### CAMPUSOCIETY

IT'S AN ACCEPTED FACT THAT ■ leads for society should be silly, lighthearted and gay, but somehow with the end of the school year so near, and with so many familiar people graduating, it's pretty hard to be amusing. Probably a good deal worse, however, is the position of the senior, who after four years in school is suddenly faced with the idea of leaving the old Alma Mater for the eru-el cold woild. In a situation such as this. even the flat ugliness of "U" hall becomes beautiful, and the graduate thinks

## JOYCE WHIFFS 15 AS HUSKERS SCORE 12-2 WIN OVER CONCORDIA

### FOR NEW STRUCTURE Trimble Collects Three Hits For Knightmen; Season Closes Monday.

With Boy Joyce setting fifteen of the enemy down in their seats Because of fire hazard there with strike-outs registered against them, Nebraska avenged a doubleloss to Iowa State college earlier noon at the Ag college lot. The Huskers conclude their season against the same team Monday at Seward.

Fanning six men in the last two innings, Joyce almost had a shut-out, but an error in the opening frame and a walk in the seventh, when the Sewarders brought in all

their runs, spoiled it.

Red Trimble, Husker second-baseman, led the attack against Lefty Kirch, banging out two triples and a double in his first three times at bat to bring in four runs. Pohlman and Graham cracked out two apiece in three times up, and Lloyd Wampler scored a pair in four chances.

Joyce fanned every mar at least once, except Concordia's catcher, Englehart, a former State leaguer ormer

# go WHITE...young man

TIMES have changed a lot since Horace Greeley made himself famous by his advice to opportunity seeking young men. Today opportunity is at everyone's door . . . and a good way to seize it is to feel and look your best.

The trend to cool-white has swept the country . . . and why not? No other suit is so becoming . . . no other suit will look so crisp and fresh after many launderings.

To our way of thinking PALM BEACH is the ideal fabric . . . perfect in its looks, perfect in its performance . . . supreme in its
