**COMFORTABLY COOL WEATHER MAKES SCHOOL** attendance a pleasure indeed, rather than a series of heat discussions and brow moppings. Although the tennis program has been placed at a temporary standstill, by the illness of Bob Harrison, instructor, students have found and are finding time to participate in various recreational activities, on the campus and in Lincoln. Swimming, at one of the city pools, is popular with many of the summer students and golf, as usual is taking up plenty of the leisure time which men seem to find when they get within driving distance of a golf course. With the thermometer at a reasonable level, it is wise to confer with friends and take advantage of the gorgeous weather by making use of Lincoln's recreational facilities.
