

TWO-MILERS TRAIN FOR KAGGIE MEET; TRIAL TIME SLOW

Marathon Slated for Half Interval of Indiana-Nebraska Game.

An overcast sky greeted Coach Henry Schulte's cross-country runners Friday at Memorial Stadium as they went thru their routine paces in preparation for the Kansas State meet, Oct. 17. This encounter with Coach Ward Haylett's team will be run off between the halves of the Nebraska-Indiana grid game.

To appease his curiosity, Charles Stuart, Mentor Schulte's aide, decided this would be a most opportune time to clock some of the marathon runners. James Knight, junior from Council Bluffs, Ia., was the first to be timed, and he covered the mile in 5:15. Knight's showing was far from being spectacular, but it indicated manifestly that he is improving rapidly.

Wilson Andrews, junior from Ponca and a possessor of a major letter, ran the mile and a half in the sparkling time of 7:27. The lithe-like trackster ran the first lap in 1:09, jogged at a steady gait and then put on a spurt to earn him his good clocking.

Another letter winner, Fred Matteson of Sutton, was timed at 7:43 for the same event, while Fred Koch a promising sophomore made the turn at 7:57. Matteson however is capable of running better times and with more arduous practice can run the event around 7:20 or less. As for Koch—well, he usually covers that space around 7:50.

Ten Men Drill.

Interest in the impending clash with the Aggies is traveling at high ebb in the Husker track camp. Nearly every day ten or more aspirants for berths on the two-mile team can be seen jogging around the track. What's more, chilly weather does not daunt them from practicing.

Among those reporting regularly for rehearsals are Wilson Andrews, Fred Matteson, Bob West, all of whom have won major letters; James Knight, Fred Koch, Paul Owens, Bob Allen, Arthur Hendrikson, Robert Beaver, Alfred Kuper and Arthur Hendrikson.

From this list Coach Schulte's five man team will be selected to oppose the Kansas State Wildcats. The Aggies are the defending Big Six two mile laurel holders, and are conceded a good chance of retaining these honors due to the fact that several members of this championship team will be back in the fold for another season of competition.

Nothing, however, would please "Pa" more than to upset the highly touted Manhattanites.

CAMERAMEN SEE 1200 FOOT FILM AT FIRST MEETING

Lincoln Cinematographers, an amateur movie club organized last winter, held its first meeting of the season on Oct. 2, in the auditorium of Morrill hall. Dr. C. H. Arnold entertained the members with a 1,200 foot film in natural

color taken on his recent European tour. Pictures of Ireland, England, part of France, Bavaria, and Switzerland.

All amateur photographers interested in belonging to the organization were especially invited to the meeting, at which President F. C. Hush presided. Vice president of the club is Mrs. O. E. Jermer, and Mr. Wendell Woods is the secretary-treasurer.

College World

Would you believe it? Here we had thought that the literary lights had blown out of sports. Bill Shakespeare graduated from Notre Dame, and Henry Wadsworth Longfellow left Northwestern. But no. Now "The Last of the Mohicans," James Fenimore Cooper, has popped up at Marquette U.

Some of the students at the University of Kentucky go to great lengths for an education. Imagine covering 11,800 miles just to go to school. From China? India? No, they on live about 30 odd miles from the campus, but they commute daily. One of the fellows figures that he burns approximately 785 gallons of gas during the school year, which amounts to . . . let's see . . . maybe you'd better figure it out for yourself.

Maiden Munchausens are in a class by themselves. And here we had thought all along that men were the greatest fabricators of fables and fancies. However—and this is the rub—the committee of judges at a liar's contest staged at the University of California, conceding that women are superior in this sinful art, refused to let the questionably fairer sex have the opportunity of competing against the men. Now they have their own place in the "lie-ing-sun."

The poor coeds at German universities and colleges acquire their education by degrees, and at the end of their courses most of them can't get their diplomas anyway. Only a limited number of women—enough to fill vacancies in special professions, are given the chance to write exams for their degrees. So Gretchen can't finish her schooling and expect to search for a position. If she isn't offered a job and with it the opportunity to pass the final test, she has to be content with saying: "Heck, I didn't want the darn old thing anyhow." Ja, so geht's.
