REGENTS ALLOW AG GREENHOUSE BUILDING PLANS

Board Advances New Law College Requirements To September 1938.

Construction of two greenhouses at the college of agriculture was approved by the university board of regents Saturday morning. The buildings, which will probably cost \$10,000 to \$12,000, including the head houses, will be built just east of the present unit. Permission has already been granted to use certain federal research funds to meet construction costs.

Change in Law Date.
The date at which the new requirement for admission to the law school is to become effective was changed from Sept. 1, 1937, to Sept. 1, 1938. The change was made so as to avoid any unfairness to students now enrolled in college as pre-law students. The new requirement for admission to the law school is three years of college work or 93 hours in place of the present requirement of two years of college work or 65 hours.

UNIVERSITY BUYS OIL PAINTING, HOPPER'S 'ROOM IN NEW YORK'

Art Association Picture Added to Frank M. Hall Collection.

"Room in New York," an oil painting by Edward Hopper, has just been purchased by the University for the Frank M. Hall art collection. This painting, which is being shown in the forty-sixth annual exhibition of the Nebraska Art association, is considered one of Hopper's best works, and has attracted national attention. Of his picture, Hopper says:

"The idea had been in my mind a long time before I painted it. It was suggested by glimpses of lighted interiors seen as I walked along city streets at night, probably near the district where I live (Washington Square) although it's no particular street or house but is really a synthesis of many impressions."
Hopper Prominent Artist.
Hopper, who was born in 1882 and was a pupil of Henri, Kenneth Hayes Miller, and William Chase, holds an established place among contemporary American artists. His paintings have received many prizes and awards, and he is represented permanently in such galleries as the Pennsylvania academy of the fine arts at Philadelphia; Brooklyn museum, New Orleans museum, Art Institute of Chicago, Metropolitan museum of Modern Art, Whitney Museum of American Art all of New York City; Phillips Memorial Gallery, (Continued on Page 2).

GROUP HEADS TO CONSIDER CLASS ACTIVITY PLANS

Marvin Announces Meeting Of Executives to Hear Proposed Program.

That executives of college departmental organizations will meet Tuesday afternoon in University hall to hear a proposed program for organized class activity was announced Saturday by James Marvin, senior class president.

Last week, Marvin advocated the creation of an administrative council with representatives from each college that would have authority to take initiative in programs that might be used as class organization projects. This week, representatives from existing organizations will debate whether such a council would be practicable.

Plan Abolishes Officers.
"In proposing a new council last week," Marvin stated, "the abolition of honorary class officers was included as part of the plan. This step was entirely a matter of expediency, agreed upon by the Junior president and myself, to prevent the council, should it take effect, from becoming a mere addition to offices that clutter up Nebraska's student government system."

"We found, however, a general opposition to this move based on the idea that class officers are one of Nebraska's few traditions. To press this point would be to lose sight of our main objective; the class council could operate just as effectively if class officers still existed."

Freshman Week.
Chief issue now being considered as a class project, according to Marvin, is a renovated and more extensive freshman week, which would bring added activity for separate colleges. A representative of the faculty committee for freshman week will probably be in attendance at the meeting, Marvin disclosed, to suggest plans for cooperating in the program.

FRANCIS BREAKS SHOT PUT RECORD IN TEXAS RELAYS

Weight King Heaves Shot 51-9; Cardwell Wins Broad Jump.

Nebraska's shotput king, Sam Francis, blossomed out in full form Saturday afternoon at the Texas Relays to shove the shot out 51 feet 9 3/8 inches for a new Texas Relays record and first place in the meet.

Sam's record toss, for which he has been striving over a month, eclipsed the record of 51 feet 2 3/4 inches, established by Hugh Rhea of Nebraska in 1932. Sam lost out in the recent Columbia indoor meet because of a misunderstanding of the number of trials, but his great display Saturday indicates that Nebraska will have a peer to Hugh Rhea.

Lloyd Cardwell placed in two Texas events. "Cardy" leaped into first place in the broad jump with a 23 foot leap and came in third in the high hurdles.

"Jake" Jacobsen, veteran Husker sprinter, failed to place in the 100 yard dash. Francis' record breaking performance came on his second try with the iron ball. He was not pressed to win. Dryer, Kansas State weight man, came in second to the Nebraska Big Six champ.
