Recreation Plans Include
Also Tennis, Golf
Tournaments.

With about two weeks of practice to their credit, the men's and girls' softball teams are planning several games with teams from surrounding towns. The men's team will play a game with Bethany this evening at Bethany. About 20 have been practicing every evening, and several other games with outside teams have been scheduled.

Both golf and tennis tournaments, under the leadership of Howard H. Hill, are well under way. Those interested in participating either in the golf or tennis competitions should leave their names, along with telephone numbers and addresses at the office of Professor Lantz in Teachers college before Friday, July 9, at 4 o'clock.

In the golf tournament two flights have been arranged, the presidents' flight and the vice presidents' flight. Qualifying scores must be an average of two rounds. Pairings will be made by July 12 and play will begin at once at the Antelope course, it was announced by Mr. Hill. Match play will be the order and there will be a minimum of 18 holes with the ground rules of the club prevailing.

Golfers already entered are J. Stover, Warren Baller, O. H. Werner, I. J. Montgomery, Paul Haynie and Alfred Scheips.

In the tennis tournament pairing will be made and announced by July 12. The following tournaments will be held provided there are eight or more entries in each class: (1) men's singles, (2) men's doubles, (3) women's singles, (4) women's doubles, (5) mixed doubles.

Tennis filings to date include D. Perry, Fred Holbein, Louis Gibb, Al Calvert, Van Miller, Merle and Evelyn Stoneman, Fred Koch, Vivian Cottingham and Frances Steele.

BULLOCK SEES METHOD OF GETTING ALL SENIORS JOBS

Since it is to Nebraska's interest to retain her college graduates, Prof. T. T. Bullock of the college of business administration believes that by proper planning, Nebraska firms can arrange their employe additions so as to take advantage of the products of our higher educational institutions.

According to the university professor, the greatest difficulty encountered is that Nebraska firms are in the main, small and vacancies in most cases occur during the school year when no graduates are available. Professor Bullock, who is the personnel representative for the college of business administration, says that members of this year's June class, for example,

Last of Series of Lectures
To Be Presented Friday
By Dr. MacNair

All 11 o'clock classes will be dismissed Wednesday so that students may attend the convocation in the Temple theater, at which time Dr. Florence Ayscough MacNair will speak on "Chinese Ladies, Ancient and Modern."

The lecture is one of a series of five on "The Crisis in the Far East," three of which have been given this week by Dr. Harley F. MacNair, of the University of Chicago. The latter will give the last in the series Friday morning at 8 in Social Science auditorium. His topic will be "The American Angle."

In his lecture Monday morning on "The Chinese Angle," Dr. MacNair explained that present confusion and unrest in China is due to two forces, an internal cultural conflict and the struggle for control of China between several foreign powers.

The desire of the Japanese to prove their superiority over all other nations and races was given by Dr. MacNair as one of the most important reasons for that country's aggressive policies, as he discussed "The Japanese Angle" Tuesday morning. That desire, he explained, was the result of an ancient assumption of superiority by China and the refusal of western nations to recognize Japanese culture.

Another factor pointed out was the dense population crowded into a small area and the fact that the increase in population has sometimes been as much as one million (Continued on Page 2.)

2 DIPHTHERIA CASES ON NEBRASKA CAMPUS

With two cases of diphtheria in the university infirmary at the present time, Dr. Rufus A. Lyman stated that any unnecessary alarm among students is uncalled for. He urged all students, however, to take necessary precautions and to report at once to the student health office if they have a sore throat or a high temperature.

Altho there are several cases in the city, the record of two at the university is not serious, he said, stating that the two students, one of which is a carrier, have been isolated

'RAT RACE,' 'BOB TAIL,' COINAGES OF CCC CAMPS

You're just a "bean jockey" regardless of whether you prepare the food or serve it, to use the jargon of the boys in the CCC camps. From the 360,000 youths enrolled in such camps over the country has emerged an interesting assortment of recent coinages, many of which have been collected at the suggestion of Miss Mamie Meredith of the English faculty through the agency of Harris Hartmann and Elwood Camp. These were listed in a recent article appearing in the periodical "American Speech." Hartmann was a reader in the English department last semester and has been continuing his graduate work at the university. He was a CCC

PLAYERS PRESENT "AS YOU LIKE IT" TONIGHT

Shakespeare's Comedy Gives
Excellent Summer
Entertainment

BY GEORGE KIMBALL.

For ideal summer entertainment, see "As You Like It," one of William Shakespeare's best comedies, tonight at 7:30 in the Temple theater.

Wednesday night's performance, the first of two by members of the university speech department, gave full sway to the abandon and carefree nature of the plot in a manner which reflected ample credit on both cast and direction. It is anticipated that Thursday night's performance will be even more successful.

Some of the best characterization of Wednesday's production was accomplished by Delford Brummer as the clown, Touchdown, who frolics thru the play with an unaffected gaiety that is refreshing to say the least. The merriment portrayed by Hart Jenks, as Jacques was so effective that it became literally a contagion with the audience.

Other excellent performances were given by Harmon Rider as Orlando, Arthur Ball as Silvius, and Helen Lawrence Ames in the role of Rosalind.

The story begins seriously enough with threats of murder and other ill doing; but when troubles are transported to the forest of Arden they seem to vanish as if by magic, and even the villain reforms. The play seems to have been written for popularity, as even the title might suggest. At the end, all lovers "are married and (so far as we know) live happily ever after."

Able direction of the play is due to the efforts of Hart Jenks and his assistants, Don Buell and Pauline Gellately. The cast:
