

Recreation Plans Are Now Complete

EDUCATORS EXPRESS SATISFACTION WITH THREE-DAY CONCLAVE

Second All State Teachers
Conference Ended
Thursday.

Expressing satisfaction with the activities of the past three days, approximately 600 school teachers and supervisors from all over Nebraska closed the second all-state educational conference Thursday. Prof. G. W. Rosenloff, chairman of the committee in charge of the conclave, stated that the interest shown in the conferences has encouraged university officials to make the meetings, held for the first time last year, a permanent feature of the summer session.

"The conference was an outstanding success in every particular," affirmed Prof. Rosenloff, "people in attendance are unanimous in their judgment of the immense value of the conference to them and to the education of the state."

A number of superintendents, classroom teachers, secondary school principals and county superintendents came from over the state to attend the meetings while students enrolled in summer school swelled the attendance at every session.

Sessions were held in both the morning and afternoon during the three-day period. The themes centered around the subjects, "The Social Sciences Curriculum" and "Adult Learning." A distinguished group of nationally known educators appeared on the program, and many prominent Nebraska educators spoke. A resume of the entire proceedings follows:

Taylor Opens Session.

State Superintendent Charles W. Taylor opened the program at the Tuesday morning session, extending greetings to all those attending. Dr. R. D. Moritz, summer school director, presided. "Educational Adequacy," was the topic of Dr. L. Thomas Hopkins, who stressed the fact that individuals must meet life's problems with a feeling of success, confidence and

Graduates Get Jobs in College and Industry

Two Nebraska graduates have recently received positions, according to word received Thursday from the department of chemistry. They are Vaughn Shaner, '34, and Dr. Benjamin Handorf, who received his doctor's degree in 1934. Mr. Shaner will work with the Eastman Kodak company in Rochester, New York, and Doctor Handorf has an instructorship in chemistry at Park College, Mo.

Professors Express Enthusiasm for President's Program to Help Youth

Enthusiasm for President Roosevelt's program to aid unemployed youth was evident on the campus Thursday as several professors expressed their whole hearted approval of the plan which proposes to provide work apprenticeships in private industry to help those between 16 and 25 to obtain high school and college training, and to give work relief to youth.

First to comment on the president's youth program, was Dr. Willis A. Sutton, superintendent of schools at Atlanta, Ga., and former president of the N. E. A.

"I think that it is a very good idea," he asserted, "for the youth has always been neglected, at least in this respect." His opinion is that there are great possibilities for good to come of the plan—provided it isn't abused.

Further approval of the idea was

PARTY EXPECTED TO DRAW CROWDS TODAY

Attendance 700 Persons
Is Predicted for
Dance.

Approximately seven or eight hundred persons are expected to attend the second party at the coliseum Friday night, June 28, according to Prof. E. W. Lantz, chairman of the recreational committee. With 750 at the first party of the year, the committee expects a record breaking crowd for the entire summer session.

Dave Haun and his orchestra will play for the dance. The new loud speaker system which was employed at the first party will again be used, amplifying the sound of the music and making it possible to dance everywhere in the room.

A fan system will insure the comfort of the dancers, and girl members of the recreation committee are to act as hostesses. L. L. Patterson and Wendell Dodd are in charge of arrangements.

BIBLE RETURNS SOON FROM COACHING WORK

Nebraska Mentor Taught
For Summer School
At Denver.

Coach Dana X. Bible, Nebraska football mentor, will return to Lincoln early next week from Denver, where he has been teaching in the coaching school at the University

TWELVE TRACK MEN OF NEBRASKA PLAN TO COMPETE IN AAU

Schulte Gets Answers From
Half Dozen Stars; List
Is Tentative.

Coach Schulte enters a team of a dozen track men to compete with outstanding athletic stars from the entire country. Vying in both junior and senior groups these men will uphold Nebraska's standard in the national A. A. U. meet on July 3 and 4. In answer to a letter sent to Nebraska athletes last week, 12 entries were returned several listing in events which they had not planned for earlier in the summer.

Haight and Chapman will run both the high and low hurdles with Bob Morris competing in the 1500 meter. Asher will try in the 800 meter and Jacobson in the 100 and 200, while Dawson plans to sprint the 400. Featured in the jumps are the Nebraska men, Cardwell in the broad and Glesberg in the high jump. Glesberg will also throw the javelin, entering in this event with Chambers.

Sam Francis, and Rist are scheduled to enter the shot and discus throwing lists. Dodd is the only pole vaulter in the group. This list of Nebraska entries, it was emphasized by the athletic of-

DR. SUTTON TALKS ON PUBLIC EDUCATION AT HONORARIES BANQUET

Dr. W. A. Sutton, superintendent of schools at Atlanta, Georgia and former president of the N. E. A., gave an address, "New Responsibilities in Public Education," at a banquet Wednesday, June 26, at the Chamber of Commerce. The dinner, sponsored by Pi Lambda Theta and Phi Delta Kappa, educational honorary fraternities, was open to the public.

This was the second of a series of programs planned by J. E. Loder, president, and Charles A. Bowers, secretary of Phi Delta Kappa. The three remaining meetings are for members only.

An annual picnic and initiation will be held July 9 from 4 until 9 p. m. The place has not been announced.

Dr. H. H. Linn, assistant superintendent of schools in Muskegon, Mich., and Dr. Wolfgang Kohler, University of Berlin, will be joint speakers at a dinner meeting on Tuesday, July 23, at 6 p. m. at the Grand Hotel.

Dr. E. N. Anderson, assistant professor of European history of the University of Chicago, will speak at the last dinner meeting to be held July 30 at 6 p. m. at the Grand hotel.

STUDENTS OF MUSIC TO PICNIC AT BEACH

Swimming, Dancing Will
Be Included in
Program.

Approximately 125 persons are expected to attend the high school music students' picnic Saturday afternoon and evening at Capitol Beach from 3 until 10 o'clock, according to Miss Bonnie Spanggaard, recreational supervisor.

Those attending the party will probably swim during the afternoon, Miss Spanggaard stated, after which a picnic supper will be served. "Kitten-ball," concessions, and dancing will provide the evening's entertainment.

Mr. Charles Hoff, from the university finance office; Miss Frances Stowell, dormitory supervisor,

EXTENSION STUDENTS EARN COLLEGE CREDIT

2000 Men and Women Take
University Work in
Study Centers.

More than 2,000 men and women have earned university credit in the 100 study centers sponsored by the university extension division, it was revealed in the University Extension News issued last week. Because of the interest shown by students over the state, the department is preparing to set up new study centers in co-operation with the county superintendents of schools, the bulletin states.

Enrollment in the organization is in terms of university hours and the work, when satisfactorily completed, can be applied towards an undergraduate degree, used for certification purposes, or transferred from the University of Nebraska to some other institution.

Last summer there was one county in the state in which three study centers were operating simultaneously. The interest shown in the projects is partly attributed to the fact that students attending the centers could stay at home, thus saving money.

Men and women enrolling in the study centers must agree to spend a minimum of five hours a day, five days a week, in attendance and work at the center, and the extension division advises those registering to enroll for not fewer than one-half nor more than three-fourths as many hours as there are weeks in which the project is to operate. Thus, a center which plans to operate for a period of eight weeks should have enrollment for not fewer than six hours and not more than nine hours of work.

Students must furnish their own texts, meet the postage expense on lessons sent in and returned, and must provide themselves with the necessary study supplies and equipment.

Two Nebraska Articles In Chemistry Magazine

Two research articles from the university department of chemistry appeared in the June publication of the American Chemical society, according to Dr. C. S. Hamilton, chemistry professor.

"Arsenicals Containing the Furan Nucleus" was the title of the work written by Professor Hamilton and Wesley Lowe. Prof. E. R. Washburn and G. W. Berry wrote "The Dimensions of the Sodium Palmitate Molecule from a Study of the Surface Tensions of Dilute Aqueous Solutions."

BASEBALL STRESSED AS MAJOR FEATURE OF SPORTS PROGRAM

Horseshoes, Steak Fries,
Golf, and Parties
Organized.

Completed plans for the summer session recreation program were formally drafted Wednesday noon, when the recreation committee met at the office of Prof. E. W. Lantz, chairman.

Major emphasis this year is being placed on the boys' and girls' baseball teams, which have so far drawn a record number of students. On both Monday and Tuesday nights, twenty-five men and women were out practicing. Practices are being held Monday, Tuesday, Wednesday and Thursday evenings at 6:45 on the field east of Social Science building.

L. L. Patterson, director of the boys' baseball team, expects to start coaching the women's team Monday, and when the practice games are completed, arrangements will probably be made for games with Lincoln and out of town teams. The men expect to start games with other local teams in the near future.

Horseshoes Available Now.

Arrangements for horseshoes have been made, and anyone interested in the sport either for recreation or tournament will see Mr. Patterson who has general jurisdiction over the equipment.

MUSIC REGISTRANTS ESTIMATED NEAR 120

High School Students From
Fifty-Five Towns
Attend.

Young musicians from fifty-five cities and towns are registered for the all-state high school music course held at the university this summer, according to Dr. Howard Kirkpatrick, director of the school of music.

Lincoln provides the largest number of students, with twenty enrolled, but the smaller municipality of Ord leads the outside contingent with ten registrants. Next in number is Creston, Ia., represented by six, and St. Paul, Neb., with five.

Coming the greatest distance are three students from Gering and one from Kimball. Other towns in the western part of the state which are represented are Dix, Sidney, Haigler, Grant, Sutherland, McCook, Orafino, Indianola, and Moorefield.

Four students are from Scribner, three from Aurora and Geneva, and two each from Edgar, Bennett, York, Tekamah, Marquette, Taylor, Syracuse, Beatrice and Humboldt. Single enrollments have come from Central City, Lewiston, Lyons, Broken Bow, Peru, Omaha, Columbus, Arlington, Grand Island, Winside, Malcolm, Valley, Norfolk, Loup City, Duncan, Campbell, Nelson, Burwell, Stanton, Holdrege, and Moorefield.

CORRECTION

Summer session will be dismissed from July 3 at 5 p. m. until July 8 at 7 a. m. Classes will be held Saturday, June 29, instead of July 29, as incorrectly stated in Tuesday's Nebraskan, to make up the time lost July 5.
