

PLAYERS FINISH PRACTICE WORK ON FIRST FARGE

'Personal Appearance' to Open Oct. 12; June Butler Stars.

By Barbara Rosewater. With June Butler in the leading role, the cast for 'Personal Appearance,' first University Players production of the season, has reached completion...

Miss Butler takes the part of Carole Arden, a glamorous Hollywood actress making a personal appearance tour over the continent...

Comedy relief is supplied by Julia Viele as Gladys Keely, movie-struck young farmerette who has big ambitions for herself and her boy friend in pictures...

STATE ASSOCIATION TO ENTERTAIN LAW FRESHMEN, OCT. 7

Meeting to Acquaint New Students With School, Faculty Heads.

Newcomers to the law college will be entertained Wednesday evening, Oct. 7, at 7:30 by the Nebraska Law School association...

Purpose of the meeting is to acquaint the new students with the school and the faculty. The association, which is made up of the entire student body of the school, was formed last year and this marks the first official meeting...

BRADLEY TO ADDRESS CAMPUS REPUBLICANS

Young G. O. P. National President to Speak Wednesday.

J. Kenneth Bradley, national president of the Young Republican club, will address the regular meeting of the Young Republicans next Wednesday, Oct. 14, at 4 p. m. in Social Science auditorium...

A Young Republican dance will be held Thursday night, Oct. 15, at the Cornhusker ballroom. Music will be furnished by the well-known Beck-Jungbluth band...

Liberian to Address YM on African Life At Weekly Meeting

University students will have the opportunity to hear a native African student speak at this Wednesday's 'Y' meeting. He is Charles G. Bloah, graduate sociology student from Liberia...

ADMINISTRATION TO STAY ON TOP, BLACK DECLARES

Alabama Senator States University Polls Surest Means of Predicting Country's Support Of Democratic Candidate.

By Howard Kaplan. Declaring the university polls to be the surest prediction of the country's support of his candidate for the Presidency, the bombastic, little Senator Black, (christened Hugo La Fayette) chewed his unlighted cigar in a Lincoln hotel room last night...

With his thin dark hair combed flat and his eyes twinkling with delight, the twice-elected senator from Alabama repeated his statement that since university students are supposedly thinking people, their decision is one that should merit attention...

Never Writes Speeches. Questioned upon his possible

CARDWELL NAMED TO LEAD HUSKERS AGAINST GOPHERS

Lloyd 'Wild Hoss' Cardwell, Seward senior, was named by Coach D. X. Bible to act as game captain for the Minnesota tilt Saturday.

The 185 pound halfback runs the century in 9.8 seconds and has received All American recognition as a sophomore for his ball carrying against the Gophers and Pitt. As sophomore Cardy ran kickoff back 50 yds. against Minnesota and Pitt, and last year ran a 42 yard kickoff back 82 yards against Oklahoma and scored on an 86 yard return of kickoff against Chicago...

Cardy has that elusive hip swing and change of pace that makes a great halfback and is a deadly tackler, excellent at catching passes and pass defense. Saturday he scored three touchdowns against Ames.

Last year Cardy went 51 yards to score against Iowa State, scored two touchdowns each against Oklahoma, Chicago and Oregon State and one against Iowa State and Kansas. He also led the Big Six conference scoring list last year.

HOME ECONOMIC DRIVE ENROLLS 40 INITIATES

Frances Schmidt Chairmans Campaign, Setting Goal At 150 Members.

First day's reports of the Home Economics association drive for membership show that about 40 new members have been signed up, according to Frances Schmidt, vice president and member of the committee in charge of the drive. The association is attempting to get over 150 members before the end of the drive.

The Home Economics association is an organization which sponsors activities such as the Ellen H. Richards dinner, Home Economics and mixers. In addition the association has a student loan fund for the benefit of Home Ec girls.

Freshman girls may belong to the association even though they belong to two other organizations, since it isn't included in activity points except for members of the Home Ec board. Miss Schmidt wished this point emphasized, because it has caused a large amount of confusion.

March of Time Charges Commercialization in College Grid Circles

Football is becoming openly commercialized, according to the new issue of the March of Time, to be released Oct. 2. This camera report has gathered a wealth of exclusive material from a score of widely scattered colleges.

Presenting some of the countless underhanded methods of secretly subsidizing crack players—a practice which the 1929 Carnegie Foundation report found prevalent in 75% of U. S. colleges—the March of Time names 1936 as the first year of open subsidization. To back up this assertion, pictures were taken in Atlanta, Ga., of a momentous meeting of representatives of 13 colonies of the Southeastern conference who recently adopted a new ruling recognizing athletic ability as a determining factor in the allotment of student loans, jobs and scholarships.

Associated Press Photo SENATOR H. L. BLACK From the Lincoln Journal.

stand of supporting Norris. Senator Black invited his interrogator to attend his evening address at eight o'clock, anything was likely to be said. At 6:45 his speech was still unwritten. 'In fact,' he added, 'I never prepare written speeches. In different parts of the country there are different issues and different questions, causing me to discuss whatever comes up at the moment.'

Concerning certain national (Continued on Page 4).

J. MOSTROM ATTENDS NATIONAL SESSION OF SIGMA TAU HONORARY

Delegates of Engineering Fraternity Gather at Oklahoma.

STILLWATER, Okla., Oct. 5.—Climaxing the social program of the three-day national convention of Sigma Tau, honorary engineering fraternity, on the Oklahoma A. and M. College campus, delegates were entertained at the Kansas Aggie-Oklahoma Aggie football game, followed by a banquet and dance. The Nebraska Sigma Tau chapter was represented at the convention by John Mostrom.

In the final business meeting of the convention, members of Sigma Tau re-elected as their national officers: President, Vernon Hedge and Secretary-Treasurer, C. A. Sjogren, both of Alpha chapter, University of Nebraska, at Lincoln.

Nineteen States Represented. Twenty-three delegates, representing 19 states, and approximately 25 local members of Sigma Tau attended the sessions of the national convention from October 1-3, inclusive.

The closing morning of the convocation was spent in a business session for the election of national officers and committees and the reading of chapter records.

YOUNG DEMOS SLATE NATIONAL SPEAKERS

Club Arranges Membership, Publicity Drives for Political Fight.

Young Democrats of the university laid their plans for their participation in the fall campaign in a meeting in social science hall Monday afternoon. After the meeting was opened by Ed Holstein, chairman, plans were made for a membership drive and a publicity campaign.

Arrangements were made for the reception of two outstanding party members Wednesday who will speak to the organization. One, Raymond Kell, is a brilliant young orator from Kansas, and the other, Martha McLendon, is a prominent attorney of Missouri. They will address the young Democrats at Nebraska Wesleyan today.

Suggestions were made for a dance but no steps were taken. A debating team may be organized to meet the young Republicans of the campus in an oratorical battle. The three committees appointed by Chairman Holstein are: Program committee: Ernest Arnold, chairman, Richard Decker, Marion Morgan, and Lewis Cass. Publicity committee: Eleanor Clizbe, chairman, Marie Kotone, Betty Hughes. Membership committee: Huges Waggoner, chairman, Robert Nuquist, and Thomas Horn.

L. FITCH TO HEAD BUSINESS STAFF OF '36 SCHOONER

Circulation Campaign of Magazine to Start Next Week.

Lyle Fitch of Gordon, Neb., graduate student of bizad college, will serve as business manager for the Prairie Schooner this year. Details of a circulation drive will be announced next week.

Prof. Lowry C. Wimberly, editor, announced that contributions from university students and faculty are welcomed for publication. The current fall issue of the Prairie Schooner carries contributions from New York, San Francisco, and the Philippine Islands.

Associate editors of the Prairie Schooner are: Russell T. Prescott, assistant professor of agriculture; Martis S. Peterson, instructor of English; Maurice O. Johnson, instructor of English; Gray, instructor of the extension department; Frederick L. Christensen, reader in English department; Margaret Cannel, instructor of English Pearl Joan Cosgrave, assistant in the department of architecture; Louise Perry, graduate of the university in 1934.

Contributing editors are: Gilbert H. Doane, librarian; and Loren C. Eiseley, Nebraska poet. Honorary editors include: Thomas M. Rayson, chairman of the English department; Robert D. Scott, professor of English; Gayle C. Walker, director of the school of journalism; John G. Neihardt, Nebraska poet laureate; R. P. Crawford, assistant to the chancellor; and J. E. LeRossignol, dean of the bizad college.

The Prairie Schooner is listed as one of the fourteen best magazines of the U. S. States, according to Edward J. O'Brien, international short story critic and anthologist. Reprints from the magazine may be found in leading publications of the country and copies are sent subscribers to as distant points as Tokyo and the Philippines.

ENGINEERS TO VIEW SOUND PICTURES ON AUTOMOTIVE DESIGN

All Students Invited to Attend Educational Picture Program.

Students of the Engineering College will view the new educational pictures produced by the Chevrolet Motor company, Wednesday evening, Oct. 7, at 7:30 o'clock in the Social Sciences auditorium. These will be sound pictures covering the following topics:

'Water Boy.' This picture shows the basic fundamentals of cooling the automobile engine. A modern cooling system is designed and shown in operation. 'Stop That Car.' This picture shows the principle of braking. It shows how heat is changed into motion, how motion creates friction and how friction creates heat, which is the principle of braking. It has a very interesting and dramatic climax. 'Turnabout Man.' There is a saying that a gentleman usually is not a gentleman when he is behind the wheel of his car. The 'Turnabout Man' behaves just the opposite, however. His driving behavior changes place with his ordinary social behavior. This picture holds the mirror up to many of us and shows us the importance of courtesy in safe driving. 'Silence.' All the thrill of an intercollegiate track meet multiplied by the thrills and hazards of the motor speedway! Daredevil drivers compete in sprints and dashes, high hurdles, relay races, and even the shot put—using motor cars instead of muscles to set new records for nerve and stamina.

These pictures are being shown under the auspices of the student branches of the various divisions of engineering. Anyone interested in viewing them is cordially invited to attend.

GRONE DEVISES NEW PHOTO COPY METHOD

Professor Writes Article On Photography Find For Magazine.

Amateur photographers will be interested in an article in the current issue of The American Annual of Photography entitled 'Control in Contrast in Copy Work.' It was written by Prof. E. A. Grone of the engineering college. Prof. Grone, who is president of the Camera club, has worked out a scientific method which assures success in achieving desired results in copying prints. As it was formerly necessary to use the trial and error method in copy work, Prof. Grone found this irksome. He proceeded to take some 3,000 exposures and develop them in order to gather conclusive information, and the results of his study have been incorporated into this article with accompanying graphs.

I Pledge Allegiance

Today, with a presidential election barely one month away, student political leaders of both major parties unshackled verbal foils, shout 'En garde!' and open their duel of doctrines and demagogues with a column of type.

Few votes in the electoral college will be determined by the newspaper debates of two students in a midwestern university; the Nebraskan does not aim to modify or intensify party prejudices. It does hope, in line with the aim of any educational institution, to seek out the underlying and important issues in this campaign. If the readers find that partisan writers cannot furnish them, others will be called upon for assistance.

Introducing the principles of the Republican platform today is Frank Landis, president of the campus Young Republican organization, and a student in law school. Upholding the Democratic record is Edmund Holstein, president of the Young Democrats, likewise a law student.

REPUBLICANS DEMOCRATS

By Frank Landis. Most political opinions, like Uncle Ezra's oil portrait, are inherited from the family's preceding generations. Until the World War, the fact that grandpa shook hands with Grover Cleveland was a sufficient excuse for being a democrat. The change in form of European governments, the discarding of republican governments all over the world, and the delicacy of international balance has made an intelligent approach to our own political problems a necessity. As a result, the November election will be unique. No longer is the electorate voting for individual men, but they will cast their ballot for two different concepts of government, two widely divergent philosophies, that of the traditional American plan versus the New Dealism. Notwithstanding the fanfare of presidential publicity and the frantic beating of chests by prominent administration officials in an effort to divert the public's attention to foreign affairs, the real conflict is in the treatment of domestic problems caused by the unfavorable world situation. (Continued on Page 4).

PRYOR DENIES HEARST CHARGE THAT UNIONS HOLD COMMUNISM

Labor Favors Lobbying as Means of Obtaining Proper Legislation.

Members of labor unions are no more communistic than the average American, declared Mr. Britt Pryor, president of the Nebraska State Federation of Labor, in a speech explaining the uses and functions of unions to young people of the Vine Congregational church Sunday night. Mr. Pryor asserted that he had nearly every other head of labor groups, but explained that 'We are not as bad as the Hearst papers picture us.' He stated that most labor unions are directly affiliated with the American Federation of Labor, sending delegates to the meeting of the Federation where the actions and policies of the organization are established. Lobbying Favored. 'You bet your life I'm in favor of lobbying,' exclaimed Pryor, and pointed out that lobbying is the only method the unionists have of getting their legislation enacted into law. He expressed the belief that lack of interest by all groups of men and women, and especially the churches, is mainly responsible for the unemployment situation. 'The ordinary man and woman didn't take an active part in politics, letting politicians elect politicians,' he said and offered as a solution for unemployment the policy of adopting a 30 hour working week, thus providing jobs for more people.

CONTEST OPENED FOR MILITARY BALL PLANS

Best Scheme for Honorary Colonel Presentation Wins 15 Dollars.

To the student submitting the best plan for the ceremony of presenting the Honorary Colonel at the 28th annual military ball, the military department will award a cash prize of \$15. Announcement of the contest was made Monday by Major Charles E. Speer by order of Colonel Oury. Date of the ball is Friday, Dec. 4, and the rules of competition are as follows: Contestants must submit their plans to Miss Littrell at the main office of the military department in Nebraska hall. All plans must be in the office not later than 5 p. m. Thursday, Nov. 5. The decision of the committee on the plans will be final when approved by the military department.

DR. GIBBONS TO ATTEND IOWA HOME EC SESSION

Ag College Instructor to Represent University At Conclave.

Dr. Rebekah Gibbons, teacher of home economics at Ag college, will represent the university at a convention for home economics research workers at Iowa State college, Oct. 23 to 27. Addressing these workers from seven state experiment stations will be Dr. Ales Hrdlicka, of the National museum at Washington, D. C., on the subject of anthropometric techniques. Dr. Hrdlicka is a renowned authority on physical and geographical anthropology, having directed anthropological expeditions in Mexico, Egypt, Siberia, India, Asia, and Australia. This project, which was initiated last year, has been organized to study the nutritional condition of college women in relation to what they eat. Physical examinations at Iowa State college indicate that many college women have a borderline secondary anemia, a condition in which the red coloring matter of the blood is reduced below normal.

ANNUAL REVISES PLAN FOR PICKING 1937 UNI QUEEN

Corn Cobs, Tassels Initiate Yearbook Drive, Under Baker's Direction.

Anticipating the most intensive Cornhusker subscription sale in History, Corn Cobs and Tassels launched a drive yesterday morning which is expected to far surpass last year's initial campaign record of 1,425 books.

Ed Baker, business manager of the annual, announced the opening of the sales drive yesterday which will continue in full force until October 16. He stated that this year's campaign is expected to cover the campus more fully than any of the past. 'For the first time in several years, students who really know the Beauty Queen candidates will have an opportunity in partaking in their selection,' Baker stated. 'We feel that this will prove to be a much more satisfactory system than sending the pictures to some disinterested movie star or director in Hollywood.'

According to the proposed plan, any student buying a Cornhusker is eligible for candidacy as a Nebraska Beauty Queen. Each sorority and barb group is allowed to nominate one girl for every twenty books which they sell. Students Elect Queens. The new features of the plan provide for both a primary and a general or final election of the queens by the student body. Baker stated that it is the hope of the staff to hold the primary election in conjunction with the selection of Nebraska's Sweetheart and Honorary Colonel, the date to be set by the Student Council in the near future. In the primary election each student who has purchased a Cornhusker will be allowed to cast six votes, three for the three girls ranking first in his estimation, two for those ranking second, and one for third. In this (Continued on Page 4).

EDITOR COLLECTS BLUE PRINT COPY FOR INITIAL ISSUE

Magazine to Have Many Colored Cover in First Edition.

Nebraska Blue Print, engineering publication, will make its 1936-37 debut on the Nebraska campus sometime during the week of Oct. 12. Lowell Newmyer, civil engineering senior, will serve as editor of the magazine this year. Among the articles of interest to engineers in the first issue will be 'Limitations of Engineers in Technical Writing for Publication' by F. H. Carlin, editor of 'The Civil Engineer' and 'Instrument Transformers' by Jesse E. Gibbs, an electrical engineer graduate of Nebraska in 1905 and now with the Westinghouse Electric and Manufacturing company. V. E. Paulson, civil engineer of the class of 1940, has summarized an article dealing with the various names under which engineers work: as safety engineers, sales engineers, efficiency engineers, and design engineers.

No longer will the cover be the customary blue and white linoleum cut. Various colors will decorate the covers of this year's Blue Prints and the stereotypes process using copper plates will be utilized. The cover will also contain a number of abbreviated lead-

DELIAN UNION TO HEAR MEIER ON ARCTIC FILM

Former Member of Literary Society to Entertain Club Friday.

O. W. Meier, an alumnus of the University Union, A. B. 1895, LL. B. 1906, will speak to the Delian-Union Literary Society on an Arctic picture next Friday evening, Oct. 9, in the Temple theater. Mr. Meier served as a soldier in the Philippines during the Spanish-American war. His extensive travels include circumnavigating the globe, and visiting many foreign countries, including Japan, China, Siam, Ceylon, India, Ethiopia. He visited many points of interest in Italy, Austria, Hungary, Bohemia, Germany, Belgium, France, and England. He has also crossed the Caribbean, touching at Havana, Cuba, the Panama Canal, and the Central American countries. This summer, Mr. Meier and his wife made a cruise to Alaska, visiting many out-of-the-way points. Mr. Meier took many interesting pictures on his trip, which he will show at the meeting Friday night. All interested students are invited to the lecture, and all unaffiliated students are especially urged to attend.
