### BY ED STEEVES.

A letter came yesterday that plucked a tune on our heart strings; it plucked because we find

that we have another reader. Signing his name "A Boxing Fan," the correbrought some sports

ally, omitted all year. Says he! To my notion, Nebraska is developing a well rounded sports program, but is not being fair to

but accident-

"I am only a fan, but I think that Nebraska could have a very good boxing team with a little in-terest and effort. LETTERS ARE AWARDED IN EVERY SPORT BUT BOXING which is one of the main reasons it is undeveloped as a sport here and is also unfair. In the few years the University of Wisconsin has had boxing as a sport it has developed a drawing capacity of over 9 and 10 thou-sand people. Boxing right here in the interclass matches outdraws wrestling matches, yet no effort to back this sport has been made

"We have many good fighters to choose a team from, more than most schools, and would have many more if any support was given to the interest of box-What school could boast of a much better team than Heavyweight, Lester Mc-Donald, football end; light heavy, Bob Mehring, football guard; middleweight, Al Simpson, former state champion; welter weight, Tom Body, Y. M. A. champion; junior welter, alph Meigel, brother of Ralph Meigel, brother of Charlie; lightweight, Charlie Meigel, national A. A. U. runfeatherweight, Ernie Grossman; and Bantam weight, James Knight, I think this team could stock up with most of them and there are many other boxers in school that may be better than these men. I would like to see you give boxing some support and with some help it might easily be made a more prominent sport here on the university campus. I am sure it would more than pay for itself

financially." The queer part about this fan's ently. letter is that every word of it is true, and then some. This school good

ing teams out for competition, but s p o n d e n t also many more experts in the art ght some material id that we o efficient-o efficientadept leather pushers.

Boxing, it must be admitted, is one of the major sports of the world in general; why not here? Think of the fuss that Madison Square's multitudes make hours before the too few gates are swung open for the boxing fetes. In the lineup of all athletics in America darold Matthews, one sport and baseball second, and then boxing.

Recognizing this as so, why does football probably heads the list. Recognizing this as so, why does the ring sport take the caboose at Nebraska? Our fan has al-ready attempted to show that it wasn't lack of talent.

Basketball, a few years back, received the same snubbing from publicity departments and con-sequently the state's better athletes sent off for catalogues to other schools and bleachers were as unnecessary at basketball games as beds in a fraternity. A little support came, and now take a gander at the Husker position in cagedon. The same could be done in boxing.

As for the non-awarding of letters, that is one of these Nebraska mysteries like the persistence of U. hall. True enough, an athlete competes for the fun of the game; but don't forget that all could records come under pressure, when the hero worship is behind them.

We were about to say that boxng was the best game for a real "he" man and then we came upon an account of the dastardly deeds of hockey, not represented on this campus.

Charlie Conacher, right wing of the Toronto maple leafs, carried for the league five title which ently iced the game as they added around more injuries on his per-ended the regular season with three more runs for a 7-4 lead. son in seven years than an ambulance. In 1930 his hand was punctured by a skate and blood poisoning followed. That same year, due to a skating injury, he was forced to undergo a kidney operation.

In 1933 someone jumped on his collarbone and fractured it effici-

true, and then some. This school good in '34 and he broke his other not only has one of the better box- hand in '35.

Once again his shoulder bore the brunt as 1936 pulverized his HOME FROM RELAYS; shoulder.

All he got out of this last year was a badly bruised bone in his

right hand, Of course all stories have to go beyond belief so we give you this: Conacher led point and scoring records in 1933, 34 and 35 and hung up all time record in scoring with 36 goals in 1934.

## Acacias, Delts, Win in Softball Games Monday

Crews Advance to Semifinals.

Delta Tau Delta and Acacia matched strides toward the soft- Jensen, and Petersen combined to ball crown as they took decisions from their foes in yesterday's Greek intramural games. Both teams advance into the semifinals as a result of their triumphs.

competition as it pounced on Davis pitching for Farm House for a 3-2 victory. The ag college boys started out like they were really in earnest about winning the game as they pushed Jacobsen and Girardot, the first two men up in the opening canto, across the plate. However, Bob Parsons, on the mound for the Delts, hitched up his belt and proceeded to blank the Farm House squad for the remainder of the five inning game. The Delts took up a little slack in the second inning to score a run and followed in the fourth for two more and the one run margin to win the game.

Acacia's Take Title. Acacia won the deciding game winners won the game in a spec-Acacia started the scoring with A broken wrist was all he could three runs in the second frame as the plate. They held the Phi Gams hill for the losers, scoreless until the last of the fifth.

Two Fraternity Diamond bats produced real thunder in the fifth inning as six runs crossed the platter on four walks, three hits, and an error. The Phi Gams count-ers came in the last half of the same canto as doubles by Sisson and Grant and singles by Housel, turn in three runs. Elmer Bauer on the mound for the losers was ineffective against the slugging Acacias who were hot on the trail of their second consecutive Jack To Delta Tau Delta went the Best trophy, emblematic of the fastest game played in this year's intramural championship. THREE from seconds and thirds or lower.

Four Sports Unplayed. Remaining either incomplete or unplayed are golf, track, tennis and baseball. Forecasts at this point are difficult, but intramural officials have their conception of

the race from here on out. With only forty odd points dif-ference between the first three contenders and each with possibilities in remaining sports, it looks like anybody's cup, so say the dignitaries in charge. Acada, now leading, has little chance in gold or tennis, but their opportunities in track and baseball are unlimited. Should they come through in at least second spot in both. they would have the cup.

Sigma Nu will be defending her track title this year with a duplicate team of last year and her golf team seems to have the situa-tion well under control. As for baseball and tennis, they snared only a few points. If they come through as expected they will

cause Acacia plenty of worry, As for the only other contender, A. T. O., they have a good chance to better themselves in track and tennis. However, their wholesale collection of large totals seems to be concluded.

### GEOLOGISTS HOLD

Honorary Members Attend Banquet Saturday

Sigma Gamma Epsilon, honorary geology fraternity, held its annual banquet last Saturday evening at Carl's Annex cafe. Members of the active chapter, alumni of the organization, and faculty members in the department

geology attended the dinner. Herb Yenne, member of the department of speech, gave a short talk on the affair. He concluded his speech by presenting a read-
