

The Nebraskan

THURSDAY, JUNE 17, 1937.

LINCOLN, NEB.

EDUCATORS PLAN CONFERENCE HERE JUNE 22, 23, 24

Educational Guidance Is
Theme of All-State
Annual Meet.

Guidance, its concepts, its technique and the agencies responsible for its success will be the theme for the fourth annual all state educational conference to be held in the Temple theater of the University of Nebraska, June 22, 23 and 24. Dr. George W. Rosenlof of the teachers college faculty, is the chairman in charge this year, and assisting him in the arrangement of the meeting are Charles A. Bowers, secretary of the Nebraska State Teachers association; State Supt. Charles W. Taylor; Dean F. E. Henzlik of the teachers college; and Professors Lucivy M. Hill, C. W. Scott, Clara O. Wilson and D. A. Worcester, all of the teachers college faculty.

The committee is bringing to Lincoln several of the country's renowned educators, including Dr. William E. Blatz, director of St. George's School for child study at the University of Minnesota; Dr. Carroll R. Reed, superintendent of schools at Minneapolis; Mrs. C. E. Roe of the national congress of Parents and Teachers of Washington, D. C., and Dr. Herbert A. Toops, professor of education of the division of statistics in college personnel at Ohio State university.

Nebraskans On Program.

In addition to the out of state speakers several Nebraskans who are prominent in the educational field will appear on the program. Miss Goldie Carter, of the personal counseling service of the Y. W. C. A. at Omaha, Miss Grace McLain, dean of the girls at the South high school, Omaha; Dr. C. W. Scott of the teachers college; Miss Gladys R. Shamp, state director of NYA, Lincoln; Dr. Dewey B. Stuit of teachers college faculty, and Miss Harriet Towne, director

EXHIBIT OF BOOKS TO BE LARGEST YET

The largest exhibit of school books and supplies ever to be held here will be on display in Grant Memorial hall from June 21 to July 2. The exhibit is the 15th of its kind to be brought to this campus annually in conjunction with the summer session.

It was announced that representatives of supply companies will be on hand to guide and explain how each item fits into modern curriculum building. All leading publishers will be represented.

DAIRY SCIENCE ASSOCIATION TO CONVENE AT UNIVERSITY

Lincoln and the university will be entertaining dairymen from over the world when the 32nd annual convention of the American Dairy Science association convenes on the agricultural college campus June 21 to 25, one of the largest and most important national meetings ever to come to the city. Several distinguished experts in the dairy field will appear on the program, including such important names as Prof. H. Wenzel Eskedal, experiment leader of the Royal Agricultural college and experiment station, Copenhagen, Denmark; J. Rockefeller Prentice, grandson of the late John D. Rockefeller and president of the American Dairy Cattle club; Prof. H. W. Gregory of Purdue university; Prof. L. E. Casida of the University of Wisconsin; Dr. T. S. Sutton of Ohio State university; R. R. Graves of the bureau of dairy industry of the United States department of agriculture; Dr. A. C. Dahlberg, Geneva, N. Y., editor of the Journal of Dairy Science, and J. C. Marquardt of the New York agricultural experiment station. Both Marquardt and Dahlberg are elected to address the world's dairy

ACTIVITY KEYNOTE OF MUSIC COURSE

Young Musicians to Have
Almost Every Minute
Occupied.

Activity is the keynote of the all-state high school music course that got under way Monday when over a hundred young musicians from all parts of Nebraska registered for the four week program. From the second day, when the high school students enjoyed mixed sports, they have had practically every minute occupied. On Wednesday a musical was held at the Pi Beta Phi house, which is serving as the girls' dormitory during the summer, in which the old students took part.

A radio broadcast from station KOIL is scheduled for today, as well as open house at the girls' dormitory. Friday evening a get-acquainted mixer will be held at the Pi Beta Phi house. Miss Frances Stowell, Miss Lila Mae Jackson, Mr. and Mrs. Lowell Devoe, and Mr. and Mrs. Howard Kirkpatrick will be chaperones at the affair. Guests will be George Howerton and Forrest L. Buchtel.

BELIEVE OVER 1,400 ARE NOW REGISTERED

Unofficial Figures Show
Total Close to That
Of Last Year.

By GEORGE KIMBALL.

As the first week of classes drew to a close Wednesday, it was unofficially estimated that over 1,400 students had completed their registration in the university summer session. The latest official report stated that 1,398 students had registered by the opening of classes last Thursday.

At the same time last year, the total was 1,471. Further official figures were unavailable Wednesday. It was expected that late comers would bring the total for 1937 somewhere near last summer's ultimate total of 2,110. Among those who register late are graduate students, who have until June 12 to register, nurses at Omaha, stragglers and others. The figure given a week ago includes 150 early registrations, 440 on Tuesday, 775 for Wednesday, and 33 at the Ashland engineering camp.

Almost a week of late registrations at the university Teachers college high school has brought the total to 120, it was announced Tuesday from the office of Prof. Morton, principal. This figure is exactly the same as the 1936 total.

congress in Berlin later in the summer.

Reservations have been pouring in upon Prof. H. P. Davis, chairman of the department of dairy husbandry at Nebraska, and chairman of the program committee, and advance indications point to attendance of 1,000 or more for the five day conference. The association numbers more than 900 active members and of this number 500 or 600 expect to be in attendance. Adding color to the dairy festival are the reservations received from delegates from Saskatchewan, British South Africa, New Zealand and Denmark.

This year a great many new and important features have been added and a greater number of papers have been submitted. Out of a total of 140 papers submitted 125 were finally selected to be read on the program, representing 26 different states and the District of Columbia. For the first time in the history of the organization, officials found it necessary to provide for two sections dealing with manufacturing.

The bureau of agricultural economics at Washington has scheduled

MASTER TEACHER

A. H. WATERHOUSE.

A. H. Waterhouse, superintendent of schools at Fremont, who was selected as the first Nebraska Master Teacher, will be honored at a dinner Friday evening. Superintendent Waterhouse is completing his 50th year in the profession and was selected by a secret committee according to a plan originated by Russell Peters, managing editor of the Omaha Bee-News, as being the one individual who exemplifies the ideals of the teaching profession.

Mr. Peters' plan includes the honoring of the person selected at a public dinner in his own home town. The purpose is not to particularly honor the individual but to honor the profession and select the one exemplifying the best in that profession.

All civic groups in Fremont are cooperating in the plans for the dinner in honor of Superintendent Waterhouse and all citizens, particularly members of the profession are invited. The dinner will be held at the Pathfinder hotel. No advance reservations are necessary.

Superintendent A. H. Staley, of Hastings, and Dr. W. H. Morton of Teachers' College are to be the speakers. The program will be broadcast over KFAB from 8 till 8:30.

Interest of High School Students Noted by Buchtel

"It helps each student to improve himself," Forrest L. Buchtel, nationally known band and orchestra leader, said when questioned on the all-state high school music course. Mr. Buchtel, who has had a wide and varied experience in the field of public school music, expressed himself as particularly gratified at the fine spirit and interest shown by the Nebraska musicians.

The purpose of the course is two-fold, he declared. The individual work of the student is improved thru eight private lessons, two each week, and his ability to fit into groups is increased through sectional and ensemble drill. "The musician learns something in the private lessons, then learns how to apply it in the ensemble work," Mr. Buchtel said.

Remarking that when Nebraska started the summer music period four years ago it was among the first of its kind in the nation, the leader said the university still has a superior feature in the private lessons which are omitted by many similar courses. He explained that high school musicians often find individual instruction hard to get since one teacher must often teach everyone. "The more talented go home from here as virtual assistants to their instructors," he said.

"In one day of drill our groups have improved immensely," he continued, "and each student appears to be working with keen anticipation toward the final concert."

Mr. Buchtel is an instructor at the Vander-Cook school of music in Chicago and at Amundsen high school there. He writes a column, "Keeping Pace With The Publishers," for the School Musician magazine.

HAUN'S BAND TO PLAY FOR FRIDAY PARTIES

Prof. Lantz Plans Weekly
Dances to Be Held
in Coliseum

Dave Haun and his 12 piece orchestra will again furnish music for the all-university mixers which will be held every Friday evening during the summer session from 9 till 11:30 o'clock in the coliseum. Announcement of the continuance of the Friday evening dances was made by Prof. E. W. Lantz, director of recreational and social activities.

"All students are invited to attend the dances," stated Miss Gertrude Leavitt, who is assisting Mr. Lantz with the summer program. "Since the weather is cooler this season, it will undoubtedly be more pleasant than last year. The price is only 10 cents."

Last year the largest attendance

REGENTS GRANT LEAVE TO PROF. AYLSWORTH

Several Faculty Changes
Approved at Recent
Meeting.

Several faculty changes for the coming school year were approved by university regents recently. Prof. L. E. Aylsworth of the political science department was given sabbatical leave for the first semester to do research in the field of state and county government with special reference to Nebraska.

Within the department of mathematics and astronomy several changes were approved. O. C. Collins, instructor, who has been on leave for study for the past two years, will return to the department in place of Carl F. Rust, who will do graduate study. Joseph D. Novak, assistant instructor, was promoted to instructor in place of Dr. Ansa A. Stafford, who has resigned.

Three new appointments were approved by the board. John A. Pfanner, now a graduate student at Chicago, was named instructor in economics to take over the work of Dr. G. O. Virtue who has retired. Mr. Pfanner received his A.B. degree from Dartmouth and his M.A. from Chicago. Dr. Samuel Eppstein was named instructor in biochemistry in place of Dr. Howard C. Spencer. Dr. Eppstein, who is now research fellow at the University of Illinois, received his A.B. from Chicago and his Ph.D. from Illinois. Lloyd J. Marti, Lincoln attorney and graduate of the University of Nebraska college of law, was named lecturer in Nebraska practice for one year to carry part of the work done by Prof. L. D. Coffman who will be on leave.

PROF. VOLD'S SON GETS FELLOWSHIP

Dr. Robert D. Vold, son of Prof. Lawrence Vold of the University of Nebraska law faculty, has resigned his position as research chemist with the Procter and Gamble company at Cincinnati, to accept a post-doctorate research fellowship at Stanford university, Palo Alto, Calif. Dr. Vold received his A. B. and A. M. degrees from the University of Nebraska, and was awarded his Ph. D. degree in 1935 by the University of California. Mrs. Vold and he expect to spend several weeks this summer with his parents, Professor and Mrs. Lawrence Vold, at their summer cottage at Rainy Lake, Minn., while enroute to the west coast.

Size of Thesis Paper Now 8 1/2 x 11 Inches

Graduate students who plan to present theses in final form this summer will please note that the size of thesis paper has been changed. The accepted size is now 8 1/2 x 11", regular letter size bound paper.

FRED W. UPSON,
Dean of the
Graduate College.

ALL-STATE MUSIC CLASSES ATTENDED BY MORE THAN 100

Howerton, Buchtel Assume
Direction of High
School Group.

Their eyes turned to beckoning, rosy-hued horizons, 102 high school boys and girls from over the state were happily and earnestly engrossed in the daily musical routine offered by the university's fifth all-state high school course in band, orchestra, and

F. F. Buchtel G. R. Howerton

chorus. Registration and classes began the same day—Monday—and group instruction as well as private lessons were in full swing by the middle of the week. The course will continue until July 9.

Under the tutelage of two of the country's most distinguished musical educators, George Howerton and Forrest Buchtel, plus the expert services of the school of music's own artist faculty, the musical achievements of the young artists during the four weeks' course should be so pronounced as to arouse the enthusiasm of not only parents but the most casual observer.

Mr. Howerton, director of music at Hiram college, who is na-

STUDENTS MAY USE BRANCH LIBRARIES

Departmental Books and
Main Hall Are Open
To All.

Departmental libraries as well as the main library with its more than 300,000 volumes will be available to university summer school students this year. In addition to the lending and reference library on the main floor of Library hall, there is a reserve reading room on the floor above. The departmental libraries available are the engineering library in Mechanical Arts hall, the agricultural library in Agricultural hall, the botany library in Bessey hall, and the teachers college high school library.

LIBRARY HOURS

Main: 7:30 a. m. to 10 p. m.
Monday thru Thursday; 7:50 to
6 p. m. Friday and Saturday.
Botany: 9 to 12 Monday thru
Saturday.
Agriculture, engineering and
teachers college high school:
8 to 12 and 1 to 5 Monday thru
Friday; 8 to 12 Saturday.

Students in the university may take out, for two weeks, any books which are not reserved for reference or class use. Books on reserve may be used only in the library for periods of two hours; or they may be taken out from 9:30 p. m. until 8 a. m. the following morning.

All books loaned are subject to recall at any time. If books are not returned on the date due, a fine of five cents a day is charged. The fine for keeping reserve books overtime is 25 cents for the first hour and 5 cents for each succeeding hour.
