A Step in The Right Political Direction.

The student council investigatory committee on campus politics ceased heckling the factions long enough to draft a resolution which may be the answer to the ills of our student government. It will be submitted to the council in special session today for ratification, which surely will be forthcoming. After reviewing the malpractices associated with the nomination and election of candidates to executive positions, the committee suggested that the judiciary committee of the council instruct the factions to guarantee the worthiness of each candidate for office; that the judiciary committee review nominations and strike out the name of any candidate who does not satisfy requirements laid down by that committee; that immediate action be taken to correct the delinquency of present members of the council, with impeachment resorted to where necessary; and concluded that the practice of requiring voter's pictures on identification cards will solve the problem of multiple voting.

The gist of the resolution is found in the proposed power of the judiciary committee to act as a board of review over nominations. It is given arbitrary author-

ity to strike the name of any candidate from the ballot if that candidate fails to match requirements as yet unpropounded. No one has laid down a definite criteria for membership in the student council beyond eligibility. What is sought in leaders has heretofore been left up to the discretion of the campus voting populace.

But drastic as the action of the committee may be in proposing an all powerful judiciary committee, it can be explained in the light of past developments. There must be a definite check on factions—that is granted. If not, no remedy can be proposed, adopted, and put into effect. As the committee has found, too often factions propose men because their names are well known—athletic heroes or other campus idols—who have neither the time, inclination, nor ambition to make capable leaders. Evidently, when some such person is nominated for office, or at least, if the judiciary committee is of the opinion that he is that type of person, the factions are to be instructed firmly that he must not run. There may be protests—bound to be, in some cases. A fraternity with a favorite son thrown out of the running will scream at the top of its lungs. The factions themselves may raise charges of favoritism and dictatorial practice.

An answer to those charges seems to lie within the judiciary committee itself. Three women and two men are members. The women are not in politics—the men usually are not. But any attempt by any member who is in politics to manipulate the committee to his own ends can be blocked easily. In the interests of fair play and to prevent charges of illegal practice, however, it is imperative that the judiciary committee divorce itself from political activities. Its powers of review accepted, the next step is to keep that power in non-political, righteous hands. Only complete freedom from any affiliations can accomplish this. The issue is more a moral one for the members than is it a tangible one which can be decided in student council meeting.

The student council, if it ratifies the investigatory committee's resolution, will have taken a step in the right direction. All the problems of the factional system of politics will not be solved, but so many fail to lend themselves to any solution. There is still the question of subjugation of one superior man to another, if a case arises where there is a choice between two strong candidates for nomination, in order to keep peace and harmony within the ranks. That is a difficult question to decide by any means.

A step forward has been taken. This may be the initiative in a series of such moves which will eventually remove campus politics from the morass of unscrupulous practice into which it last year fell.

TOUR OF ELECTRICAL PLANT TO BE TAKEN BY ENGINEER CLASS

Student Electricians Examine Lincoln Hotel System. This Evening.

Making an inspection tour of the direct-current electricity generating plant of the Lincoln hotel will be the main feature on the program for the meeting tonight of the Nebraska branch of the American Institute of Electrical Engineers. This plant, one of the largest private direct-current plants in this part of the country, supplies current for the electric elevator, the ice plant, and the laundry equipment of the Lincoln hotel in addition to their lights and electrical appliances. E. E. Bell, chief engineer in charge of the plant, will personally conduct the engineering students thru the plant.

Because electrical engineering juniors are now studying direct-current machines, the trip should be especially valuable to them and Professor Bingham, adviser, urges all electrical engineering juniors to attend the meeting.

The speaker from the Northwestern Bell Telephone company, who was scheduled to speak at the meeting tonight, was forced to postpone his appearance because of conflicting engagements. Engineers will make trip. Members will gather in room 104 in the Electrical Engineering building at 7:30 o'clock. Before going on the tour a discussion will be held to decide where the annual all-day inspection trip will be taken. Either on October 22 or October 29 the engineers will make an all-day trip to one of three places: To Omaha, or to the Columbus Irrigation and Power Plant, or to Grand Island to inspect the Federal Radio Monitoring Station, the plant of the Central Power company, and the best sugar factory. After they choose their destination and arrange details of transportation, food, and other problems, they will go to the Lincoln hotel for the examination of the electric plant.

NATION'S FROSH FACE TURMOILS IN UNIVERSITIES

That the class of 1940 which in this month beginning studies at America's universities, is 300,000 strong nationally, averages 178.03 centimeters tall in New England, and faces such complex facts as a student body of 42,850 persons enrolled in New York university, a president at Harvard, who at the moment is on vacation in Europe, and difficult scenes at Columbia where striking members of the Brotherhood of Painters, Decorators and Paperhangers, joined President Nicholas Murray Butler's academic procession as it wended its way across the campus to opening ceremonies, is revealed in the current issue of Time magazine.

"Born amid the crash of arriving trunks and the scratching of multitudinous pens on official blanks, was an entity known as the class of 1940," the article reports. "Its 300,000 members, ac-

BAKER SELECTS SALES TEAMS FOR YEARBOOK

According to a survey made at University of Illinois, are better nourished and better developed than their predecessors. 87 percent of them being in good to excellent physical shape. "Its New England members, according to the Journal of the American Medical Association, are the tallest group of human beings in the world, 178.03 centimeters (seven ft. 10 in.). First official act of the class of 1940 as it gathered in its new colleges was to hear addresses of welcome and counsel from its new presidents."

Assistant Business Heads To Captain Divisions In Campaign.

To lend an air of real competition to the sale of Cornhuskers this year, the business assistants of the annual have formed teams to determine superiority in salesmanship, according to a report of Sid Baker, business manager. Each of the two assistant business managers will serve as a captain with a team of five members to aid him in the competition. Due to the sales campaign carried on by the Tassels and the Corn Cobs, the contest is expected to be an interesting one.

The opposing groups are as follows: First team, Howard Lynch, captain, Don Moss, Dean Worcester, Harold Ledford, Carter Gant, and Carl Cleveland; second team, under Captain Dave Bernstein, Eric Thor, Eric Constable, George Kimball, Stan Brewster, and George Tyner.

United States aviation exports for the first seven months of 1936 reveals a rise of about 30 percent over the same period last year. Aviation exports appear to be a rising business in more ways than one.

Nazi leaders have decided that any man who has lived to be twenty-six without getting married lacks courage and determination. Good judgment doesn't seem to enter into the argument.

Among the 600,000 titles owned by the University of Wisconsin historical library, three of them were printed before 1599 and 33 between 1599 and 1597. About 1,000 members of the American Psychological Association will be guests of the University of Minnesota in September 1937.

Groucho Marx, cinemactor, is in the market for a pair of trousers and all because he attempted to act as mediator in a fight between two dogs. Apparently the dogs rated him as just another ham.

A pig born near Charlottetown, Prince Edward Island, has the head of a monkey. Pork is high enough the way it is without having to look for it in trees.

PERSHING RIFLE PLEDGES 56 NEW BASIC MEMBERS

Rohrbough Scores Highest Rating; 75 Students Tried Out.

Pershing Rifles, basic drill organization, voted last night to accept 56 of the 75 students who participated in the tryouts held last week in Nebraska hall. Merrill H. Rohrbough of Omaha attained the highest grade of any of the students applying for membership. Rohrbough has experienced four years of basic drill at Omaha Central high school where he was a line captain.

Four students who tied for the second highest grade in the tryouts are M. Rosenberg, G. Goss, C. Hagar, and S. Adams. New members are chosen principally according to the grade they receive in the tryout tests. Army officers are called upon to grade the applicants on appearance, military courtesy and general knowledge and ability to execute basic drill movements.

Men to Be Pledged. The new men who will be pledged at the next meeting of the Pershing Rifles are as follows: S. Adams, R. E. Alexander, H. Armstrong, C. F. Ashby, H. Atherton, G. Benson, C. Birk, T. M. Bodie, S. M. Brewster and W. Cochrane.

R. F. Conner, B. T. Dalton, L. Dunker, T. Edwards, R. Flory, W. Gillespie, G. E. Goss, K. M. Gould, L. D. Griffing, K. M. Griffith, J. S. Grimm, D. E. Grossman, D. Gwynne, O. Hager, E. N. Hansen, R. Hollis, and Z. Hornberger. R. L. Jeffrey, R. R. King, R. Kinne, J. Laughlin, J. S. McKee, R. Molzer, J. U. Morse, B. Nelson, R. W. Nourse, A. Pearson, E. E. Phillips, H. Prouty, M. H. Rohrbough, M. Rosenberg, C. Rutledge, S. E. Selway, I. Sherman and G. Svoboda.

B. Taylor, H. Tool, J. Tupper, R. Weber, C. Wilson, E. Wilson, W. Williamson, J. Wolf, J. E. Younger and R. Zoehel.

Tests Tougher. According to Dave Bernstein, captain of the unit, the test governing acceptance of new members were more difficult and more strictly graded than ever before. "It is the desire of the officers to make this year's company the best in the history of the university," Bernstein declared. "We want to make this unit worthy of its position as the mother group of the Pershing Rifles."

Plans have already been made to enter one of the largest crack squads ever trained in the Kosmet Klub Fall revue. There will probably be 15 men in this year's squad. According to Bernstein, the unit has also pledged its support to the university military department in agreeing to sell military ball tickets.

OFFICIAL BULLETIN

N CLUB. N Club will meet tonight at 6:15 in the Coliseum for a dinner and business meeting.

KAPPA PHI. All Methodist girls enrolled in the university are invited to attend a social meeting of Kappa Phi Wednesday, Oct. 14, at 7:15 o'clock in Ellen Smith hall.

PRE-NURSE. Pre-nurses and pre-technicians are urged to attend an opening meeting, Friday, at 5 p. m., in Ellen Smith hall for the purpose of organizing the group for future meetings.

REPORTERS. All reporters of the Daily Nebraskan must be present for a staff meeting Saturday morning at 10:30 o'clock.

SIGMA DELTA CHI. Sigma Delta Chi members will lunch at the Grand hotel at 12 o'clock today.

LARGEST CONCLAVE OF PHYSICISTS OCT. 29-30

Emphasis Placed on College Research as Applied To Industry.

NEW YORK, N. Y. (ACP). What is expected to be the largest gathering of physicists in the history of the nation will be held in the special "founders meeting" of the American Physical Society, the Optical Society of America, the Acoustical Society of America, the Society of Rheology and the American Association of Physics Teachers on October 29-30. These societies organized, in 1931, the American Institute of Physics to coordinate their activities.

Particular emphasis will be placed on linking the pure scientific research of the university laboratory with the applications of such research in industry. The important applications of the science of physics to industry will be reviewed in papers by invited speakers. The wide range of the topics is shown by the list of a few of the titles: "Vibration in Industry," by Dr. J. P. Den Hartog, Harvard university; "Physics in Air Transportation," by Dr. Clark B. Millikan, California Institute of Technology.

Albright college students discovered that it takes about 11.7 seconds for shotgun "bangs" to travel two miles and one-half. The gift of \$250,000 to Mount Holyoke college will be used in the construction of a new chapel.

Louisiana State university boasts of 10 sets of twins this year in its female enrollment; the sets of male twins are far outnumbered.

Hunter college of New York is the largest school for women in the world. Its total number of students is 18,669.

Who Are The Best SWING DANCERS on the Campus? Fellows, vote for the girl who in your opinion is the school's best dancer. Girls, make your choice of dancers among the boys. To Each Winner—4 Passes to "SWING TIME," at the Stuart Next Week. The result to be decided at the Corn Cob—Tassel Party Friday Night. Best Male Dancer Is Best Female Dancer Is Deposit Ballots at Daily Nebraskan Office Before Noon Friday

MISS BUXMAN TO TALK TO FRESHMAN A. W. S.

Women to Hear Address on Qualities for Efficient Chairmanships.

Inaugurating the new system of rotating chairmanships, the freshman A. W. S. will hold its regular meeting Wednesday at 5 o'clock in the drawing room at Ellen Smith hall. Miss Elsie Buxman, secretary of the A. W. S. board will speak on how to become efficient chairmen.

In order that more women students may develop qualities of leadership, the A. W. S. board under the direction of Marjorie Crabill is starting a new system whereby students showing their interest in the freshman A. W. S. will have the opportunity to serve as chairman at some meeting. A name will be selected at each meeting and this girl will serve as chairman that day. Only girls who show their interest in the group will be selected.

Urging that all new women students who are interested attend the meeting Wednesday, Miss Crabill stated that important instructions will be given the girls by Miss Buxman.

Stanford university regulations keep the nearest bar five miles from student beer-drinkers.

Notre Dame University alumni are carrying on a nationwide campaign against communism.

A New York law allows those sentenced to 60 days or less to serve their time over the weekends. A sort of a Big House party.

Romance Language Library Is Showing Varied Paris Prints

"Paris at Night" in midnight blue tones, scenes of famous buildings and streets of Paris in tinted pictures, sepia prints, and black and white reproductions are being displayed for two weeks in the Romance Languages department library.

"Students in beginning French will find these postcards of special interest in connection with their reading since frequent mention is made of famous French places," stated Miss Marie Mengers, who invites all students of French to visit the display.

All the postcards were brought back from France by Miss Mengers, Prof. Harry Kurz, and Dr. James R. Wadsworth.

"The Colour of Paris" by the Goussart brothers, and "Paris" by Sisley Huddleston, will be in the library for circulation.
