

NEBRASKA CAMPUS SOCIAL WHIRL

SEEN ON THE CAMPUS.

Dick Doty driving John Brownlee's "egg-beater" hither and yon... D. G. freshmen serenading the natives—with more energy than artistry, we fear... people concealing their identity behind vari-colored dark glasses... Bill Crittenden decked out in bowtie and sailor straw hat... everyone eagerly reading the Cornhusker... new Tassels proudly wearing their red and white pledge ribbons... literally millions of people trying to find parking spaces at nine o'clock... Eleanor Compton and Pat Scott lunching together in the Tasty... Harry Haynie and Inez Heaney enjoying a lengthy conversation in the midst of a history lecture... everyone congratulating Faith Arnold on her successful book... Bill Strong composing songs to sing to Rita Alger... Wood Shurtleff carrying 500 page texts about with the explanation that he intends to read them every night between the hours of twelve and five... Jack Ellis faithfully entertaining his Theta sisters... some Carrie Belle girls in new culottes riding bicycles... Doris Hoagland trying to learn the gentle art of football... Bob Callahan and Whitey Reed offering coddle cokes so they can read the girls' Cornhuskers... too lazy to walk to U hall?... Ruth Rapalee and Don Moss deep in study under the shade of his concertible roof... Paul Wertz and Claude Wilson velling pointless remarks to passing cars during drill... and everyone starting to think about going home.

CHAPERONS club met for a picnic luncheon at the W. A. A. refuge Tuesday afternoon. Following luncheon, the afternoon was spent at bridge. The committee in charge of arrangements was headed by Mrs. Margaret Rea, who was assisted by Mrs. Gertrude Adams, Mrs. Cora Bentley, and Mrs. J. W. Bishop.

WHAT'S DOING

THURSDAY.

Zeta Tau Alpha, Mother's club meeting, 2:30 o'clock, chapter house.

Kappa Delta Mother's club, covered dish luncheon, 1 o'clock, Mrs. E. W. Elwell and Mrs. C. F. Lyman.

FRIDAY.

Pi Beta Phi house party, chapter house, 9 p. m.

SATURDAY.

Alpha Omicron Pi, alumnae banquet, Shrine club, 6:30 p. m.

Gamma Phi Beta, spring party, chapter house, 9 p. m.

Kappa Alpha Theta, senior breakfast, chapter house, 10 a. m.

Sigma Alpha Mu spring party, chapter house, 9 p. m.

Gamma Phi Beta alumnae, bridge luncheon, 1 o'clock, University club.

Pi Kappa Alpha dinner, 6:30 o'clock, Lincoln hotel.

Sigma Phi Epsilon, alumni banquet, 6:30 o'clock, Cornhusker hotel.

Delta Gamma senior breakfast, 10 o'clock, Cornhusker hotel.

Delta Gamma alumnae, 3 to 5 o'clock, Mrs. Frank Woods.

Zeta Tau Alpha alumnae, 1 o'clock luncheon, University club.

Delta Upsilon, lawn party, chapter house, 9 o'clock.

SUNDAY.

Sigma Kappa senior breakfast, chapter house.

Fonda, eminent archon; Johnston Snipes, eminent deputy archon; Stanley Brewster, eminent recorder; Dick Brown, eminent warden; William Wallace, eminent correspondent, and Donald Akin, eminent herald.

SIGMA Kappas, too, are holding a senior breakfast next Sunday morning at the chapter house. The breakfast is an annual affair. The committee in charge of arrangements is composed of Maxine Whisler, Genevieve Hoff, and Alta Kohlscheen.

MEMBERS of the active chapter of Gamma Phi Beta will entertain at a spring party Saturday evening at the chapter house. Chaperons for the affair will be Professor and Mrs. O. H. Werner and Mrs. Lola B. Hood, house-mother. The committee in charge of general arrangements is composed of Louise Brock, chairman; assisted by Maureen Tecker, Marjorie Colburn, and Della Rohn.

BILL Kovanda of Elk Creek, Nebraska, is a new pledge of Sigma Phi Epsilon.

OLD and new members of the Bizad executive board will hold a get together at the Lincoln hotel, tonight at 6:30.

MUSIC STUDENTS PLAY ORIGINAL SELECTIONS
Four Win Awards for Own Compositions at Program in Temple.

The annual concert of Original Compositions was presented by students of the theory department of the school of music Wednesday afternoon at 4:00 in the Temple theater.

Those who participated were: Robert Burdick, Alice Terril, Ruth Friess, Marcella Laux, Ruth Randall, Roberta Willbee, Vance Leininger, Ernest Green, Ruth Hill, Evelyn Stowell, Larry Griesel, Jane Welch, Frances Spencer, Dorothea Gore, Margaret Baker, Irene Remmers, June Goethe, Eunice Tierney, Marjorie Smith, Margaret Baker, and Mary Louise Baker.

These students presented works of their own composition some of which were awarded Alpha Rho Tau Awards. Those who were granted awards were: Ernest Green, Vance Leinger, June Goethe and Eunice Bingham.

Accompanists for the program were Evelyn Ruth Hill, and Ruth Randall.

750 CORNHUSKERS SOLD WEDNESDAY

Editor Urges Students Get Copies at Once.

Half of the Cornhuskers, all the 750 available copies, were distributed to purchasers yesterday at the Cornhusker office in U hall. More copies have been brought up from the printers today for distribution.

Altho the office will be open until Friday afternoon and books will be available until then, students are urged to call for their copies immediately. To avoid extra work and confusion, all purchasers are urged to bring their receipts.

The books of those who have paid only \$1 on their installments will be placed on sale immediately. Those who desire to purchase these annuals may have them for \$4.25 each.

AGAIN A SUCCESS.

Issuance of the Cornhusker year book seems to have created quite a furor on the campus these days. With the final closing of the six Nebraska Beauty Queens congratulations are again in order, and excitement and pride is rife among the sisters of the five organizations represented. The general consensus of opinion seems to be much in favor of Faith Arnold and her staff's beautiful publication. Everyone, examinations to study for or not, may be seen with his or her face buried in one of these red books, hungrily looking over the miscellaneous photographs for a likeness of themselves, or ardently gazing at the portraits of "campus idols." At any rate everyone is very proud to own one of the new 1936 Cornhuskers for it holds many happy memories with photographs as reminders.

SATURDAY morning the senior girls at the Kappa Alpha Theta house will be entertained with a breakfast. The seniors who have not passed candy during their college career will be compelled to eat lemons. Those who are victims of such a tradition still have one more day to do something about it, however.

NEWLY elected officers of Kappa Sigma are Gay Miller, grand master; LaVerne Luedke, grand protector; Dean Keard grand treasurer; George Porter, grand scribe; Dick Spangler, guard and Jim Beltzer, guard.

MOTHERS club of Delta Upsilon met for luncheon at the home of Mrs. R. W. Tyler with 30 present. New officers elected are Mrs. Harry Ankeny, president; Mrs. J. M. Roberts, vice president; Mrs. J. E. Weaver, secretary, and Mrs. Caroline Phillips, treasurer. Assisting hostesses for the afternoon were Mrs. W. I. Anderson, Mrs. G. F. Nye, Mrs. Nellie Magee, Mrs. Hazel Lyman, and Mrs. George Burt.

FRIDAY night members of Pi Beta Phi are entertaining the senior members with a house party. A dinner and program will precede the party. Chaperons will be Mr. and Mrs. Lloyd Corp and Mrs. Pearl Petermichael. Joyce Ballantyne is in charge of all arrangements.

MEMBERS of the active chapter of Sigma Alpha Mu will entertain at a spring party Saturday evening at the chapter house. Chaperons for the affair will be Rabbi and Mrs. Harry Jolt, and Mr. and Mrs. David Zolat.

MAXINE Durant, Tri Delta, and Vernon Clemans, Phi Alpha Delta, informally announced their engagement by passing the candy and cigars at their respective houses Monday night.

name of the company and the significance of the prize. Cadets who planned to attend the field artillery camp are in for a disappointment because headquarters has not approved the recommendations. This will effect this year's junior class.

PHI CHI THETA INSTALLS OFFICERS

Miss Marshall Heads Professional Group; Plan for Initiation

At a recent business meeting of Phi Chi Theta, business administration professional sorority, officers for the year 1936-37 were installed. They are: Aileen Marshall, president; Miriam Butler, vice president; Helen Rosker, treasurer; Ruth Pierce, recording secretary, and Margaret Standford, corresponding secretary.

Outgoing officers are: Miriam Butler, president; Alaire Barkes, vice president; Alice Crowley, treasurer; Aileen Marshall, recording secretary, and Ruth Pierce, corresponding secretary.

AVIATRIX EARHART TO SUPERVISE PURDUE 'FLYING LABORATORY'

New Department to Conduct Aeronautical Tests; Purchase Plane.

LAFAYETTE, Ind., May 20.—Amelia Earhart, the aviatrix who conquered the Atlantic and Pacific oceans, has taken over the "flying laboratory" at Purdue University with the establishment of the "Amelia Earhart fund for aeronautical research."

Several unnamed donors have cooperated in the purchase of a 10 passenger plane now being built in Burbank, Calif., to carry out laboratory experiments.

This ship will have a cruising speed of 190 miles an hour to be equipped with two motors of 500 horsepower each. It will be of the same type as the planes used by the aviatrix in her transoceanic flights. Periodic field tests on actual flights will be made in the with extra gasoline storage space for use in trans-American and South American jaunts in the interest of science, it was announced.

Counselor on Careers. Amelia Earhart has been a counselor in careers for women at Purdue University and an aviation consultant there for some time past. She will have complete charge of the flying laboratory and with her husband, George Palmer Putnam, New York book publisher, will go to California in July to accept the plane.

Altho it is a 10 passenger transport ship, the passenger compartments will be fitted as a flying workshop with a hatch cut in the fuselage for navigation observation. Special equipment will include robot pilot, de-icing appliances, a radio "homing" device and a two-way radio telephone. Purdue University television station will be used in experimentation in transmitting pictures to the plane.

Experimental work will include tests of speed and fuel consumption under varying conditions; use of oxygen in altitude flights; the human equation of fatigue and endurance in relation to altitude, diet, sleep, eyestrain and other factors, and flights under varying weather conditions.

Purdue University officials are clearing a \$85 acre airport here to carry on the flying experiments. Currently tests are made for the best type of material for runway construction at the Purdue experiment field. The laboratory of Purdue is working overtime testing short wave radio communication and television usages where visibility in flying is bad. Co-operating with the aviation section is the other science departments such as those studying aerological conditions.

Prof. R. W. Wood of Johns Hopkins has made a "spectroscope" ruled with 30,000 individual lines to the inch.

CONNING THE CAMPI

By Arlen Crenshaw

Business men can talk all they wish about college education not helping young men along in the practical affairs of life. This department knows definitely they are wrong.

We've just been hearing about the young collegian in the University of California at Los Angeles. He bought a very expensive make of automobile. In four months he had paid out a big bill in repair expenses. That made him angry. He did this:

On the side of the beautiful car he painted the words: "This is the last 'blank' car I will ever buy. In four months it has cost me \$300 in repairs." Then he proceeded to drive it slowly thru the business district, and particularly in front of the Blank agency. It was only a matter of hours before the agency bought the car back from him and took over all the repair bills.

Father Divine "likes to have college people visit him"—or so he told a reporter from the Princeton paper who tried to get an interview from the son of heaven in his New York sanctuary.

"But—" said the Father, "Too many people come enooping around here and then go away and write the wrong things. Be sure you print the facts."

The Father seemed proud of the fact that just the night before, a delegation had come from Smith college.

All college professors now and then get some gems in the answers to examination questions. But Professor William Beery of Ohio State, who teaches geology, makes a practice of saving his.

A few examples, recently: "The earth is round and is 25,000 miles from one end to the other."
"The earth is 60,000,000 miles around and is composed of atmosphere, the north and south poles and the equator."
"The earth is thought to be flat at each end of the equator and the poles being 27 miles shorter, the earth tends to bulge at the equator."

The grounds keeper at the University of Georgia took one look at the lawns the other day, sat down, shook his head and had an inspiration. His poem appeared in the college paper next day. It read:

U. of Georgia's son or daughter,
Do you love your alma mater,
If so, it should be your duty
To protect her vernal beauty;
Man or woman, youth or lass
Please don't step upon the grass.

The depression is held responsible for growing interest in home economics being shown by boys.

KOSMET KLUB NAMES MEMBERS TONIGHT

Initiation, Election Of Officers Slated To Precede Banquet

Kosmet Klub will announce its new members this evening at 6 o'clock, when it will hold initiation before a banquet in the Cornhusker hotel.

Election of officers will precede the initiation. Out going officers are Robert Pierce, president; William Garlow, business manager; and Richard Schmidt, secretary.

Members were chosen at a special meeting last week from workers of the last two semesters.

Let Your Baggage Go Home by the LAUNDRY ROUTE

Arrange to ship it off this June by your old friend Railway Express and when Commencement Day dawns, be fancy free to board the train for home. Anything—trunks, bags, books, golf clubs, cups, even your diploma—Railway Express will pick them all up on your phone call, forward them at passenger train speed, deliver them safe and sound at your home. And it's economical. Railway Express rates are low, and you pay nothing at all for pick-up and delivery service. There are no draymen's demands, no tips, no standing in line, and sureness is made doubly sure by Railway Express's double receipts, with \$50.00 liability included on every piece you ship. Besides, you have the choice of forwarding your things either prepaid or collect, and they'll be home as soon as you are. No other way of shipping gives you this kind of service, as you probably know, and to get it you have only to phone the nearest Railway Express office, 1128 "P" St. Phone B3264

The World Pays Tribute to a Great Man

The famous French scientist, Louis Pasteur, whose gift to mankind was a score of years added to the lifespan, lives and breathes again in the person of Paul Muni in the production "The Story of Louis Pasteur."

Greatest Life Saver In History!

Dr. Louis Pasteur is credited with saving more lives than any other man in history.

Pasteurization does not mean boiling or changing the flavor of milk. It means simply holding milk between 142-145 degrees for 30 minutes, to insure its safety.

Through his work the process of pasteurization was developed. Records in large cities before and after the coming of pasteurization prove unquestionably that thousands of lives have been saved by pasteurization.

And Roberts Dairy takes no chance of losing any of the complete protection that proper pasteurization affords. As a very important safeguard, Roberts milk is not exposed to the air after pasteurization—except for the necessary second of time when the filled bottle of milk is automatically capped.

A record of perfect safety for more than twenty-five years proves the complete safety of Roberts milk.
