

TOURNAMENTS IN GOLF, TENNIS END THIS WEEK

Director of Recreational
Program Announces
\$3 Trophies.

AWARD FOR EACH FLIGHT

Finals in the golf and tennis tournaments will be played off by the end of the week, according to E. W. Lantz, director of the summer recreational program, who has also stated that a \$3 trophy will be presented to the winner of each flight.

One flight in the golf tournament has already been completed with L. A. Bragg as winner. Bragg played first with "Doc" Plimpton and in the semifinals he won from R. L. Fredstrom. Harold Reid is winner of the upper flight in the tennis tournament, coming out ahead of Louis Gibb in the semifinals and Conrad Rees in the first round.

In the first flight of the golf tournament Alder and Fowler will participate in the semifinals, Alder having won from Brauer and Fowler from Anderson. Millard D. Bell and Earle Wiltse will participate in the semifinals in the second flight. In the third flight MacClay, winning from Werner, and Calvert, winning from Devoc, will play in the semifinals. In the fifth flight George Milne is the only one that has yet qualified for the semifinals.

Altho most of the matches in the three lower flights of the tennis tournament have not yet been played, players are lined up. Harold Fisher and H. Bauer will play in the first flight. M. Hudelson won from Paul Lamb also in the first flight and is ready to enter the semifinals.

In the second flight Bob Krez, Bob Chase and Supt. Mooney will play, while in the third flight George Place and Howard Feemster will play together.

UNIVERSITY PLAYERS REVIVE PAST SUCCESS

'There's Always Juliet' to
Be Given at Temple
This Week.

With the return of Molly Carpenter from Lake Okoboji, Ia., to play the lead, the University Players are putting the finishing touches to "There's Always Juliet," to be presented in the Temple theater Thursday, Aug. 1, at 8 p. m. The play, a comedy by John Van Durten, is one of their last winter's successes, and involves only four characters.

The scene is laid in a flat in the west end of London. Action centers around a young English girl and an American youth, who fall in love over the teacups at an afternoon party. The original cast is taking part, with the exception of Pete Sumption, whose role of Peter Walmsley is being played by Era Lown. The other characters are as follows: Leonora Perrycost, Margaret Carpenter; Dwight Houston, Dwight Perkins; Florence, Portia Boynton.

Ticket sales are in charge of E. W. Lantz and the summer recreation committee, of which he is chairman. Mr. Lantz and his committee, said Director Herbert Yenne, have handled the business

Final Exams Scheduled To Be Held August 9

Final examinations for the eight weeks summer school session will be held during class periods on Friday, Aug. 9, according to Dr. R. D. Moritz, director of the summer session. Examinations will be limited to the one hour that the class is in session.

A. T. UPSON TO HEAD FORESTRY STATION

University Graduate Gets
Position at U. S. Post
In Tucson.

Arthur T. Upson, graduate of the university in 1910, was recently appointed Director of the Southwestern Forest and Range Experiment Station with headquarters at Tucson, Ariz., it was recently announced by the Forest Service, U. S. Department of Agriculture. Mr. Upson will replace G. A. Pearson, who is being relieved at his own request.

Mr. Upson resigned, effective Aug. 1, from his position as Trade Promotion Manager of the National Lumber Manufacturers association. He is generally regarded as the outstanding authority in the United States on lumber standards and species and grades of lumber for uses.

The Forest Service states that the Southwestern Forest and Range Experiment Station serves about 50,000 square miles of territory in Arizona, New Mexico, and western Texas. In this work, Upson will deal with such problems as how to coordinate grass, watershed and timber management on summer livestock ranges which are largely National Forest property.

Mr. Upson is a brother of Dr. Fred W. Upson, dean of the graduate college of the university.

FORMER NEBRASKAN EDITS ENCYCLOPEDIA

Dr. Ansley Publishes First
American One-Volume
Reference Book.

Dr. Clarke F. Ansley, former University of Nebraska professor, who holds A.B. and Litt. D degrees here, is editor-in-chief of the new Columbia Encyclopedia, the first original one-volume American encyclopedia to be compiled and published by an American university. The new volume, written because Dr. Ansley wanted a comprehensive reference in condensed form, includes generalized human knowledge in 5 million words and three inches of shelf space.

"Before the recent development of specialization, an encyclopedia could comprise substantially the sum of human knowledge," Dr. Ansley states in his preface. "The human mind has its limitations, and progress in knowledge makes it less and less possible for one person to know all that is known. The need for first aid increases."

Among the Nebraskans mentioned is Willa Cather, with a biography of 200 words.

Dr. Ansley did graduate work in the universities of Leipzig, Heidelberg, and Paris from 1892 to 1892, and after two years at the University of Nebraska, received his professorship. He was a member of Sigma Chi here, and was elected to Phi Beta Kappa.

Trees Are Nature's Bookkeepers For Dry Years and Rainy Seasons

By Marjorie Filley.

Hundreds of years before man began to keep a record of the dry years and rainy years, nature had perfected her own method of book-keeping to record droughts and wet years. Trees are very accurate yearly weather charts for the territory in which they grow, says C. A. Penton of the agricultural engineering department.

Wide rings mark the rainy years. Thin fine rings that can scarcely be counted indicate the years of drouth.

A section of the trunk of a Douglas fir tree 571 years old, which was cut down in the Oregon timberland in 1930, hangs outside Mr. Penton's office in the Engineering building. This tree started

growing in 1357 and in 1431 when Joan of Arc was burned the tree was about half a foot in diameter. When Columbus discovered America the tree was 133 years old and about a foot in diameter.

History Recorder in Trees.

When the Pilgrims landed at Plymouth Rock, when the Declaration of Independence was signed in 1776, during the Civil war, the World war, and Lindberg's flight across the Atlantic it marked the passing years. In 1930 the trunk of the tree measured about five feet in diameter.

The fine rings several years previous to 1800 show that there was a drouth at that time in the Oregon region. Immediately following

200 ATTEND ANNUAL SUMMER STEAK FRY

Picnic at Pioneer Park
Successful; Program
Presented.

About 200 men attended the annual steak fry held July 25 at Pioneer park and were entertained with a program, in addition to games and dinner.

J. A. Jimmerson, superintendent of schools at Auburn, represented the student body of men at teachers college and Dean F. E. Henzlik of the teachers college gave a summary of the summer session centering around the work of the college.

Hill-billies from Dean & Co., a Negro quartet, two juvenile acrobats and a university girls trio under the direction of Marcella Laux were included on the program which was in charge of Richard McCann, principal of the McCook high school and chairman of the program committee.

Modeled after the annual steak fry held at Columbia university under the auspices of the teachers college, the event here has come to be an annual one.

REPERTOIRE CLASSES GIVE POETRY RECITAL

Miss Gellatly's Students
Present Readings
July 31.

Readings of dramatic, humorous, and modern poetry will comprise the repertoire recital to be given Wednesday night at 8 o'clock in the Studio theater in the Temple by students in the three repertoire classes of Miss Polly Gellatly.

The program will last approximately an hour, according to Miss Gellatly, who stated that about twelve students will take part in the recital. The affair will be open to the public.

A. R. CHAVAN TO MAKE PLANT STUDY HERE

Botanist From University
Of Bombay to Work
At Nebraska.

Arriving in Lincoln this week is A. R. Chavan, a native of south India, who is coming to the university to take his Ph. D. in plant morphology. He will work under Dr. E. R. Walker, associate professor of botany on mosses and ferns, especially those of India.

Chavan arrived at New York on the Bremen on July 20 after a stay at London. He will come to Lincoln by way of Niagara Falls.

He took his undergraduate work in botany at the University of Bombay, and has been teaching in Baroda College which is affiliated with that university.

STUDENTS TO HOLD ANNUAL FURNITURE EXHIBIT NEXT WEEK

The tenth annual furniture exhibit will be shown by the practical arts class of teachers college next Tuesday and Wednesday, according to A. C. Easton, supervisor of the course.

The class of about thirty members will display wood work, upholstery, metal craft, and lathe work. The four women in the class have been working on upholstery, lathe work, and woodwork suitable for elementary grades.

A few of the articles made in the class will not be on display. Some were taken home at the end of the six weeks course, others are projects too difficult to be completed during the eight weeks session.

Regents Give Scholarship To Peru College Graduate

Dwight Waldo of DeWitt, graduate of Peru State Teachers college, received a regents scholarship to the university for next fall. He is now employed in the Chickamauga and Chattanooga National Park in Chattanooga, Tenn.

PROGRAM IS PLANNED FOR LAST OF MIXERS

Surprise Entertainment Is
Arranged for Final
Party.

DAVE HAUN BAND PLAYS

Surprise entertainment will feature the last Friday night party of the summer July 30 in the coliseum, according to Prof. E. W. Lantz, director of the recreation program, who urged all students to attend the affair.

Dave Haun and his orchestra will again play for the party, and the admission price will be 10 cents. The new loud speaker system which has been in use during the entire summer, will be employed, making it possible to hear the music in every corner of the coliseum.

Larger crowds have attended the weekly parties this summer than ever before, Lantz stated, with a record-breaking attendance almost every Friday. Many students are expected at the affair this Friday, which features the unusual entertainment program.

LINUS B. SMITH WRITES FOR PRAIRIE SCHOONER

Nebraska Literary Magazine
To Appear in August,
Says Wimberly.

To appear in the summer issue of the Prairie Schooner is an article by Prof. Linus B. Smith, chairman of the architecture department, discussing "The New Architecture," Prof. L. C. Wimberly, editor of the Nebraska literary publication announced. The Schooner will be published in August following the close of the summer session.

Two of the stories already accepted for the coming number of the magazine are authored by New York writers. Leonard Kaufman of Brooklyn, New York, contributes a story entitled, "Old Agnew Walks Alone," and from Rip Hanson of New York City comes a story of "Horseflesh."

Several of the poems to be included in the magazine are: "Words on a Spring Road," by Loren C. Eiseley; "Nirvana," by the Chicago poet, Marcella Lindberg, and from Ruth Forbes Sherry of Los Angeles, a poem on "The Porpoise." "The Proletarian as an Artist," is the subject of an article by George Dewitt Foss of Topeka, Kansas, which has been given a place in the next issue of the university quarterly magazine.

Large Crowd Attends Steak Fry at Pioneer Park
