

Daily Nebraskan

Entered as second-class matter at the postoffice in Lincoln, Nebraska, under act of congress, March 3, 1879, and at special rate of postage provided for in section 1103, act of October 3, 1917, authorized January 29, 1922.

CARL SANDBURG SLATED TO SPEAK AT CONVO FRIDAY

(Continued from Page 1.)

driver of a milk wagon, scene shifter in a theater, and truck operator at a brick kiln. At the age of 17, he left Galesburg to travel west, where he worked in the Kansas wheat fields, washed dishes in hotels in Kansas City, Omaha and Denver and served as a carpenter's helper. Finally, he returned to Galesburg to apprentice himself to a house painter.

At the outbreak of the Spanish-American war, he enlisted in the Sixth Illinois infantry and was sent to Porto Rico where he remained for eight months. During his service he met a youth who persuaded him to continue his education and so when he returned in 1898 he attended Lombard college in Galesburg. During the four years at college, Mr. Sandburg was the captain of the college basketball team and editor of the college monthly magazine and annual.

After his graduation from college, Carl Sandburg traveled around the country engaged in various occupations. During this time, he was continually writing poetry. In 1914, he was awarded the Levinson prize by the magazine, Poetry, for the poem "Chicago." Two years later, he published his first volume, "Chicago Poems." In 1919 and 1921 Mr. Sandburg shared half the award of the Poetry Society of America. In 1923, he was given the honorary degree of doctor of literature by Lombard college, and in 1928 he was Phi Beta Kappa poet at Harvard university.

In 1926, Mr. Sandburg completed his first biographical work, "Abraham Lincoln—The Prairie Years," which is the first of a three volume comprehensive study of Lincoln. It is the product of long, patient, and persistent research on the part of the author.

English Accounts for Extra Points; Shirey, Dohrmann Shine in Forward Wall.

(Continued from Page 1.)

of 36,000 fans was dampened by the spectacle of two players being carried out of the arena on stretchers. Husker fullback McIlravy and Halfback Gmitro of Minnesota were both injured on the same play.

Bierman pulled one out of the hat for the play that opened the final period. Dusky Horace Bell, kicked a field goal from Nebraska's 23 yard line. Taking advantage of breaks, Mr. Jones' boys changed the count from 9 to 7 against them to 14 to 9 in their favor, when Andrews heaved a counter to Callihan for a 25 yard winning play.

Matheny Fumbles.

Early in the second quarter the Nebraskan's recovered a Norse fumble as Bill Matheny, sub for Uram, dropped Howell's boot on his own 24 yard line when he was tackled viciously by Lloyd Grim mand Charley Brock. The thud of the collision could be heard in the pressbox.

With the fans yelling, "We want a touchdown," Jack Dodd was put on a reverse play that lost him six yards. Not to be deterred by Dodd's loss, Howell, on a double reverse, picked up seven yards, being stopped by Lawrence Buhler. A penalty on Minnesota took place. Howell took the gain.

Harris Andrews' pass to Dohrmann failed. It was fourth down and eight yards to go. Still undaunted, Howell took the pass from center and flung the oval to Grimm, who leaped high into the air to snatch the pellet and make it a first down for the Huskers on the M. U. nine yard mark.

Dodd Picks Up Three.

Driving into the middle of the line like a water buffalo, Howell picked up three yards. On the next move Dodd lost one yard but picked up seven yards on a repeat assignment.

The Huskers were but one foot short of pay ground. The fans began to clamor for a tally.

Johnny satiated the demands of the fans as he powerhoused his way thru the Gopher forward wall for a touchdown. The stadium became a bedlam as Lowell English sent the ball thru the uprights for a successful conversion to give the Huskers a 7-6 margin.

Three minutes of playing time had been used by the Jonesmen in filching their touchdown.

The half ended with Nebraska still clinging to its narrow lead

Sociology Department Assistant Won Highest Honors at Buffalo U.

New assistant in the sociology department is Miss Marian F. Williamson, who received her B. A. degree, degree in sociology and anthropology magna cum laude from the University of Buffalo. At the commencement exercises in Buffalo this June she was awarded the Lucia Maria Houpt prize, the first student to be so honored. The Houpt prize is given for "the highest excellence and proficiency during the senior year in the department of sociology."

of one point. It was in the third period that Eldon McIlravy, Husker fullback, and Rudy Gmitro, Gopher halfback, were carried off the greensward on stretchers. Attempting to down Howell's punt on the Minnesota 20 yard stripe, McIlravy collided with a Gopher blocker while Gmitro ran into a sturdy Husker.

McIlravy to Hospital.

McIlravy was taken to a hospital where his case was diagnosed as a brain concussion. Gmitro recovered after the game but will be unable to play for a few weeks.

After a concerted drive, Bierman's gridmen put the ball on the Husker 17 yard mark as the third quarter ended. On the first play of the final period, Horace Bell, Negro guard, dropped back to the 23 yard line and sent a perfect place kick thru the bars to give Minnesota a 9-7 lead.

A Gopher fumble, early in the fourth quarter, brought Minnesota its first defeat of '37. Harold Van Every, Viking sophomore back, in attempting to handle Bill Anderson's punt dropped the ball and Callihan recovered for N. U. Their running plays were being stopped, the Huskers resorted to the air lanes.

Bill Callihan took a 25 yard pass from Andrews for the winning touchdown of the game, English's toe made it 14-9, Nebraska.

For Nebraska the outstanding players were Brock, Shirey, English, Howell, Dohrmann and Callihan. Major Jones said the whole team played sterling ball. For Minnesota, Spadaccini, Gmitro and Buhler scintillated.

Starting lineups:

|             |            |
|-------------|------------|
| Nebraska    | Minnesota  |
| Richardson  | Reed       |
| Shirey      | R. Johnson |
| Mehring     | Bell       |
| Brock       | Kulitaki   |
| English     | Tweedell   |
| Doyle       | Midler     |
| Dohrmann    | (C) King   |
| Howell (GC) | Spadaccini |
| Andrews     | Uram       |
| Dodd        | Gmitro     |
| McIlravy    | Buhler     |

Score by periods:

|           |   |   |   |     |
|-----------|---|---|---|-----|
| Minnesota | 6 | 0 | 3 | -9  |
| Nebraska  | 0 | 7 | 7 | -14 |

Touchdown: Spadaccini, Howell, Callihan.

Goal from field: Bell (placekick).

Try for point: English 2. (Placekicks).

Substitutions: Minnesota, Rimer for Kulitaki, Faust for Spadaccini, Matheny for Uram, Weld for Bell, Moore for Gmitro, Hoel for R. Johnson, Van Every for Matheny, Kilbourne for Hoel, Marinucci for Reed, Christiansen for Buhler, Schultz for Tweedell, Nash for King, Pederson for Midler, Rork for Schultz, Ohlgren for King, Nebraska: Amen for Richardson, Grimm for Dohrmann, Callihan for McIlravy, Pfeiff for English, Mills for Shirey, Ramey for Brock, Anderson for McIlravy, Plock for Andrews, Mather for Dodd, Peters for Mehring, Schwartzkopf for Doyle, Morris for McIlravy, Porter for Howell.

Officials: Referee: Fred Gardner, Cornell; umpire, H. G. Hodges, Dartmouth; line-man, Sec Taylor, Wichita; field judge, Ira Carrithers, Illinois.

As in other years the university is exchanging a student with a school in France. This year the French government has given Miss Vera Kelley of Wood River a grant covering maintenance and tuition at the University of Grenoble. In exchange Nebraska is receiving Mme. Simone Thierry who will reside at Carrie Bell Raymond hall. Also studying in Paris this year is Robert Stookey of Rushville.

120 MEN SUBSCRIBE AS BLUE PRINT SALES CANVASS NEARS GOAL

Engineering Publication Changes Distribution System for 1937.

All freshmen in the engineering college have been canvassed by subscription salesmen for the Blue Print, engineering publication, with 120 men, nearly half the class, subscribing. The campaign among the upper classes, now in progress, is expected to run thru most of next week.

The goal set of 250 seems well in sight according to Barton Berg, in charge of student and faculty subscriptions. To attain a class A rating, the publication must have a circulation equal to at least 30 percent of the enrollment in the college.

List Salesmen.

Salemen now working include Gilbert R. Golding among architectural and architectural engineering students, Jay L. King and Francis R. Loetterle among chemical engineers, Harold Turnbull and Clarence Lewis among civil engineers, Harold Turnbull and Clarence Lewis among civil engineers, James Riisness, Bernard Dalton, and Harold Bishop among electrical engineers, and Frank Cole, Ellis Smith, Raymond Bailey, Elton Wiley, and Jack Dowling among mechanical engineers. Salesmen for the agricultural engineering department have not yet been selected, but should be announced in the near future.

A new method of distribution will be effected this year for the magazine. Instead of the stand in mechanical arts building which was not convenient for all subscribers, copies will be distributed to various salesmen, each of whom will be responsible for a certain number of students receiving their copies.

First issue of the Blue Print is scheduled to be out by Oct. 10.

Sophomore Fullback Suffers Skull Fracture; Doctors See Slight Improvement.

(Continued from Page 1.)

some time lay unnoticed back at the line of scrimmage. Witnesses said that the youth was on his feet after the play but walked in a circle and fell motionless to the ground. He was carried from the field on a stretcher to the Nebraska dressing room. When the lad stopped breathing for several seconds, great concern was taken for his life.

Attending the game were McIlravy's parents, Mr. and Mrs. Frank McIlravy, who ran to the dressing rooms immediately. He also has a brother, Noel of Lincoln, and a sister, Bernice, of Tecumseh.

"The Diffraction Pattern Due to An Absorbing Prism," is the title of an article and study by Dr. Roy Spencer of the department of physics. The article was printed in a recent issue of The Journal of The Optical Society of America.

BIVIN FOUNDATION OFFERS \$100 PRIZES FOR PAPERS

Upson Announces Contest On Subject of Mental Health of Child.

Dean Fred W. Upson of the Graduate College of the university announced that the George Davis Bivin Foundation is offering the University the sum of \$100 to be used as prizes for papers submitted by graduate and undergraduate students on some phase of the relationship of emotion to the mental health of the child.

RECLAMATION EXPERT PRAISES NEBRASKA'S CONSERVATION PLAN

John C. Page Addresses Engineering College At Convocation.

Persistent water conservation is the way out of the heartaches of drouth for such states as Nebraska, declared John C. Page, commissioner of the U. S. bureau of reclamation, in a talk yesterday morning before an all engineering college convocation.

Nebraska presents a peculiar and perplexing problem, stated Mr. Page who graduated from the university in 1908, because even in normal weather its lands are partly humid, partly arid, and partly in a sort of "twilight zone." Construction of such projects as those intended to furnish water for power and irrigation on the Platte and Loup rivers is probably one of the best ways to conserve water in places where it is not plentiful the year round.

Mr. Page spoke of Boulder dam on which we worked as chief administrative assistant. That project was attacked as being impractical and foolish at the time of its construction, he said, but is now fulfilling all and more than was claimed for it, after being built in record time.

Mr. Page explained that the bureau which he heads has been the chief agency in conserving water in arid and semi-arid regions of the country for more than a generation. At the present time, it has nearly 40 projects in operation and more than a score in construction.

ADVANCED MILITARY MEN FORM SOCIETY

ROTC Engineering Students Organize; Nuerenberger Named President.

To lay the foundations for what may prove another outstanding campus activity, an honorary society for advanced students in the engineering military regiment, 25 members of the advanced engineering military course met by common consent last Thursday in Nebraska hall.

Temporarily presided over by Jay King, the group elected Howard Nuerenberger president. John Cramer and Thomas Edwards were chosen vice president and secretary-treasurer. The new president then appointed a central committee to draw up a constitution and plan a distinctive insignia for the group. Jay King, as chairman, and John Toole, John Pease and Franklin Howard were also instructed to prepare a list of names for the organization to be voted on by the members of the society.

All advanced engineering students are asked to watch the bulletin boards and this newspaper for announcements of the next meeting.
