INTERESTED STUDENTS TO ATTEND GERMAN PICTURE AT VARSITY

Language Department Movie Concerns Frederick The Great.

Interested students will attend the Varsity Theater Saturday morning, April 4, as the department of German presents "Das F. tenkonzert von Sanssouci," a talking picture concerning Frederick the Great. Elaborate and carefully made, the film combines appropriate pageantry, intelligent acting, and musical accompaniment, in such a manner that it will prove interesting even to those who do not understand German, according to Dr. J. Alexis.

Laid in the year 1756, the plot concerns the efforts of Frederick to keep separated Marie Theresa, of Austria, Madame de Pompadour, France, and Empress Elizabeth, Russia, three powerful women who wish to combine and crush him.

The picture takes its title from the closing scene, in which Frederick plays his flute unconcernedly while a secretary slips a de-coded message word by word on the music rack, under the unsuspecting eyes of foreign envoys from Frederick's enemies.

Brought by a messenger in a heroic dash from Dresden to Potsdam, the information is of great importance to Frederick for use in outwitting the envoys. The natural drama of the scene is heightened by the splendid acting of the cast.

Altho German is used throughout the picture, it is recommended as having great interest to both students and non-students of German. The show will start at 10:00 o'clock.

WEATHER FORCES HUSKER GRIDDERS TO DRILL INDOORS

Development of Air Attack Hampered by Cold; Bible Plans Game Saturday.

Nebraska's spring football practice took another setback yesterday afternoon as cold weather forced the squad to work out under the stadium. Coach Bible opened the afternoon's session with a long talk on pass defense, which he followed up with actual problems on the blackboard. The heavy part of the work out consisted of group work under Bible and Lyman with Johnny Williams helping out.

Bible's plans to make this a week of passing in order that the Husker's passing attack might catch up with their running attack. Bad weather from the first of the week, with high winds doing the most damage has made it extremely difficult for the passers and receivers to get good out of the daily practices. Howell, Phelps and Anderson have been doing the lion's share of what passing has been done, with all the end candidates getting a chance at the receiving end. San Francis with his left handed passes has been worked into every pass play by the simple procedure of running the play in the opposition direction.

Yelkin, McDonald, and Dohrmann, so far, have been the standouts at the end position when it comes to catching the gusty throws. Coach Bible plans a practice for this afternoon whether the squad will be able to get outdoors or not. Probably another chalk talk and concentrated group work will make up the bulk of the session.

A practice game for Saturday afternoon has been scheduled and cancelled and scheduled again, but at the last reports there will be another intersquad game of ten minute quarters. Outside work of the regular players will be enabled by many men who haven't as yet had an opportunity to show the ability to get into the Saturday's fray.

All student organizations on the campus will be honored at the party by large pennants bearing their colors and insignia cleverly displayed in the center of the ball room. The room will take the form of a garden surrounded by a picket fence artistically woven among ferns and palms. SYRACUSE REFUSES TO AID BOMB PRANKSTERS

25 Students Apprehended For Mailing Infernal Machine.

SYRACUSE, N. Y. (ACP). Personal, if slightly informal, relations with a lot of G-men were enjoyed by twenty-five Syracuse University students last week when the finger of the law identified them as the pranksters who had sent a fake bomb to Chancellor Charles W. Flint. They were charged with disorderly conduct, and the postoffice department wired a note of censure from Washington, saying that Federal action might be taken.

The tale begins with a group of architectural students sitting around trying to think of something to do instead of studying architecture. Some bright lad thought of the bomb plot, and an infernal machine was immediately constructed. Postal inspectors opened it in due time, were first convinced it was genuine. The sugar-soaked cotton had the same appearance as gun-cotton, they said.

The University did not concern itself with the sad plight of the twenty-five pranksters when G-men had rounded them up and hustled them into cells at the city jail. "The matter is in the hands of the authorities," said Vice Chancellor William P. Graham.
