In the first place, primrosing has hundreds of connotations to freshmen long forgotten to upper classmen. Most first year students feel a definite struggle with their consciences when they skin their first class, take their first quiz unprepared, bull their first lab instructor, doublerross their first double date, get their first down slip, wreck their first fraternity brother's car, neglect to purchase their first text, coke away their first morning. Callous upper classers have all too soon accepted such deviations from principles as natural and smart.

morrow, But I'm telling you mugs

Save Non-Sinners.

The young souls we are campaigning to save from acute collegeiatitis are not those belonging to the boyish faced minors with a long life behind them. Nor yet, even, to the undetermined fence straddlers who are without either the courage for sin, or the stamina for virtue. We just want to keep the world firm under the feet of the kids who by background and conviction have ideals.

There's nothing on earth more vulnerable to attack from every conceivable vantage point than a belief. It's something you feel, don't reason. What makes things absolutely right or absolutely wrong to high schoolers comprises strong feeling but little logic. So when some enlightening realist lays a childhood faith barefaced with a demand for whys and wherefores, he's hitting an almost indefensible section of youth's

Which is sporting enough, I guess; some guys bash up little Easy on the Educating.

No one wants to artificially retain a college age, almost adult young person's morality at childhood's blind believing stage, Stagnation at that point is nearly as fatal to emotional maturity as a from the 150 members of chorus sharp swing to belieflessness. But classes to comprise the University kids can be helped to grow into Singers, a new choral group being their role of grownups by simply organized by W. G. Tempel. letting nature take its course. Education in the more or less lib- versity men's gles and former head eral extracurricular arts takes of the vocal department at Lincoln more easily when it is forced down high school, stated that there is a sensitive throats piping hot.

Windpipe searers often appear in the guise of more or less well meaning fraternity brothers, or helping hand sorority sisters. Some of the boys may decide that a pledge is too green on the oldest question in the world, and take it upon themselves to educate him in commercialized fashion. Or some of the girls may come to the conclusion that a new sister is not sufficently smooth, and undertake to make her over. Net result, in either case, may be a permanent and unhealthful complex. And a jaded, bitter outlook.

So go easy, you reformers. Whatever your intentions, hesitate before you play God to a trusting froshie. Remember the days of your own youth and try a little golden rule stuff. Do not to others as ye were done unto.

## AIRCRAFT OFFICIAL TO SPEAK BEFORE A.S.M.E.

Freshman Especially Invited To First Meeting of Year Wednesday.

Dale Meyers, sales director of Arrow Aircraft Company, will speak at the first meeting of the American Society of Mechanical Engineers, Sept. 22, according to C. Carlson, secretary. Free cream sodas are promised for the meeting which will be held at 7:30

Associated with aircraft manufacture, sales and training for more than 15 years, Meyers has instructed some 500 student fliers. All mechanical engineering sophomores, juniors and seniors are he urged to attend. Especially invited are freshmen who plan to register in the course.

Officers for this year are Harold Brown, president; Harry W. Brown, vice president; Don Payne, treasurer, and C. Carlson, secre-
