### SEEN ON THE CAMPUS.

Mary Austin on the third floor of South, singing all the words to some Deit songs... 190 looks like a nice score to most bowlers, but when Betty Hillier rolls it that's really something... Prof. Scott snapping a peaceful soul out of a sound sleep by applauding noisily in his ear... Helen McLaughlin's new hat arousing considerable tongue wagging when she jaunted into class about 15 minutes late... the state basketball tournament and hundreds of letter sweaters blazing on the campus... yesterday it was just Phil and Barney, now it's Mr. and Mrs. Drummond; it didn't take long... Libby Broady sitting in the balcony during music convocation with her feet hanging over the edge, and trying to divert the young artists with buzzing noises... Prof. Lancaster remarking that if Noah had missed the boat all this wouldn't have happened... Frank Landis defending himself from Clutter Chatter by declaring that he was not alone in his efforts to stem the tide of campus politics, all he did was to stick his neck out the farthest...

### Seen On Ag Campus.

Richard Layson making all sorts of schemes to get back the twenty-two dollars he so generously gave away last week... Frances Weidess searching frantically for Wes Lipp... Miss Odell reading one of Gertrude Stein's writings—neither the class nor the teacher understood it... Reports out that for some very obvious reason Dick Coleman should head the Farmers Fair tanking list... Sarah Harmon and Nellie Lippett exploring every nook and cranny of the campus each noon as well as Saturdays... The new alarm clock seems to get Melvin Beermann to classes on time... It has been suggested that he bring it to class to keep him awake after he gets there... And then there's the girl who had to ask most of her biology class before she could find out what AGR really means... Paula Smith with an especially attractive new spring hat perched on the top of her head... Glenn Klingman not seen around any more—wonder where he's hiding out... Wouldn't Flossie Glandon set the pace for spring fashions if he had his golden locks cut short?—By Marion Hoppert.

### Mother's Meet for Luncheon.

Delta Delta Delta Mothers club members met at the home of Mrs. C. G. Stoll, with Mesdames M. W. Costelloe, E. M. Pollard and Alva Simpson acting as assisting hostesses. The group of 25 was seated for luncheon at one table centered with orchid snapdragons and sweetpeas. The afternoon was spent sewing for the chapter house. Musical selections were presented by a trio composed of Mrs. H. E. Holland and Mrs. Wayne Farmer, violinists, and Miss Eva Phillips, pianist.

### Former Student Announces Marriage Plans.

Marilyn Foster, daughter of George C. Foster of Milford will be married Friday to Wesley A. Matzke, son of Mr. and Mrs. F. F. Matzke, also of Milford. Miss Foster was a former student at the university. After their marriage the couple will reside in Murdock.

### Beta Alliance Entertained By Puppet Show.

Beta Theta Pi alliance was entertained at the home of Mrs. C. H. Arnold at the regular monthly meeting. Miss Majorie Shanafelt presented a puppet show. Preceding the entertainment was a luncheon at which the 24 members were seated at a table centered with calendars. Assisting hostesses were Mrs. J. D. Webster, Mrs. Carl Stein, Mrs. Max Meyer, Mrs. Bert Forbes and Mrs. E. M. Cramb.

### Ideal Week Features Banquet.

As an event of the Delta Delta Delta ideal week preceding initiation Saturday the pledges were entertained at a banquet Tuesday by their sorority mothers.

### Founder's Day Banquet To Be Held.

Pi Beta Phi will hold their annual founder's day and initiation banquet Saturday evening at the Cornhusker. About 100 are expected to be in attendance. The Omaha alumnae group is in charge of the arrangements for the affair.

### Honorary to Entertain At Sunday Tea.

Mu Phi Epsilon active chapter will give a musical tea Sunday afternoon from 5 to 5:30 at the Alpha Omicron Pi house. The program is to be presented by Catherine Cox and Mary Janice Meneray. In charge of arrangements

## SCARLET TRACKMEN TAKE PART IN FIRST OUTDOOR WORKOUT

### 25 Cindermen Get Used to Stadium Breezes in Day's Practice.

Old Man Sol made his appearance yesterday and Coach Henry Schulte's Big Six indoor track champs made good use of the genial weather by taking the first outside workout of the year. Some 25 runners donned track suits and took several trips around the stadium cinderway in order to acclimate themselves with the breezes.

Ability of the Huskers to come thru in tight places was plainly evidenced last Saturday as they captured the indoor crown. The Nebraskans placed 13 contestants for the final rounds, and four of them, Sam Francis, Fred Matteson, Bill Gish and Lloyd Cardwell, emerged as champions. Francis and Cardwell retained their shot put and low hurdles honors, respectively, from last season.

**Gish Skims Hurdles.**  
Bill Gish's '08 in the 60 yard high hurdles was good enough for a first while Fred Matteson's 4:30.8 gave him the honor of being the 1937 mile king. Gish is a junior and has another year of varsity competition left, while Matteson will be given his sheepskin this June after having earned three letters as a distance runner.

On April 3, Coach Schulte will send several of his outstanding performers to the Texas Relays at Austin, Texas. Outdoor team competition officially commences April 10 as the Huskers play host to the powerful University of Minnesota track squad. Last season, the Cornhuskers literally swamped the Gophers.

**Nordics Loom Up.**  
However, signs do not point to such a decisive victory this year for the Nebraskans over the Minnesotans. The Nordics seem well fortified this year in practically all events. The satellite of the Gopher track squad is Capt. Dominic Krozowski. Big Ten shot put king, Krozowski has been shoving the iron ball around 48 feet with tiring monotony and regularity. Should both Francis and Krozowski be at their finest fettle in the Husker-Minnesota dual here, track fans are sure to see a battle royal for the first place in this event.

Verran is one of the visitors' best sprinters and has been timed several times at .063 for the 60 yard dash and has Hepp as his partner. Dave Gustafson and Bob Hubbard are Gopher high jumpers of no little popularity.

Upperclassmen at the University of Buffalo are not required to take any courses but those they desire.

A report compiled by the Minnesota Association of College Registrars shows that 23,350 students are now attending Minnesota colleges and universities. An increase of 5.7 percent over last year's enrollment.

Vari-colored lights of different degrees of brilliance affect growing plants in different ways, say Prof. Robt. E. Withrow of Purdue university's horticulture department. Some hasten maturity, others strengthen the stems, and still others stimulate seed production.

Lehigh university chemistry students break more than 14,000 test tubes every year.

## Around Washington

By Marvin Cox.

WASHINGTON, D. C.—This city is teeming with rumors, reports, inside information and fantastic schemes concerning the President's proposal to enlarge the Supreme Court and overhaul the federal judiciary machinery. Nobody knows what the final outcome will be, so one guess is as good as another. Washington hasn't enjoyed itself so thoroughly since the hectic days of the NRA.

One argument advanced by proponents of the re-organization scheme may interest prospective lawyers, now in college. Here it is: Well established law firms now have more business than they can attend to. This results in their requesting the courts for continuances of their cases. The courts being very crowded are glad to grant these requests in most instances. Meantime, younger lawyers, just as good as the members of the noted firms, struggle for an existence.

The president's plan, say one group of proponents would improve this situation for the young lawyer. By increasing the personnel of various federal courts, the judicial process will be speeded; continuances will be more difficult to secure; big firms cannot take more cases than they can handle because they will not be able to get the postponements that they receive now. Hence, more clients will find their way to less well known law offices and the young barristers, with ample time to prepare their cases promptly, will get more legal business.

Maybe this is a bit far fetched, but this is an argument being used in favor of the reorganization plan.

## Paging The Smart Coed

Only a minority of the women and girls in this country have oily skins, but certainly they have the majority of skin difficulties. An oily skin means, usually, not only a continuously shiny nose, chin and forehead, but also, alas, large, coarse pores, blackheads and occasionally acne.

If you have an oily skin you should begin immediately to correct it. Do not think that a half inch layer of powder applied at twenty minute intervals is sufficient to take care of the difficulty. Powder may remove the shine temporarily, but will never go to the root of the matter.

A normalizing treatment that will remove excess oil and stimulate at the same time is what you should have. As in every good treatment for the skin, cleansing is the first and most important step. This cleansing, in your case, should be with a pore deep wash like beauty grains.

Beauty grains not only clean the surface of the skin, but also go deep into the pores to remove accumulations of the fatty secretion which makes your face shine and frequently develop blackheads. The oil at the surface is cut, and your skin is left fresh and glowing as you have never before seen it.

For still another reason I recommend beauty grains as the ideal cleanser for the oily type of skin.

These small imported granules do their job gently as well as thoroughly. Use a harsh alkaline cleanser on your face and at the same time you get rid of the surface oil you will irritate the skin so much that a more than usual amount of oil will immediately be manufactured by the skin. Use beauty grains, and the oil with its resulting shine is removed while the skin remains fine and transparent looking.

This pore deep cleanser should be used at least three times a week in your final clean-up for the day. But if your skin is exceptionally oily, the beauty grains may be used with advantage every night.

Try this washing treatment once and you will continue with it always. It will help to normalize your skin at the same time it beautifies it.

By Helena Rubenstein.

## College World

The survey of John R. Tunis, author of "Was College Worth While?" looks like "a prospectus for a new mining company" compared with mine, says Fundit Robert Benchley.

In "Sobering Statistics," a column in "The Twelve Twenty-Five Express," a special publication of the class of 1912 of Harvard university, the noted humorist affirms:

"Mr. Tunis, you will remember, took a good look at his class 20 years after graduation from Harvard, and found that practically nothing of value had been accomplished by its members in a quarter of a century."

Benchley, a graduate of the 1912 class himself, reported that the class produced only one Bishop of Albania, "or at any rate only one Bishop of Albania who later became prime minister."

"If I were a calamity howler," he continued, "I could show that 72 percent haven't got \$3,000.000 to their name, 91 percent can't juggle and that we haven't a single president of the United States."

And on the postoffice bulletin board of the University of Minnesota: "New Books at Sacrifice. Students quit school to get married, so what? I'd like to sell the books."

Blackburn College males pulled the wool over their own eyes—wool or cotton, before going to the last dance of the semester. It was an informal "sweater affair" with no suits allowed.

Daughters and sons of business men make up more than half the student population of Carleton college.
