SEEN ON THE CAMPUS.

It might be a good idea if the A. T. O. who uses the muscle builder every night pulls down his shade before his identity is discovered. The Beta's were a mite surprised the other evening when they were serenaded by the Phi Psi's under the very capable leadership of Al Souderes. We hear that the waitresses at the Pasty were plenty perturbed Saturday when Jay Ramsey, Sigma Nu, started having fun with chocolate pie and stuff. A group of Phi Deltas looking into a yawning hole and indulging in a few dreams of the house to be. Dick Paul still being reticent about the way his face got to the present battered state. It may be the magazine articles advocating a sylph-like figure for spring but Doris Brisco and Lois Dietrich are dieting in a big way and begrudging every bite the sisters take. Dave Bernstein's new pale green felt hat seemed a size too small after Kay Hendy made a few admiring remarks. Margaret Bilby and Ruth Houston limping up and down stairs, suffering from the effects of a recent horseback ride.

Seen On Ag Campus.

Darrell Bauder insisting on exploring the second floor of one of the sorority houses—doesn't he know it's considered "No Man's Land"? From girl Adrienne Griffith posing as "Calamity Jane" with Leo Cookley as "Wild Bill Hickok" the other night. Lois Lichter with Adrian Lynn at the spring party. LeRoy Hultquist relying on the brothers to remember the name of his Friday night date. Betty Stewart still can't make good Swedish coffee, so Howard says. Prof. H. P. Davis the most popular chaperon on the campus. Practically all of Ag college crawling out of bed and going to the seven o'clock pre-Easter breakfast. Farmhouse fellows coming in shifts to English classes. It's your turn Wednesday, Chris Sanders. Roger Cunningham and Erik Thor taking advantage of the masquerade ball to appear with someone different. Thane Davis startled to find some men cruel enough to command that their wives be put to death. Everyone planning to turn out for the rally Tuesday night. The rumors that it is to be extra special good seem to have convinced even the most studious people that they should come.

WHEN IS A SKUNK NOT A SKINK? ASK ANY WPA IOWAN

There's a lot of difference between a skink and a skunk. True, both are black and white stripes, but it's a lot more fun to jerk the tail of a skink. A skunk is—well, a skunk. But a skink is a lizard, a very uncommon lizard, which has been found hibernating in Iowa for the first time.

When you yank the tail of a skink, he snaps it off and scurries away. At least that's what one did that Thomas Scott, Iowa State College extension wild life conservationist, tried to catch. This skink was one of more than 50 found by WPA workers in a gravel pit refuse pile in Palo Alto county. The skinks were hibernating in a compact mass the size of a football about 4 1-2 feet below the surface.

Harmless to everything but insects, the skink is so uncommon a lizard that very little is known about it. Like other lizards, it is covered with scales.

DR. HOLCK TO DESCRIBE USE OF BAR BITURATES

Dental Association to Hear Talk on New Discovery Wednesday.

Dr. Harold Holck of the pharmacy college faculty will address the meeting of the Lincoln District Dental Society at the Cornhusker hotel March 25.

He will speak, he said, on the old and new bar biturates. These medicines are used by dentists to quiet the nerves of nervous patients, and in recent years to produce brief anaesthesia. Some patients become very afraid when they have to have dental work done. The bar biturates soothe their nerves. The effect produced upon the patients is very much like hypnosis, which is also used by some dentists.

Miriam Hopkins says:
 "My throat welcomes Luckies—my favorite cigarette for 5 years"

"Luckies have been my favorite cigarette for about 5 years. They're a light smoke that sensitive throats welcome. Of the many trends that sweep through Hollywood, one of the longest lasting has been the preference for Luckies. I once asked a 'property' man—who supplies cigarettes to the actors—what the favorite is. He answered by opening up a box containing cigarettes. They were all Luckies."

Miriam Hopkins
 STAR OF THE RKO RADIO PICTURE "THE WOMAN I LOVE"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Hopkins verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
