Miss Piper Talks on History, Purposes of Four Societies.

Official announcement of their newly adopted name, Co-ed Counselors, was made at a meeting of the big sister board held Tuesday evening at 7 o'clock in Ellen Smith hall.

Several short speeches on the aims and purposes of the freshmen hobby groups followed, and the chairman of each was named.

Miss Piper made a short talk on the history and purposes of the hobby groups, emphasizing the charm school, of which she has been faculty sponsor.

AROUND AND ABOUT

This is settling down to be a too, too, workaday. Those hardy souls who personally do the work—scholarship and otherwise—of the ordinary people are at it again in their most dashing style.

Those who catch colds when such things are to be caught are sniffling and sneezing; those sickening healthy face the nipping Autumn summer in shirt sleeves.

If your Big Sister has never told you where the Nebraska architects come from, some one ought to let you in on the secret soon.

Occupying the former site of the cafeteria, the surroundings are at once business like and tasty.

Even the office of the departmental head is fancied up, with a decorative ceiling and a fine stenographer.

Mr. Ramsey is by no means an ordinary mortal. Besides being an alumnus he takes leading roles in University Players' shows, gives any number of speeches, photographs the gridiron antics of Nebraska and other leading colleges and kids his office force unmercifully.

But you can never appreciate him fully until you have witnessed him, aflame with a Message, turn his burning eye on you and quarry, in poetry, "What kind of a fish are you?"

Humor? Professors Display Their Share of it in Classes

Quite unexpectedly some professor makes a remark a little out of the ordinary and those members of the class who are awake enjoy it just because it is a little out of the ordinary.

It has been suggested that professors devise some signal of warning before each outburst. For a benefit of those who miss out, a few of the remarks of the week have been gathered from the memories of the wide-awake on the campus.

Outstanding among the classroom puns was Mr. Gass' assertion that "One swallow doesn't make a summer nor a drunkard." Mr. Cochran astounded his history class by questioning the authenticity of the adjective "good," as applied to "Good Queen Bess," and
