KOSMET SHOW TO FEATURE SINGING DOUBLE QUARTET

Unusual Number of Voices, Songs, Prompts Use of New Plan.

Feature of "Southern Exposure," Kosmet Klub's spring show, will be a double quartet, the names of which were announced yesterday by Robert Pierce, president. The double quartet will include Fred Graham, George Markley, John Heinke, Alfred Jensen, Robert Holbert, Charles Reilly, Winfield Elias and Thurston Phelps.

For the first time in the show's history the double quartet is being used. "There were so many good songs contributed that we wanted to use as many of them as possible," Pierce stated. "We had a number of fine voices at the try-outs, so we decided to use this method to include the songs in the show."

Pony chorus rehearsals started last Tuesday. More material is needed, however, and Pierce issued another call for all who are interested to report at the Kosmet office in the basement of University hall.

Students contributed the tunes to be used in the show. They will be used in connection with rehearsals of the double quartet and pony chorus, and some will be sung by leads in the show. The lyrics as well as the tunes were written by the students.

Dances to be presented by the chorus were conceived by Director Ireland. The show will run at the Temple theater from April 20 to 24, a cast of approximately 40 being included.

PENTICO WILL DESCRIBE TRANSIENT PHENOMENA

Electrical Engineers Will Hear Illustrated Lecture.

"Transient Phenomena" will be described by C. W. A. Pentico at the regular meeting of American Institute of Electrical Engineers March 18. Pentico will describe what happens when a switch is suddenly closed at the generator end of a transmission line. Actions of waves thus set up at first contact are known as "transient phenomena."

The lecture will be supplemented by a demonstration on a Cathode-Ray Oscillograph. On its glass screen, Pentico will show some of these waves. Line to be used for the demonstration is an artificial transmission line which represents a power line 197 miles long. Waves are set up by pressing a battery at one end of the line.

Some difficulty is experienced from reflections on the waves due to lack of receiving equipment which will offset the fact that the line can be used as either a power or telephone transmission line, according to setting of switches.

Starting at 7:30, the meeting will be held in room E. E. 104.

INJURIES ARE FATAL TO JIMMY WHITTEN

Lincoln Youth Fails to Recover Following Accident.

Jimmy Whitten, four year old son of Mr. and Mrs. G. E. Whitten, died at 4:30 Wednesday morning at St. Elizabeth hospital from injuries sustained when struck down Tuesday night at 25th and Holdrege by a car driven by Albert Moseman, sophomore in the college of agriculture. According to D. T. R. McCarthy, who attended him, the boy suffered severe bruises about the head and neck, as well as crushing chest injuries.

Moseman told officers that he was driving west on Holdrege when the boy dashed in front of his car from behind a car traveling east. He stopped at once to pick up the child, who was taken to the hospital in an ambulance. Moseman, a member of Farm House, from Oakland, was accompanied by three fraternity brothers at the time the accident occurred.

CAMPUS GETS CHANCE TO PICK BANDS.

Laverty Holds Poll Of Student Opinion On Name Orchestras

Finally the chance has come when every one on the campus can vote for his or her favorite orchestra. Dick Laverty, Farm House, is giving the student body opportunity to select the most popular band in a student poll to be taken next week.

Balloting will continue for two weeks with ballots being distributed to all organized houses. A surprise is in store for all voters, according to Laverty.

Fifteen dance bands have been submitted for selection. They are those of Henry Busse, Abe Lyman, Rudy Vallee, Ted Flo Rito, Eddie Duchin, Guy Lombardo, Benny Goodman, Fred Waring, Herbie Kay, Glen Gray, Jan Garber, Ray Noble, Paul Whiteman, George Olson, and Richard Himber.

D. U. FRESHMEN WIN PHONE ANSWER TEST

Daily Nebraskan Survey Shows Promptness.

Due perhaps to the prevalence of "hell week" at this time of year, a survey made by the Daily Nebraskan today indicates that fraternity and sorority pledges at Nebraska give prompt attention to the summons of the telephone bell, for the 23 organized houses included in the survey averaged 3.1 rings before answering, whereas at the University of Washington, where the student paper made a similar survey, the average was 3.4.

Nebraska's superiority was further manifested by the fact that complete indifference to the telephone call did not exist. At Washington, for example, the Theta Xi's failed to answer at all, and the D. U.'s allowed the count to mount to 18 rings before answering, whereas at Nebraska the worst record was 7 rings, "rung up" by the D. U.'s who seem to be the intercollegiate champions upon the basis of data available.

At Washington the worst offenders in the sorority column were the Alpha Chi Omega's, who allowed 12 rings, while at Nebraska there was a three-way tie for worst at 5 between Kappa Alpha Theta, Alpha Delta Theta, and Delta Zeta. Other fraternity leaders at Nebraska were Sigma Alpha Epsilon with a record of 6, and Alpha Tau Omega with 5.

CO-CHAIRMEN FOR FAIR SIDESHOW ANNOUNCED

Ruth Carsen, Al Moseman to Start Plans for 4-H Club Attraction.

Al Moseman and Ruth Carsen were appointed co-chairman of a committee to work on a program for "Sporpneum," humorous sideshow of Farmer's Fair, at the university 4-H club meeting held Tuesday afternoon.

A very entertaining program was planned by Miriam Frasier, consisting of a humorous skit followed by singing under the direction of Helen Phares. An extemporaneous speech was given by Esther Wiechert.

Mr. L. I. Frisbie presented the members with circulars to fill out concerning the objectives of 4-H club work according to personal experience.

The next regular meeting of the club will be held March 21, in Ag hall, room 306.

C. W. SMITH DISCUSSES FACTORS FOR SUCCESS

Employers Want Knowledge, Personality, Says Professor.

"What the Boss Wants" was discussed at the regular meeting of the Agricultural Engineers by Prof. C. W. Smith of the Agricultural Engineering department. The meeting was held Tuesday evening March 10.

General knowledge, particular knowledge, and personality are the three things necessary to a man seeking a position according to Prof. Smith. An individual seeking employment must be willing to give the best of his services to his employer.

It has been found that most men who ranked highest in scholarship were the most successful in the world. Very few men with low scholastic standings attain fame and high success, stated the speaker.

After the meeting, plans for Engineers week were discussed. Possibilities for a large part of the local chapter to attend the national convention at Estes park were considered.

TRACK MEN PREPARE FOR DEMONSTRATION

Cornhuskers to Perform Before Prep Coaches at Clinic Friday.

Husker tracksters got under way Wednesday in preparation for their track demonstration before a state-wide aggregation of prep school coaches Friday March 13th.

As a part of the program for the annual coaches clinic, the Schultemen will perform their specialties for the benefit of the visiting high school coaches.

The state basketball tournament brought scores of high school athletes to the indoor track Wednesday in order to meet Coach Schulte and to watch individual Cornhusker track stars.

The Schultemen are hoping to enter the University of Texas Carnival Relays to be held in Austin the latter part of this month, but no definite plans have been set as yet.

Next scheduled meet for the Cornhuskers is the fourteenth annual Kansas Relays April 18 in the Jayhawkers Memorial stadium.

TEAMS FILE FOR INTERCOLLEGIATE DEBATE TOURNEY

Applicants Must Register in Andrews 117 by Tuesday.

All teams wishing to compete in the annual intercollegiate debate tourney, sponsored by Delta Sigma Rho, honorary forensic society, must file their applications by Tuesday, March 17, at Prof. H. A. White's office in Andrews hall 117. First round competitions will be announced the end of next week.

The subject of this year's debate will be "Resolved: That the United States of America should build the largest navy in the world." John Stover, president of Delta Sigma Rho, remarked that "this subject for discussion was chosen because of its timely interest and its critically important nature."

As in the competitions of the last two years, there will be separate tournaments for fraternity teams and for barb teams. The fraternity sponsored teams compete for a silver gavel which has been awarded for the last two consecutive years, while the victorious unaffiliated teams have been awarded medals. The teams of the two sections will not compete unless the two winning choose to do so as they did two years ago.

Each team will be composed of two men who must be prepared to debate on either side of the question. The tournament will be run along lines of direct elimination, that is, when a team loses a debate it is automatically eliminated.

RIFLE TEAM HOPES TO UPSET K-AGS AT MEET

Cornhuskers Seek Title at Missouri Invitation Shooting Match.

Nebraska's rifle team will attempt to snatch another championship from Kansas State when they meet the Kansans, along with 35 other teams, in an invitation match sponsored by Kemper Military academy, Friday and Saturday, at Booneville, Mo.

Sergeant McGimsey, coach of the squad, believes that Nebraska has a very good chance of doing this. Last year Kansas Aggies wound up in first place, while the Huskers had to be content with a fourth ranking. This year, however, the Huskers are much improved. They have lost only six of their sixteen matches.

The Huskers have completed in this contest for five years. They have topped it only once, in 1932. Four men will make the trip—Bob Brown, John Campbell, George Esiger, and Gavin Humphrey.

LIVESTOCK JUDGES GO TO REGIONAL CONTEST

Nebraska Team to Compete at Fort Worth, Texas, on Friday.

Junior livestock judging team composed of five Ag college men excelling in judging will leave today for Fort Worth, Tex., to compete in an annual regional contest. Schools entering include: Texas, Oklahoma, Wyoming, Colorado, Kansas, Mississippi, Louisiana, New Mexico and other central and southern states.

The chosen team consists of Norman Weikamp, Clyde White, Don Bauman, Floyd Carroll and Loyd Carman. The men are candidates for next year's senior team which will journey to the American Royal contest in Kansas City and to the international contest in Chicago.

Stoke Sees Rhine Rearing Logical Step; 'Incident' May Bring War, Says Fellman

BY DAVID FELLMAN. Instructor in Political Science.

No one can say, at this moment, that the reoccupation of the Rhineland will necessarily lead to war, but no one can say that it will not. With French and German troops within glancing distance of each other, anything can happen.

The French are in a bad state of jitters, and the Germans are excited; both are heavily armed; the dreaded "incident" may occur next week, or next month, or next year. Who can predict the exact moment?

But the combustible materials are all on hand. Locarno is, for the moment at least, dead; the league is tottering badly; the post-war dream of peace through collective security has gone the way of most of the idealisms which the war engendered. Confidence in the sanctity of the old regime in the balance of power politics and military alliances is on once more.

Union's Future Rests With Work Program's Progress

Further progress on the prospective Student Union building is dependent upon the replenishing of the coffers of the Works Progress administration by President Roosevelt and congress, according to Chancellor E. A. Burnett.

Application for a grant of \$180,000 of PWA funds was submitted to John Latsinger of Omaha, acting state director, on Feb. 18, who subsequently approved the application and forwarded it to proper authorities in Washington. Copies of the application were also sent to the senators and representatives from Nebraska.

Washington's reply to the request was a letter from Horatio B. Hackett, assistant administrator of the federal emergency administration of public works, stating that last year's PWA funds have been exhausted, and that if and when congress makes a new grant to continue the work relief program, Nebraska's cause will be taken up with the rest.

Many speculations have been rumored around congress that the amount of the president's request for PWA funds would range somewhere between a billion and 1.5 billion dollars. However, the amount will be set and passed before the date of congress' adjournment around May 1.

It is likely that the amount of the president's request will depend upon the amount of the carry-over grants from last year. In his budget message in early January, President Roosevelt estimated the carry-over then at \$1,003 millions.

A very large portion of the PWA grant will be made for non-government buildings, in which category will be Nebraska's application.

Word has been received from all of Nebraska's congressmen, assuring school officials of their full support and co-operation in attempting to receive the grant. Chancellor Burnett suggested that students write to the representatives urging them to give their utmost attention to this project. The chancellor is of the opinion that (Continued on Page 2).

NEBRASKA ENGINEERS TO PLAN PERMANENT STATE ORGANIZATION

Annual Omaha Roundup to Discuss Nebraska's Power Projects.

Permanent organization of Nebraska engineers is the main topic of annual Nebraska Engineer's Roundup in Omaha March 21. If plans for a permanent statewide organization are perfected and adopted, this meeting will be the "Last Roundup" held. Dave Erickson, city engineer of Lincoln, will head the committee on organization.

U. S. army engineers will present the discussion topics. Capt. C. H. Chorpene will speak of preliminary operations and progress on the Fort Peck dam project. Capt. Herbert B. Loper will describe design and construction of river stabilization works on the Missouri river improvement project.

Opening session will feature registration, and a speech of welcome by Roy N. Towel, mayor of Omaha. Governor R. L. Cochran will make the reply. A business session for purposes of organization will be held later in the day. In the evening, the banquet will feature "Some Cold Facts for a Hot Group" by Earl H. Hodges, Cities Service company, New York City. General chairman of the meeting is John R. Rippey.

PONY CHORUS STARTS PRACTICE FOR COMEDY

Dr. Iverson Directs First Attempts at Male Aesthetics.

Using girls in the pony chorus of "Southern Exposure," Kosmet Klub's spring show, is now being considered.

That isn't the truth, but it's a good idea according to Dr. Ireland, director of the music, who was found in a wearied condition following the first rehearsal of the chorus.

Let's go down into the basement of Teacher's college last night about 7:30 o'clock and view this first rehearsal. Music was emanating from one of the rooms, so we entered it. The lads were all over the floor, hopping back and forth, trying to do a step, which Doc has given them, in rhythm to a piano being pounded at one side of the room.

Boys Concentrate. Concentration filled the atmosphere, as the boys learned the step-touch, touch, hop, touch, touch, hop, and so on. One hopeful over in the corner was in particular having trouble making his feet behave. He hopped, tap, tap, and then pushed out his limb and forced down with everything he had, but the end of his foot turned up everytime, like a R. O. T. C. freshman's thumb in the command, "Order, arms."

Arm in arm, the college boys were lumbering back and forth—tap, tap, jump, tap, tap, jump. (Continued on Page 3).

Cochran Doubts Immediate Conflict; No Powers Prepared.

BY HAROLD W. STOKES. Associate Professor of Political Science.

The entrance of German troops into the demilitarized Rhineland is a logical climax to the series of steps which Germany has recently taken in defiance of the Versailles treaty. Each step, from the renunciation of reparations to the present reoccupation of a demilitarized zone, has been taken in the face of the most grudging acquiescence of the former allies or over their formal protests.

Each of these German movements, however, has been nicely calculated to arouse nothing stronger than protest. The present move appears to be another such neat triumph, for while France is ready to intervene, Britain is not. The Germans realize that the burden of imposing upon them the terms of the Versailles treaty cannot be borne by any one power. (Continued on Page 3).

BAPTIST CHANGE TIME OF SUNDAY CLASS.

University Discussion Group Sets Worship, Fellowship Hour 6-8

Time of the First Baptist university class, fellowship and worship hour have been changed and has been set at 6 to 8 o'clock on Sunday evenings. The discussion, the topic of which will be "Can the Infinite Be Permanently Defeated," will be held next Sunday by Dr. C. H. Walcott.

Rachael Kelly and Maurine Johnson will have charge of the social hour which will be followed by the worship hour. Organ music will be furnished by Robert Burdick; a vocal solo, "How Lovely Is the Hand of God," by Miss Ruth Randall, and poems concerning the theme of the hour, "God in Nature," by Lorene Adelseck.

ENGINEERS TO MAKE ALL DAY INSPECTION OF POWER PROJECTS

Meeting to Commemorate Stanley's Invention of Transformer.

All day inspection tour will highlight a meeting of American Institute of Electrical Engineers, to be held in Omaha March 20. On that date, according to Prof. A. L. Bingham, every AIEE section in the country will commemorate the invention of the transformer by William Stanley in 1886, when he established the first alternating current system in the United States.

Nebraska members will visit the Nebraska Power Company, the new WOW studio and plant, and the Northwestern-Bell Telephone building. At the evening meeting, two papers will be presented. Prof. Vernon L. Hollister will speak on "History of the Invention of the Transformers." A representative of the Omaha members will speak on "History of Alternating Current Systems in Nebraska."

Members of the student branch will attend the meeting as guests of the Nebraska section of A. I. E. E. Most of them are expecting to stay over in Omaha for the Nebraska Engineer's Roundup, March 21st.

W.A.A. COUNCIL PLANS FIRST MIXED SPORT NIGHT FOR STUDENTS

University Men, Women to Attend Indoor Sports Festival.

Plans for sport night, the first event of its kind to be tried on the campus, will be made at a meeting of the W. A. A. Council Thursday. The evening of indoor sports for university men and women will be held Tuesday night, March 17, from 7 to 8:30 o'clock in Grant Memorial gymnasium.

Ping-pong, shuffle board, archery, badminton, and bull board are among the sports to be played during the evening. Prizes will be given to the couples making the highest scores and participating in the most sports. Members of the council, the sports board, and intramural representatives will act as hostesses. Members of the sports board will explain the rules of the different games.

Mary Friscella Stuart, chairman of the committee on arrangements, explained the purpose of the new form of mixed recreation: "We realize that there are a great many students on the campus who enjoy participating in sports of different kind for their own amusement. It is for these people that we have planned the evening of sports. Mixed recreation has been tried on other campuses and has been very popular. We hope that we can initiate a similar plan at Nebraska."

WHITAKER BOWLS HIGH SCORE OF 254

Beta Theta Pi Outclasses Sigma Nu 1722-1565.

Beta Theta Pi's "Hank" Whitaker bowled 254 for Tuesday evening's high score and led his Beta brothers to a win over Sigma Nu, 1772 to 1565, in another match of the intramural bowling contest.

Kappa Sigma eked out a 1511 to 1505 victory over the Chi Phi bowlers in league one competition. Acadia rolled up a score of 1859 over Lambda Chi Alpha who gathered 1143 in another league one match.

Alpha Gamma Rho and Phi Sigma Kappa put up a close bowling duel, with the A. G. R.'s nosing out ahead 1186 to 1184 in league two. The Beta-Sig Nu contest was also in league two.

BARBS SPONSOR ALL SCHOOL MIXER FRIDAY

Committees Appointed by Barb A.W.S., Interclub Council Leaders.

Barb men and women, thru their organized societies, will sponsor an all-school mixer in the Armory ballroom on the night of Friday the 13th. The Barb Interclub Council and the Barb Associated Women Students organizations are joint sponsors of the event.

Bob Storer and his orchestra, well known Lincoln dance band, will furnish the music, and decorations will be carried out in a spring theme.

Complete lists of the joint committees, which are under the general direction of Bill Newcomer and Victor Schwarting of the Interclub Council, and Dorothy Beers, president of Barb A. W. S., are: Dorcas Crawford, in charge of entertainment for the intermission; Rowena Swenson, Paul Hager, and Wilbur Beziey, publicity and advertising; Elizabeth Edison, Dale Larson, Bill Kuticka, and Austin Moritz, chaperones; Bill Newcomer and Lee Nims, orchestra.

TWO FRATERNITIES WANT EXPLANATION

Cardwell, Francis Error Provokes Threat.

Two fraternities threatened suit against the Daily Nebraskan Wednesday after a picture of Sig Alpha's Sam Francis appeared in a sports page with Sig Chi's Lloyd Cardwell's name attached to the caption.

CAVALRY UNIT TO GIVE HORSE SHOW AT FARMER'S FAIR

Fort Riley Equestrians Will Perform on Campus May 6.

United States cavalry unit from Fort Riley, Kansas has been contracted to give an exhibition at the Farmer's fair to be held May 6 on the Ag college campus. A light horse show will also be held in connection with the traditional Intersorority Riding contest.

Another attraction according to Burr Ross, manager of the fair, is the Union Stock Yards six horse team, which will go thru the regular maneuvers that they perform every year at the Ak-Sar-Ben Stock Show and Rodeo.

Committees in charge of the various events were selected at a meeting held March 11 in Ag hall, but the names will not be disclosed until a later date.

Work on the pageant will be started within a few weeks. All exhibits will be held on the new pageantry grounds on Ag campus. New features in the show will be a boxing and wrestling match, a camera contest, and various concessions.

An attempt is being made to break away from the old tradition of the historical pageant and to present something more interesting and entertaining.

ASSOCIATE WOMEN STUDENTS RELEASE LIST OF NOMINEES

Date of Election Set for March 16 by Miss Hendricks.

Announcing the date of Associated Women Students board election, in which all university women vote, for Monday, March 16, Mary Edith Hendricks, president of the women's governing body, released the list of nominees Wednesday. Barbara DePutron and Jean Walt will be in the race for presidency, while four women from the three upper classes will be chosen to serve on the board.

At the A. W. S. mass meeting Friday at 5 in Ellen Smith hall two girls from each class will be added to the list by the process of nominations from the floor. These people desiring to run must have a weighted average of 80 percent with no delinquencies; must be carrying 12 hours this semester; and all except freshmen must have completed 27 hours in the university. The complete slate will be announced Sunday.

Senior candidates nominated from the floor include: Mary Yoder, Elsie Buxman, Jean Hoag, Dorothy Bentz, Eileen Marshall, and Ardis Graybill. Juniors in the running are: Betty Cherry, Jane Barbour, Mary Ann Rosencrans, Maxine Durand, Getchen Budd and Martha Morrow. Sophomore nominees follow: Helen Pascoe, Frances Boldman, Delores Bors, Marjorie Crabb, Edith Filley and Vera Louise Marshall.

Polls will be open from 9 to 5 in Ellen Smith hall and the Home Ec building on Ag campus with A. W. S. board members and Monitor Board members in charge. Identification cards will be necessary in order to vote. In case students have lost their cards, duplicates may be obtained from the registrar's office as late as Saturday, March 14.

Four girls from each class will be chosen to act on the 1936 board, with at least one unaffiliated girl receiving most votes in each section automatically elected.

A.W.S. FRESHMEN HOLD ACTIVITIES DISCUSSION

Elsie Buxman Presents Details of Women's Point System.

Discussion, covering the organization of the various activities on the Nebraska campus and held in the manner of a forum, closed the series of freshman A. W. S. meetings for this semester at a meeting held Wednesday afternoon at 5 o'clock in Ellen Smith hall.

Under the leadership of Elsie Buxman, A. W. S. board member and sponsor of the freshman group, questions and discussion concerning the most important phases of the major university activities were given. Members present for the meeting took an active part in the forum, both in answering and asking questions pertaining to each organization.

In addition to the forum discussion, Miss Buxman gave a detailed explanation of the manner in which the point system, recently revised by the A. W. S. board, operates. In doing this she emphasized the necessity of conforming to the new rulings, and pointed out the desirability of freshman girls keeping a close check-up on the activities which they enter.
