INSTITUTION LEVY BILL ADVANCED BY LARGE MAJORITY

(Continued from Page 1.)
posal was pointed out by Senator Robert Armstrong, disclosing that the actual levy would be reduced to thirty-five hundredths of a mill. "That is equivalent to the tax on 35 gallons of gas," Armstrong contended, "and it's worth that to save our state institutions."

Cautions Against Tax Increase.

Declaring that altho the bill should have been passed ten years ago, Senator Schultz cautioned the legislators on the addition of taxes in the face of existing economic conditions. He stated the present condition was largely due to the policy of a former governor of "cutting appropriations below operating costs."

Senator Lester Dunn added his support.

Senator Lester Dunn added his support, declaring that "members may look with pride to the record if we don't do another thing than pass this bill, when we are questioned back home on the accomplishments of the unicameral legislature."

To Vote on Diers Amendment.

An amendment to the bill, to be prepared by Senator Theodore Diers, will be voted on when the bill is in special file, providing for the erection of five national guard armories at a cost of \$155,000.

Speculation over a possible gubernatorial veto.

Speculation over a possible gubernatorial veto if the bill passes was voiced by observers, who pointed out that a three-fifths vote was necessary to tack the emergency clause to the bill or pass it over the governor's head. FIRST DAY SALES OF DUCATS MAKE KLUB OPTIMISTIC

(Continued from Page 1.)

Iverson, the play is speeding to perfection. The first joint rehearsal of the pony choruses and the play cast was held Sunday night, and Director Iverson was pleased with the showing. "The play is naturally imbued with all the properties that make for a successful production," Iverson declared, "and with the cast that we have selected, it is beyond improvement. I personally guarantee that with comedians like Kermit Hansen, Thurston Phelps, and Everette Deger, any audience will be amused through the show."

Good Songs.

Iverson was equally enthusiastic concerning the songs for the show of which there are nine. Beck-Jungbluth's orchestra has been hired and the orchestra's arrangers have already begun work on the orchestrations and the overture medley.

Under the supervision of Web Mills, Klub member who has been in charge of making scenery for the show, the sets will be taken to the workshop in Temple theatre where Charles Rogers of the University dramatics department will begin painting them. The entire play is produced with one scene, that of a typical ranch hacienda in southern Arizona. It is definitely of Mexican architecture, with many arched doorways and balconies, with plenty of palms in the vicinity and a high wall surrounding the house.

Philip Merivale says: "My throat's grateful for Luckies —a light smoke"

"In one of the first important parts I did in America, the play called for a long and very trying individual performance. In every scene for five full acts I was on stage talking almost continuously. The strain made it imperative that I safeguard my throat and voice. After trying different brands of cigarettes, I came across Luckies. They stood the test and for many years now I've enjoyed them. I like the taste of Luckies and my throat is grateful for a light smoke."

Philip Merivale

THE FINEST TOBACCS— "THE CREAM OF THE CROP"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Mr. Merivale verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
