIFIES HE SAW BLOWER ACCEPTING BRIBE

(Continued from Page 1)
his election to congress, Blower was connected with the Soakem Utility Co.

Q. Did you ask him if he had ever participated in pork-barreling or log-rolling activities?
A. Yes. He said that Blower had participated in both of them.

Stiefler repeatedly said in his testimony that Piper had told him the facts reluctantly at first. When Gillespie asked him if this had led to the formation of any opinion in his mind, Stiefler replied "Yes, because a person of high moral character is reluctant to discuss other men's characters." Judge Nutting found it necessary then to rap for order.

Piper's own testimony, which followed, began with a resume of schools where he had obtained his law training. After naming at length six institutions that he had attended, the plaintiff counsel interrupted to request him to repeat the list. Following graduation from Harvard, Piper entered government service at Washington, and was assigned to the district in

FLOATING UNIVERSITY FAD HITS CALIFORNIA

U.C.L.A. Students Add New Yacht to Oceanic Colleges.

PLAN VISIT TO EUROPE

By College News Service.
LOS ANGELES, April 4.—The floating university fad which this year has swept several score college students off around the world struck with full force at the University of California at Los Angeles this week.

Plans were announced for the June 29 departure of the E. L. Doheny yacht, Casiana, now the floating campus of the Inter-Oceanic university, with a crew of U. C. L. A. students and Dr. Frederic P. Woellner, U. C. L. A. professor of education, as chancellor. The Inter-Oceanic university plans to visit many out-of-the-way corners of the earth and will give a year's credit for the trip which includes stopovers at foreign universities.

Seriousness of the project is indicated in the rumor that the yacht's itinerary has been arranged "so that the students will be in Europe during the height of the social season."

Who Wants \$10 for doing something easy?
All it takes is about 5 minutes of thinking.
Why the Central Cafe is now the most popular student and faculty rendezvous in not more than 50 words.
After the parties Friday and Saturday, and for Sunday dinner, just grab some of our menus and write your answers on their backs.
Hand in or mail to the Central Cafe before midnight of Sunday, April 14. Judges will be selected this week.

CENTRAL CAFE
"We really want and appreciate your business"

"Sure, enjoy yourself," said Jim. "It's a ding good cigarette."
I was working way late at the office one night and ran out of cigarettes. When Jim the watchman came through I tackled him for a smoke.
"Sure," says Jim, and he handed over a pack of Chesterfields. "Go ahead, Mr. Kent, take three or four."
Jim said he'd smoked a lot of cigarettes in his time, but he'd put Chesterfield up in front of any of 'em when it came to taste.
". . . and they ain't a bit strong either," is the way Jim put it.
That was the first Chesterfield I ever smoked. And I'm right there with him, too, when he says it's a ding good cigarette.
