## AS MARY ANNA SEES IT

Johnny's hitherto spotless reputation gathered a little dust, I'm told, during his recent expedition to Missouri. It seems that our football hero stopped a bit at Kansas City on his way home from the victory, and did what is commonly known as "covering town."

## SATURDAY'S THE NIGHT

Got a date for Saturday night? You'd better brush up on your technique, cause everyone will be stepping high at the Corn Cob-Tassel Truckin' Carnival. Ted Adams and his 11 piece colored band will be imported for the occasion and really it's to be quite the party.

## ANTI-CLIMAX

At last Stan Brewster, Sig Alph's junior class president, and Wilma Comstock, D. G., have culminated a two year romance by passing the stogies and chocolates at their respective houses, Monday night. Stan furnished loaded cigars for all the fellows who have tubbed him.

## THEY SAID IT WITH FLOWERS

You've heard, haven't you, of the D. U.'s romantic ways? Bob Nelson was always noted for his sentimental poetry, and now two more of the brothers have done their best to carry on the fair tradition. It all happened when the D. U.'s had an hour dance with the Theta's Saturday night. Ed Shuck and Dick Smiley made bets with Caroline Harrison and Lucille Anderson that if the girls didn't wear the flowers they brought them, the gals would stake the fellows to dinner at the Cornhusker. Came the men, and with them the flowers smelling suspiciously like limburger cheese. They were of course hastily dumped into the furnace—incidentally the house underwent a thorough fumigating. The maid still accuses the D. U.'s of putting a stink bomb in the ventilating system, and the dinner is yet in the offing. Yes, these romantic D. U.'s!

## SPEAKING OF ROMANTIC WAYS

The Pi Phi's did the rounds Monday night with their musical version of "Pi Phi Kisses." It seems to me, but maybe I'm wrong, that they sang rather with a vengeance at the Phi Delt house, but that might have been art. Which reminds me that the Phi Delt's are giving a tea for Mrs. Petermichael whom they swiped from the Pi Phi house. House mothers and chapter presidents are invited. It must be like old home week for Ginny Geister.

## SLIM DIDN'T TELL YOU

But the Kappa mentioned in Sarah Louise Meyer's column the other day was Helen McLaughlin who after reading the dissertation on "S" couldn't understand what it stood for. She must have had a lovely time wading thru the article, and not knowing what it was all about. "Anyhow, you're work is to deep for me," confessed the innocent senior.

## STAGE DOOR MODELS

Outstanding at the style show of Hovland Swanson's last night was the amazing contrast of a brocade white lame topped by a gorgeous quilted evening wrap, the outfit modeled by brunette Jean Gutzmer. Another creation that received no little attention at this charm school performance was Frances Vaughan's smart ensemble of grey caracul jacket and wool romper dress. Others in the show were Helen Burnham, Betty Ann Patton, Jane Pratt, Vivian Esse, Shirley Greene, Arlene Hawkins, Ruth Hyland, Marjorie Barnett, June Capps, Elma Lollman, Irene Seybold, and Billie Suing.

## LINCOLN ATTORNEY GIVES LAWYER'S VIEW ON LIVING

John J. Ledwitz Addresses Y.W. Vesper Services; Tells Legal Significance.

"We are loved to death, every action is governed. One of the strangest paradoxes of modern life is that we give up freedom for freedom," said John J. Ledwitz, prominent lawyer of Lincoln who gave an address entitled "Significant Living from a Lawyer's viewpoint" at the Y.W.C.A. vesper service held Tuesday afternoon at Ellen Smith hall at 5.

Mr. Ledwitz was introduced by Selma Hill and he opened the series of lectures "Significant Living," pointing out the significant of legal living. Mr. Ledwitz was president of the Nebraska Bar Association.

for agriculture, engineering, dentistry, and law.

The ten buildings housing books are Social Sciences, Brace laboratory, Morrill hall, Law College, Mechanic Arts, Bessey hall, Andrews hall, University hall, Avery laboratory, and the observatory. It requires a special staff from 10 minutes to a half an hour to procure books from these places. And since new books are pushing books in constant use off the shelves, the distribution of needed volumes is becoming exceedingly difficult.

## Thousands Are "Holed."

Dr. Miller threw further gloom over the situation by noting that the books being "holed" daily in cubbies of waste space adjacent to toilets and in basement dungeons are virtually worthless because they are of such a nature that they must be used near the stacks.

"Innumerable books, valuable to research and graduate students, are being placed where it is all but impossible to use them," the librarian declared.

Figures compiled from a survey of 222 colleges show that the average college library seats 25 percent of the total number of regular students registered. Nebraska's facilities will accommodate but 7.4 percent of the undergraduate student body.

Miller emphasized that the old idea of a library as a storehouse has become antiquated.

"There was a time," he remarked, "when books could be stored in tunnels or any other dry place without appreciable loss in usefulness. Now with the library as the principle factor in the university set-up, the workshop conception of a library is the only feasible one."

## FRANKFOTER TO DISCUSS USE OF HIGH EXPLOSIVES

Chemistry Teacher Talks At Engineers' Meeting Thursday

Col. C. J. Frankforter of the chemistry department will discuss the "Manufacture and Use of High Explosives" Thursday evening before the Nebraska chapter of the American Society of Civil Engineers.

The meeting will be held at 7:30 in room 102 of Avery laboratory, and has been changed from Wednesday to Thursday night due to Colonel Frankforter's inability to appear at the earlier date.

Col. Frankforter is a graduate of Nebraska and has been on the faculty here since he received his degree in 1903. Other lectures of this group will concern living from a housewife's viewpoint.

The Y.W. choir under the direction of Maxine Federle accompanied at the piano by Tex Rounds sang the professional. Tex Rounds played the prelude, Bernice Nellen played, "Eyes I have not seen from the Holy City." Selma Hill led the devotions and benediction. There was a special benediction by the choir. Frances Marshall is chairman of the Y.W. vesper staff.

## NO ONE BIG ENOUGH TO KICK AMERICA INTO WAR—COL OURY

(Continued from Page 1.) 27th will be celebrated throughout the country as "Navy Day." What for? Not to conquer a foreign foe, but to capture the people for large-scale naval preparedness. It was in 1922 that the day was first suggested, and by whom else but the Navy league of the United States, the organization which had to be openly fought by President Hoover in his administration, and which for years has been one of our outstanding propaganda agencies on behalf of a huge fighting marine establishment.

Why October 27th? Because it was the birthday of Theodore Roosevelt, who had contributed so substantially to the popularization of enormous naval preparedness, who had prepared the navy for the Spanish American war.

Roosevelt's Baby. It was Theodore Roosevelt, acting secretary of the navy, who gratefully received the suggestion of the Navy league and replied as follows: "The people of the seaboard are reasonably familiar with

the navy. They see the great ships. They know the navy men. In the interior of our country it is, however, a different story. . . I hope you will make an especial endeavor to familiarize the citizens of our great inland states with the everyday service their navy does for them. The navy will be glad to cooperate with you in any way it can." The proponents of armament have not been last to discover that "it pays to advertise."
