

CAMPUSOCIETY

THIS WEEK END PROBABLY takes the prize for the biggest collection of social events of the year. Starting Friday night with five house parties, and carrying over the next evening with fifteen more, plus an all university dance, and an A. T. O. dinner of some kind or other, these next two days promise to be the fullest of the season. And plenty of provocation, too, for Nebraskans will be celebrating that big game Saturday night, in great style. It's a bit late to find a date, but while there life, there's hope, and we suggest a canvass of campus freshmen for that poor soul who hasn't an engagement this week end.

SEEN ON THE CAMPUS: Bev Finkle bumping his scapular head against the top of U hall (basement) door—Three girls perched on the stadium steps, probably waiting for Saturday's game—Ginnie Smith and Barbara Dame-wood discussing plans for wearing appropriate rally clothes—Mary Kimsey studying in C. I. hall (Campus Inn to U)—Mark Owen with gestures, explaining how he gets along so well with Ellen Smith—Jimmy Marvin expounding on the necessary ingredients for a party (he's chairman of the Varsity party committee)—Chuck Reilly remarking that he leaves to rest—Brothers of Delta Tau Delta assembled for a convention at the side door of "Sosh"—Theresa Stava, slithering in the Rag office with that well known ladies' man, John Dalling—Doug Sarson handing out wholesale candy bars in the Awwan office—Janey Temple telling about the origin of her good friendship day with a prominent publication's gal—and Gene Dalbey with a worried expression transacting some sort of business or other.

IN TOWN for Saturday's game will be William Smith, vice president of Phi Sigma Kappa, and four other prominent alumni from Chicago. During their stay at the house, a general reunion of alums will be held.

SOMETHING new and different on this jaded campus, the Gamma Phi actives sneaked last night with colors flying. They removed the china and silverware from the kitchen, left the house festooned with newspapers, and absconded with the pledges' cars.

AND speaking of sneak nights and such, Sigma Nu pledges left for parts unknown the night of the fraternity's exchange dinner with the Pi Phi's. Fine stuff, and pretty bad if they hadn't made advance reservations with the sorority freshmen for a joint party to be held in the near future. A nice retribution for the disappearance we'd call it. True Sigma Nu spirit.

HONORING Phi Sig freshmen, and fraternity brothers from Minnesota, the actives will entertain at a house party tomorrow night at the chapter house. Decorations will be in Phi Sig colors of silver and magenta, and the walls of the house will be covered with famous fraternity emblems. Everett Chittendon is in charge of the affair, and chaperoning are Mr. and Mrs. Gregg McBride, Mr. and Mrs. H. T. Holloway, and Mr. and Mrs. Charles Miller.

ALSO tomorrow night the Zeta Beta Tau's will hold a house party as an after the game celebration. Two hundred are expected to attend and Robert Steifer is in charge of arrangements. Chaperons for the party will be Mr. and Mrs. Edward Rosenthal and Professor and Mrs. T. J. Ogle.

KAPPA SIGMA is also in line with a party at the chapter house. Guests will be members of the Kappa Sig chapter at Minnesota, and Franklin F. Flieger, Colonel and Mrs. W. H. Oury and Mrs. Palmer Smith are chaperoning. Victor Hermann, social chairman, is in charge of the affair.

SILHOUETTES and Nebraska and Minnesota colors will decorate the walls at the Sig Ep house Saturday night...yes you guessed it...another house party. Nathan Allen has planned the party and Mrs. D. S. Boyles and Dr. and Mrs. R. E. Sturdevant will chaperon the affair.

THETA Chi follows suit with another Saturday house party. The chaperons will be Mrs. Anna Knapp and Mr. and Mrs. Ted G. Kimball and forty couples are expected to attend. Max Van Horn, social chairman, is in charge of arrangements.

WE HAVE lost count by this time but anyway the Acadia's are having a house party after the Minnesota game...we trust that the campus knows when that is. Chaperons will be Prof. A. A. Luebs and Mrs. W. A. Brown and Mark Owens is in charge of the party.

AND the Sigma Alpha Mu's are taking time out after the game to entertain fifty couples at a house party. Professor and Mrs. David Fellman and Professor and Mrs. Lane W. Lancaster will chaperon

 "Mangle Minnesota."
 It would be a boon, a veritable boon to this university if some wise but sleepy professor should say with Shakespeare today during the pep demonstrations: "Hell is empty, And all the devils are here."
 "Mangle Minnesota."

ACCORDING to the much censored news accounts of the current war, Mussolini has pep worked up in the proper fashion. The A. P. account says that the Italian officials have to restrain their soldiers to keep them from moving farther into Ethiopia.

The time is ripe for this university to promote a crack band corps of about forty-five pieces. The R. O. T. C. band with upwards of 160 pieces is unwieldy; it makes a grand scale show that is impressive. But we could keep the big band and still have a smaller unit that could play an air splitting circus march, a pep song at 180 tempo, a trombone smear, or a trumpet variety with a gusto that is impossible for 160 instruments. This crack squad of tune tooters might try some novelty numbers, get some backing from downtown business and follow the team to other cities. Isn't there some advance student in the school of music that could get behind this idea and really go to town?

"THIS test will be on the honor system," said Mr. Walker's secretary. "Only of course I shall remain in the room. And I want you to spread out so that there is a vacant seat between each of you."
 When the test was well under way this young lady, whose faith in the college variety of human nature is boundless, interrupted, "Would you kindly put your books on the floor—no not on the seat beside you, but on the floor."

Head Nebraska chemist Deming: (Advising students to get his fourth edition). "My third edition will not do, it is absolutely worthless." Bright, but poor student to himself: "You may be right." Mr. Deming says that the only reason he uses his own book in preference to some one else's is because he wants the best there is. He teaches more beginning students chemistry than any professor in the U. S.
