BLUE MONDAY SHOULD BE BLUE Sunday as far as society copy is con-

cerned, for with the main part of the week end past, and the new week yet to begin, the seventh day is sort of in between with nothing happening. We might make the lead of little bits of gossip and gore such as the fact that MaryAnn Roseneranz is wearing the pin of that blond Adonis of the Sigma Nu house, Bob Bennett, (Last year it was A. T. To the question of "why the ap-proaching war?" Mr. Stoke humbly offered two well founded reasons of his own. He said that in his opinion the important cause of Il Duce's antics could be found in the very nature of Fascism. The home program of Fascism has been an emphasis on militarism and an increase in population. Stoke stated that the only logical climax to such a program is expansion through military conquest,

imperialism. Fascism Opposed to Peace.

As a foundation for this belief Mr. Stoke cited a potent quotation from a book on European governments by himself and Prof. Norman Hill, also of Nebraska. The quotation shows Fascism diametrically opposed to peace and gives ample reason why Mussolini's program of the last decade should culminate in just such an attempt as that which will be made in Abyssinia. This statement is founded upon Mussolini's own words as taken from an Italian

Encyclopedia.

The passage reads: "Above all, Fascism, the more it considers and observes the future and the development of humanity quite apart from political considerations of the it, believes in neither the possibility nor the utility of per-petual peace. It thus repudiates the doctrines of pacifism—born of a renunciation of the struggle and an act of cowardice in the face of sacrifice. War alone brings up to ergy and puts the stamp of nobil-ity upon the peoples who have the courage to meet it."

Francis was injured on the play, and Ron Douglas took his place, Lanoue kicked goal, Bauer holding.

Chicago's return touchdown came immediately after the start of the second quarter. Berwanger punted to Lanoue, who fumbled Wright recovering the ball on the Husker 22 yard line. Skoning ran end for three yards and Berwanger outran the entire Nebraska secondary on the next play for a touchdown.

About sixty-five boys, interested in im-proving their organization, will attend. They will study parliamen-tary law and other similar matters.

Future Farmers of America is an organization nation wide in scope. There are about 80,000 of democracy in a sea of dictator- members in the United States and about 1,500 in Nebraska. Any boy registered in a Smith-Hughes department in high school is eligible for membership and about sixty of the Smith-Hughes high schools in Nebraska have chapters. The general aims of this organization are to provide opportunity for group effort and to carry on some school and community activities that are well adapted to boys of this age. The program at the college of
